The Public Accounts.

The Public Accounts of Canada for the year ending 30th June, 1878, were laid before Parliament on the 17th inst. The total liabilities of the Dominion at the close of the year were \$174,957,268.96, and the assets \$34,595,199.05, making the debt on June 30th, 1878, \$140,362,069.91, against \$133,235,309.03 last year. This increase of more than \$7,000,000 has been caused by reductions in the assets of the Dominion, the Government deposits in banks having been decreased \$3,274,006, and the amount in the hands of financial agents reduced \$4,747,926.33 during the year. The rate of interest which the total liabilities of the Dominion bear was reduced from 4.08 per cent. to 4.05, and the interest accruing from the assets increased from 1.55 per cent. to 1.63 per cent. The average rate of interest paid on the net debt in 1878 was 4.65 per cent., against 4.85 per cent. in fiscal year 1877. The expenditure of capital account in year ending June, 1878, was as follows: Miscellaneous public, \$4,020,010.49; Pacific Railway, \$2,228,373.13; Intercolonial Railway, \$408,816.74—making a total expenditure of \$6,657,200.36.

The expenditure on capital account was \$469,560.52 less than the increase of the public debt during the year. The statement of receipts and expenditure during the last and preceding fiscal year is as follows:—

The deficit on the ordinary transactions of the year ending June 30th, 1878, was, therefore, \$1,128,146.37, against a deficit of \$1,460,027.66 in the previous year.

The total receipts were as follows:—

1876-7. 1877-8.		
Consolidated Fund	22,059,274 11	22,375,011 88

The item of "loans" in the revenue is made up of \$903,166.00 invested in Dominion stock and \$7,427,379.54 deposited in Government Savings Banks; this amount is off-set on the expenditure side of the account by \$1,738,745.25 for redemption of public debt and \$6,400,997.02 withdrawn from Savings Banks. The expenditure on "open accounts" comprises the capital expenditure of \$130,000 on improvements of the St. Lawrence, \$6,657,200.36 on public works and \$591,500 on investments. The expenditure on account of public works includes \$1,635,205.54 on St. Lawrence canals, \$2,138,392.09 on Welland Canal, 2,228,373.13 on Pacific and \$408,816.74 on Intercolonial Railway.

These accounts, like preceding accounts, show that under the rule of the austere Reformers the controllable expenditure never ceased to increase. They took office to reform Tory extravagance, and the figures show that they exceeded it in every branch of the service, not by "a few dollars here and there," as the *Globe* pleaded, but by thousands and tens of thousands of dollars.

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year, especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find, too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had *Boschee's German Syrup* been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the Throat and Lungs, *Boschee's German Syrup* has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.
