Mr. W. B. KNIGHT, Secretary of the Peters Combination Lock Company, is on the Island on business of the Company.

SALMON poaching on the Miramichi has assumed great proportions, and the protection afforded by the fish wardens is a dead letter.

SIR HECTOR LANGRISH is at the Baie des Chaleurs. He will return to Ottawa about the 12th, and leave on the 21st on a visit to Manitoba.

ALL the Sabbath School Teachers in the city, are specially invited to hear Mr. Porter in the Second Methodist Church this evening at 8 o'clock.

SIR ISAAC NEWTON said that infidelity would probably prevail until it had quite banished superstition, but then would be swallowed up by the great light and evidence of true religion.

MR. S. FAIRBAIN, has advertised in the St. John papers that he is ready for a three months tour. He wants a responsible manager of his entertainments. We hope he will be successful.

THE Fairbairn Family will perform to-morrow.

THE Montreal Gazette says: "Dr. Robertson has been particularly unfortunate, forfeiting his seat in both the Provincial and Dominion Parliaments—in the former by voluntary act, in the latter by neglecting to comply with the provisions of the law."

THE EXAMINER was delayed to-day on account of the non-arrival of our regular special telegrams. The storms of yesterday had interfered with the lines. In order not to be behind the times, we at once telegraphed to Sackville for the latest news, which will be found in another column. This accounts for the political complexion of the Ottawa news.

A PARCEL has been received at our office addressed to "Chiel." The parcel contained an exquisite bathing dress, with lace "fixings." "Chiel" hereby acknowledges the gift, and is glad to know that the "penitents" have taken pains to spend their leisure in profitable and more decorous employment than those which the "Chiel" found cause to complain of.

ACCIDENT AT PICTOU.—On Wednesday, last week, Mr. Henderson, engineer in Hamilton's Bakery, got his arm caught in the roller, and before the machinery could be stopped it was lacerated nearly to the shoulder. Up to Friday it was not known whether amputation would be necessary or not. This misfortune will be very much felt by the Pictou Band, of which he was the leader.

RESERVED SEATS for the Fairbairn entertainment can be procured at the Medical Hall.

REMEDY FOR POTATO BUGS.—Mr. William Smith, of Petitoctiac, has discovered a "remedy" for the potato bug. He puts his hens in the potato field, and the number of bugs that one hen will get away with is surprising. Our correspondent saw a number of the hens at work one morning, and they worked with a will. Their execution was admirable and the destruction of "bugs" terrible.—Moncton Transcript.

TO-MORROW, the 10th of August, duck shooting will be commenced according to law in this Province. We are sorry, however, to learn that the law has been broken by those who are supposed to maintain it, and that "hoppers" have been shot or hunted down several days ago. This being the case it would be well for the energetic President of the Fish and Game Protection Society to bring the offenders to justice, and hereafter prevent them from diminishing the splendid game in which our rivers and ponds abound. It would also be well if the society would postpone the time for shooting duck until the end of August.

The first battalion of the Black Watch Highlanders left Edinburgh last night by train for London, on the way to Egypt. A great crowd witnessed their departure, and the band played "Auld Lang Syne." Great enthusiasm was manifested.

A special says it is now admitted that Russia has been making warlike preparations for the last six weeks.

It is said the delay in England in forwarding her army to Egypt has been caused by a knowledge of these facts.

GENERAL CABLE NEWS.

LONDON, Aug. 7.

The Daily News' Vienna despatch says that it is reported from Constantinople that the British have intercepted a courier bearing despatches from Arabi to the Sultan.

The Standard's correspondent says many of the enemy threw themselves into the canal and were drowned, or shot, as they swam across. When marines fell back the movement was steadily carried out in good old fashion of British soldiers. When a man fell, his next file would cry out for a "str-tcher" and stand by with his rifle at the ready, until the wounded man was carried away.

CONSTANTINOPLE, Aug. 7. It is stated that 3,000 Turkish troops sailed on Sunday night from Salonica for Egypt via Suez Bay, and 16,000 more are under orders for the same destination.

At the sitting of the Conference to-day, the Turkish delegates accepted the conditions proposed by the powers in their invitations to the Porte to intervene in Egypt.

ALEXANDRIA, Aug. 7. The enemy's first line was not entrenched but was sheltered partly by brush-wood and houses, and partly by barricades erected with carriages taken from Alexandria. One of the two attacking trains yesterday had empty trucks in front to test the line. The track was found torn up near the junction and the train had to stop to replace the rails. More than once it was rumored that Arabi was slain. The Egyptians fought determinedly. Their wounded were carried to the British rear and carefully attended to. Lieutenant Vyse fell while gallantly pressing to the front of the left wing of the attack. Lieut. Vyse bled to death, as his arteries were severed by a shot which struck him. His comrades carried back his body under tremendous fire. Two wounded men, able to use their rifles, covered their retreat; the ground was strewn with rifles and accoutrements of the enemy. Neither dead nor prisoners were left in the enemy's hands. The ambulance steamer worked well.
