**The Coin Came Back.**  
"I have once or twice read how small the world was," said a young fellow, "and once or twice I have seen stories of the same kind I am going to tell. I confess I never believed them, but now I know better. Last summer, when in New York on my annual visit, I was struck with a sudden whim and scratched my initials on a 25 cent piece, cutting into the silver deep enough to make a lasting impression. I paid for a cigar in the Hoffman House with the coin and gazed myself with being foolish. I had forgotten all about the quarter when I entered a Carrollton car and gave a half dollar to the conductor. Imagine my surprise when he handed me in change the 25 cent piece I spent in the Hoffman House! I think I will keep the coin now and ever more as a curiosity," and the speaker pulled the money from his pocket and showed it in verification of his story.—New Orleans Times-Democrat.

**Power Exerted on a Bicycle.**  
Some recent results of tests made by Professor Carpenter of Cornell to determine the power required to drive bicycles may be of more interest to electrical engineers if reduced to their familiar unit of power, the watt. These tests show that for a speed of five miles an hour on a good level road the rider works at the rate of about 19 watts, which is about one-third the power used in an ordinary 16 candle power incandescent lamp. At ten miles an hour the power applied by the rider is about 80 watts, and for hard, continuous riding 100. For a short period a good rider can work at the rate of about 250 watts. Every lighted incandescent lamp therefore consumes about the same amount of power as that developed by three bicycle riders under the ordinary conditions, while it is possible for a rider to expend about as much power as is required for about five of these lamps.—Electrical Engineer.

AN EYE TO THE FUTURE.

**The Widower Made Plans For His Fourth Honeymoon.**  
Included in the wide membership of the Pacific Union club is a middle aged man whom everybody knows simply as the Widower. He has been so fortunate as to outlive three consorts without getting tired of any of them. His many bereavements have given him a sort of professional standing in the world of sorrow, and he is rather proud of his reputation for constant mourning. The Widower, whose grief is interesting to ladies, is never ostentatious in his sighings. On the contrary, he cultivates an air of patient resignation, beautiful to behold. A peculiarity about his case is his habit of associating the memory of each dear, departed spouse with some spot or resort about the city or the suburban towns. He was recently showing San Francisco and its environs to a friend from New York. Over in Berkeley, he remarked, sighingly: "Here I once walked on flowers, for my Elizabeth was with me then." Out in the park he was careful to indicate the exact spot where poor Katharine had sketched the landscape with her right hand, while her left was clasped in his. At Sutro Heights he dropped a single tear, developed with great difficulty, as he gazed on the beach, where, not so very long ago, he sat with his arm around his sainted Caroline. "If I ever marry again," he remarked musingly, "I think I shall bring her here."

**Beyond Medical Skill.**  
Master—Late again, Sandy! Can't you manage to get here in time?  
Sandy (with a delectful headache)—I panna sleep o' nights, sor, and so I'm loath to get up in the mornin'.  
Master—En, man, sleepiness! Why don't you consult a doctor and get at the cause?  
Sandy—I get at the cause weel enough, but it'll no shut up. It's 6 weeks auld and an awful yell.—Glasgow Times.

The polar currents contain less salt than those from the equator.

Afghan women are never jealous of each other.

**School Laws in Switzerland.**  
If a child in Switzerland does not attend school on a particular day, the parent gets a notice from the public authority that he is fined so many francs. The second day the fine is increased, and by the third day the amount becomes a serious one. In case of sickness the pupil is excused, but if there be any suspicion of shunning a doctor is sent for, and the parent is required to pay the cost of the doctor's visit.

**Legend of the Tea Plant.**  
Dharma, the ascetic priest, was the son of a king of India. He went into China, and for the space of nine years he remained in contemplation in a temple. Later he went to Japan, and he died on Mount Katavka. He imposed upon himself, as the first rule of his life, privation from sleep. One day, indignant at falling asleep, he cut off his eyelids and threw them away as miserable sinners. From the spot where the eyelids had fallen sprang up a bush which is the tea plant, affording the perfumed beverage which chases away sleep.—Vick's Magazine.

**Simple Ruby Lamp.**  
Secure an ordinary quart size red Rhine wine bottle and by gently tapping on the bottom thereof break out enough glass to allow the insertion of a candle. A hammer can be used for this purpose, if a little care be taken. Then wrap a piece of ruby paper all around the bottle, securing same by paste or mucilage. The lamp is now ready for use, and by standing the bottle on a triangle of burned matches and lighting the candle, will burn without any trimming of wick and other oil lamp inconveniences. The little white light emanating from the top will do absolutely no harm.—New York Mail and Express.

**Curious Typographical Errors.**  
Dr. Daniel of the Texas Medical Journal, referring to a recent editorial in The Statesman on typographical errors, gives an amusing experience in that line. He says he wrote, "Dr. Jno. Bailyhache act 74 years, born July 22, 1822, and died"—Imagine his disgust when it appeared in The Journal, "Dr. Belyhache at 74 years of corn July 22, 1822, and died."—Austin Statesman.

**Rheumatic Torture**  
South American Rheumatic Cure Cures in 1 to 3 Days.  
Solomon Woodworth, of Hopewell Hill, N.B., is rescued from a deplorably helpless condition, induced by the agonies of rheumatism. Mr. Woodworth had contracted rheumatism of the severest form and in a very short time was incapacitated for work—for weeks he could get no rest—suffered the most violent pains in his arms and shoulders—grew worse and felt he could not live, so terrible were his sufferings—his arms became perfectly helpless. He began taking South American Rheumatic Cure—after the second dose he experienced great relief and at the end of three hours every vestige of the pain was gone—the use of his hand and arm returned gradually and he feels altogether like a new man and to-day rejoices in a cure which he proclaims almost a miracle. South American Rheumatic Cure cures in 1 to 3 days every form of rheumatism and neuralgia. Do not suffer longer—it will relieve in six hours.  
South American Nerve soothes the nerves and cures all forms of nervousness.  
South American Kidney Cure cures only kidney diseases—relieves in a few hours. 12
