

Torpedo Boats at Sea.

The records of the English torpedo boats at the recent function in Bantry is thus summarized by a London service journal: "The eight torpedo boats attached to the Hecla were terribly detached on the passage home. Only one remained near the parent ship, one made for Appledore, and has been sent for by the Seahorse, five put into Dartmouth, and one remained by the squadron. The misery suffered by the crews of these boats in a sea-way is great indeed, sleep being almost if not quite impossible; and we look forward with interest to the report upon the fitness of these little vessels for the work upon which they have been employed. Machinery repairs have been frequent, the strain upon the engines being very great, and no fewer than eight first-class and six second-class boats have been considerably damaged by their short cruise.

A Horse that Prefers Music to Oats.

New York Tribune: "There's a horse that would rather listen to music than eat," said the driver of a Brooklyn livery coach team, pointing to a bright-eyed, Roman-nosed, shapely nag. "The way I found it out is this: I feed a team at 4 o'clock in the afternoon to be ready for evening calls. Then I go home for half an hour for my own supper. Well, usually he would have his mess all eaten up clean when I got back; but once a week I would find his untouched, or that he had just begun to feed. It puzzled me for a number of weeks; but one day I happened to stay at the stable all of the afternoon, and then I found what was the matter. Our boss, who lives next door to the stable, has a disabled child, and one of the amusements he gives her is to have some of those Italian street musicians come and play under the window for twenty minutes or so, when the little girl throws them a quarter. This makes them come very regularly. The afternoon I speak of they were there, and just as they struck up that horse, whose stall is near the door, turned his head and seemed to listen as attentively as a person. One day the boss asked me why I didn't feed at the right time. I told him the musicians had been around, and related what I had discovered. He seemed to doubt the story; so to prove it to him I took a harmonica from my pocket, an experiment I had often tried before, and played several lively tunes. The horse took his head out of the manger and kept it up, with ears cocked and nostrils wide until I stopped. 'Old Opera,' as we call him, has become a curiosity of the neighborhood, and has quite an audience whenever the band comes around."

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Fungoid Ulcers, Nervous and Physical Collapse, etc. It allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effective an alternative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine Honduras Sarsaparilla, with Yellow Dock, Stillingia, the Iodides of Potassium and Iron, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA IN SUCH

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

WE have pleasure in announcing the removal of our stock to our New Warerooms, opposite our present Factory. And we desire to express our thanks to our Friends and Patrons for the very liberal patronage they have bestowed upon us for the past two years, and which is so rapidly INCREASING as to induce us to spare no effort to supply them and the public generally with FURNITURE OF THE BEST QUALITY and Correct Designs, believing as in the past that the public will amply reward us for such efforts.

WE are satisfied that OUR PRICES ARE RIGHT, as our Sales have been steadily increasing, and this season they have been UNPRECEDENTED—far exceeding our expectations.

New and Original Departure in Coal Cooking Stoves
COMBINING
DURABILITY, HEAT AND ECONOMY.

This Cut represents my Patent Fire King Cooking Stove, with the oven, and lining partially drawn out.

as it appears while being cleaned, or when a new lining is being replaced.

THE above Stove I invented and patented in 1876, and at the present time HUNDREDS ARE IN USE, giving perfect satisfaction. A large number have been in constant use for eight years, and the repairs have been very trifling, in many instances none have been required. This valuable experience should be sufficient evidence of their durability, which is accounted for in the following:—It has, instead of a Lined Fire Box, two heavy Curvated Cylinders, which obviate the expense connected with all Square Cooking Stoves of being compelled to renew Linings and Grates, at least once or twice every year. The heat being radiated from the Cylinders to all kinds of ordinary Coal Cooking Stoves. The Cylinders are situated directly under the cover hobs, and a fire may be made in one or both, thus adapting it for use either in winter or summer, with equal satisfaction, besides effecting a great saving in fuel. I have also attached the PATENT TELESCOPE OVEN to sell my Elevated Oven Wood Stoves, such as the Waterloo, Niagara, Star, &c., causing the thousands using them to exclaim—My Stoves are worth TEN DOLLARS MORE than the same kind made by other foundries. The trade and retail purchasers will please bear in mind the fact that although a great advantage is claimed for my own Oven above all others, they cost no more, and being the sole manufacturer and patentee, no other factory can supply. Enquire for Fawcett's Patent Telescope Oven, and if your dealer has none on hand send direct to the Sackville Stove Foundry.
I am adding several new and handsome Patterns this season, which, with my former large variety of One Hundred Different Patterns and Sizes of Cooking, Parlor, Office and Hall Stoves, also Farmers Boilers, Hollowware, Ploughs, Stove Pipes and Tinsaw, comprise the most complete assortment offered by any manufacturer in the Lower Provinces. Terms and prices will be found as favorable as can be obtained elsewhere.
