

# If you can't decide between a high-performance car and a low-price car, don't buy two... buy a Pontiac.

If you're a practical man with a budget to keep... and you've a sweet tooth for adventure, what do you do for exciting transportation? Simple. You buy a low-price, high-performance car. A Pontiac. Pontiac has plenty of room for the whole family. It's solid and comfortable, too. And good to look at. And inexpensive to operate. It's built especially for people like you. Once you've test-driven any one of Pontiac's 54 beautiful

models, you'll realize that precise handling and quick acceleration *can* be matched with luxury and big-car roominess. It's Pontiac's new brand of performance that does it. Just take a look at the horsepower ratings of Pontiac's five V8 engines: 195, 275, 325, 390, 425. So you see... you don't have to buy two cars to get economy and fun in the same garage. The Success Car has done it again.
