THE boats crossed from Cape Traverse to Cape Tormentine to-day—arriving at the latter place at 3:20 this afternoon.

HOCKEY.—There will be a meeting of the Hockey players at 7:30 p. m., this evening, the 27th Jan., for the purpose of organizing a club.

THE Pioneer reports that on the morning of the 18th inst., as Mr. Eli Gallant, of Fifteen Point, was going out to feed his cattle, he slipped and fell on some ice, fracturing his skull, from the effects of which he died about eight hours afterwards.

JOSEPH TAYLOR, City Surveyor, warns all persons against depositing snow or rubbish of any description in the neighborhood of the winter landings. This is a move in the right direction, and we trust any person infringing on the by-law governing such cases will be dealt with as the law directs.

REV. J. HURCHISON, M. A., will (D. V.) officiate on Sabbath first, the 31st inst., at North River, at 10:30 a. m.; at New Glasgow Road, at 2:30 p. m.; and at Hunter River at 6 o'clock in the evening, if the fall be disagreed. At these times and places he will deliver a discourse to young men.

THE Summerside Pioneer says that on Thursday, the 21st inst., Mr. Duncan McPherson, of Hamilton Road, Lot 8, while cutting down a tree, sustained injuries which resulted in his death. The tree lodging, he attempted to cut down the one obstructing it, when the first fell, striking him on the head and falling on him. Not arriving home to dinner, search was made when deceased was found as above stated. He never regained consciousness, and died in an hour or two after. Deceased was 61 years of age, and had moved from some part of the Town Road nine years ago.

THE base burner stove, the telephone and other improvements of a like kind have worked a domestic and social revolution within the last few years. Among these improvements it is not unfair to include the "Myrtle Navy" tobacco. The great majority of men smoke tobacco; have done so for centuries past, and will continue to do so. It is important therefore, that they should smoke the best quality of the article. That is what they are supplied with in the "Myrtle Navy." All smokers who have used it know that its flavor cannot be surpassed, that its quality is always uniform and that the only care they have to exercise in its purchase is to see that the trade mark T. & B. is stamped on the pack.

SMALLPOX.—Dr. Jenkins yesterday afternoon received a letter from Robert Cox, Chairman of the Morrell Board of Health, asking him to visit that place and examine three suspicious cases—children—in the family of a man named O'Brien. None of the physicians of the neighborhood could be induced to go near the patients, as it was suspected they were developing smallpox. The Doctor will visit and examine the cases as soon as possible. The seventeen suspicious cases at St. Dunstan's College are all now in perfect health, and were out walking to-day. The patients at Winsloe Road, Afton Road and Fort Augustus are all doing well. No new cases have developed at either place.

THE Carnival, to be held in the Roller Rink to-morrow evening, promises to be one of the best ever held in the city. The Rink is being gayly decorated and otherwise made attractive and comfortable. Already upwards of seventy ladies and gentlemen have entered, and a large contingent will arrive from Summerside to-morrow to take part in the affair. The Band of the 82nd Battalion will open the evening's amusement with a grand march on rollers. This is a new feature in carnivals and will doubtless be much appreciated. Each skater is requested to go provided with a card, upon which his name and the character he represents is legibly written, said card to be handed, on entering the Rink, to the gentleman in waiting. Skating commences at eight o'clock. Admission to promenade, 25 cents.

MA. JAMES STEWART, of East River, informs us that on Monday evening last he witnessed a singular phenomena a short distance from his residence. About half-past nine o'clock that evening Mr. Stewart and his wife noticed a peculiar light—about two feet in circumference—moving along at a height of about six feet from the ground. Sometimes it would move along quite rapidly, and at others it would stop. When Mr. Stewart first saw the light it was coming out of a neighboring wood—that of Charles Mann. It then passed across Appleton Farm into another wood on the east side thereof. Passing through this wood the light crossed the farm of James Burns and disappeared in the woods on the adjoining farm of Alex. McGregor. Mr. Stewart and his wife watched for the re-appearance of the light for upwards of an hour, but could not observe it again. Monday night was bright, and there was no necessity for any person being abroad with a lantern—a fact which, coupled with the peculiar appearance of the light, makes the affair all the more mysterious.

TEMPERANCE IN KING'S COUNTY.—A meeting of the Municipal Temperance Alliance for King's County met in Souris on the 20th inst., when, notwithstanding the state of the roads and the inclemency of the weather, there was a fair representation of the active temperance workers for the County, the Rev. William Peelan having driven all the way from Montague to be present. The principal business before the Alliance was the consideration of the best course to be pursued in carrying out the Scott Act, now that the License Act of 1883 has been pronounced unconstitutional. Inter Alia, it was agreed to appoint Messrs. Olay and Weatherbie as prosecutors for the County. Also agreed to hold a series of meetings in the County for the purpose of keeping alive the minds of the people as to the importance of the temperance cause, the first to be held in Souris on Wednesday, Feb. 10th, at 7 o'clock, when there will be a meeting of the Alliance at the close.

THE number of deaths in the chief cities of Canada for the month of December was: Montreal, 460; Toronto, 197; Quebec, 208; Hamilton, 65; Halifax, 73; Winnipeg, 21; Ottawa, 72; St. John, 55; Charlottetown, 39; Fredericton, 9.

OUT of 7,885 deaths in Montreal during 1885, 3,164 were from smallpox. Commercially, Montreal could not have suffered very severely, as the annual report of the Montreal Board of Trade states that the depression of trade at the close of 1885 was not so marked as in 1884.

THE Journal says:—"Our people do well in patronizing the Island Cloth Factories, and we have no doubt, but with a liberal support to those mills by our farmers, and the growing by them of a finer grade of wool, our Island will before long be enabled to produce cloth equal in appearance and durability to any produced in America."

THE Rev. Mr. Campbell, of Wood Islands, has been lately the recipient of an excellent winter outfit, in the shape of a valuable fur coat, cap and mitts, presented to him by his friends at and around Caledonia, including Pleasant Valley and vicinity. Being now well prepared to face the storms of winter, Mr. Campbell hopes to be able to attend to his duties with more comfort to himself and satisfaction to his people. He gratefully acknowledges the receipt of these gifts and thanks the generous donors. He values these presents; but much more does he value the good will of the people toward him, which these gifts reveal.

NOTES. Not the promissory, but facts about WELCOME SOAP, an article that does not contain one particle of the adulterations used to reduce the cost of "Pure Goods," but does possess the value of legitimate Washing Qualities, the demand for which proves the advantage gained by the use of the genuine over Soaps of doubtful character. None should be deceived even by Red and Yellow Wrappers, or any of the imitations of the WELCOME, as a pair of clasped hands is stamped on every bar. Made by CURTIS, DAVIS & Co.
