(From the London News of the World, Sept. 28.)

THE AGE OF SHAMS.

Mr. Editor,—The efforts that are made to popularize the 'Russian dinner,' and the 'light wines of France,' are in accordance with the history of British enterprise and ingenuity; but there was a time (and it was not very long ago) when these spirited exertions would have been denounced as having a political bearing, a treasonable conspiracy, perhaps, to denationalise the people, and reduce them from their fine condition, which originated their typical name of 'Bull,' to the feeble attenuity which a popular error has given to the personal characteristics of foreigners. We are correcting old false impressions, but are willingly receiving new ones; and the latter are scarcely less extravagant and absurd than those which preceded them. The 'Russian dinner' is a mere pretext of people who want to make a grander appearance than their pecuniary means allow, and who, accordingly, give their guests a banquet of flowers upon the table, and a cut of mutton from the back stairs, back rooms, back table, or some other obscure corner, where the servants ingeniously carve the joint to make it go a long way, behind the backs of the guests.

Of all the dismal shows which full-blown vanity makes in this very pretentious age, the 'Russian dinner' is the dismallest and most pretentious. It carries poverty upon the face of it. The very flowers appear to cry out 'humbug,' as they scent the air. Nevertheless, a fashionable paper, a paper that administers to the literary tastes of a class of persons who, sitting at the outside of the fashionable circle, wish to belong to it, and make an appearance as if they did belong to it, discourses of the new fashion, and jauntily says, in the course of an elaborate panegyric, 'light wines and French dishes have fairly driven from the field the ponderous joints and heavily loaded wines in which the Englishman's heart was wont to rejoice. The polished splendour of 'the mahogany' upon which he prided himself have given way to a table-cloth of snowy whiteness. (And are we to consider the table-cloth rather than the dinner?) The massive silver plate which once glittered on the board has been transferred to a buffet (possibly to 'my uncle's'), while its place has been taken by the *chefs-d'œuvre* of Sevres (coloured earthenware), crowned with exotics, the very names of which were unknown at the beginning of this century. The hour at which guests are invited, still more that at which they present themselves, would rather suit our veteran's ideas of supper-time.' It having become a vulgar thing to eat beef, the good host gives his guests an orchid or an Ilium, to feast his eyes upon, whilst the servant nudges him by the elbow, and insinuates a small plate of something that will do for the satisfaction of his carnal appetite, which it is necessary to satisfy, but vulgar to acknowledge. Now, sir, I confess that without going to the extent of our forefathers' notion, I do believe that the physical strength, and, consequently, the political greatness of this country is, to some considerable extent, attributable to the generous living of the people. I have an abiding faith in beef. I believe in the virtue of a juicy saddle of mutton. After them, the deluge!

It is with respect to the political character and tendency of the new 'kickshaw' innovation, that I regard it with disfavour. I have no objection to good light French dishes (when I know what they are made of), nor to good light French wines, if they are really good, really French, and not like the acquirement of fine old Chaucer's boarding-school young lady—

"The French of Stratford-atte-Bowe;
The French of Paris she did never know."

But, for the sake of the ancient honour and abiding glory of old England, let our generous national food be paramount. If your means are not sufficient to cover the expense of the traditional banquet, let us have the grand sirloin alone in its glory. What a sight! Your exotics and your earthenware figures, in any profusion, cannot come up to that. What an odour supreme comes up from the dish! What a sight is presented by the gravy following the knife! And when you go home it is to dream of green fields and trees, whence the fat ox derived its richness, and all the sweet and holy things that are associated with fields and flowers.

But your Sevres (real or mock), your pinks and polly-anthuses, stuck in a pot of water to keep them alive, and the bit of something cut off the joint at the back of the room, and surreptitiously glided in front of you, for you to eat, are injurious and detestable Shams, which bring you down to a feeble state of mind and body, in which you are at length to appreciate nothing above the condition of a *Lord Dundreary*, whom you really fancy it is a good thing to copy! and to digest nothing more exciting than a fricasee of a pretty girl's white kid glove.

'Could one of the Amphitryons of bygone times be suddenly resuscitated,' says Jinkins, 'and placed an unbidden guest at a modern dinner party in Belgrave-square, he would probably deplore the degeneracy of the present age. He would denounce indignantly as milk-sops and novices the recreant squires who join the dames after a brief post-prandial delay of half-an-hour, during which a couple of bottles of claret (at ten and sixpence the dozen?) have sufficed to answer the demands of the whole company. Our 'upper ten thousand' have learned a lesson of sobriety from their neighbours, which their inferiors have yet to learn, and which they can only be taught by being familiarized, as their betters have been before them, with cups which may be said, in the truest sense of the word, 'to cheer but not inebriate.'' If Belgrave square really does these things, Belgrave-square ought to be ashamed of itself. For Belgrave-square, you know, is inhabited by the pride of the aristocracy, the flower of the flock, the cream of the creams, the descendants of the fine old men of old, who, whilst they feasted all the great (and feasted them well), 'did ne'er forget the small.' Have they come to such a pass as this, which the *Morning Post* describes? And do they allow us nothing to chronicle but 'small beer?' Men of their wealth and fortune should scout such mere pretences of dining as may become the circumstances of a Russian boyard, but are really mean in an English nobleman.

But the very writer who would popularize French Wines as cheap as dish-water (and not much better), records what is really a fact that the people of *la belle France*, who make cheap wines, have really a liking for good English Beer, and largely purchase it. "It is curious enough to find (we quote his words) that in strict obedience to the law of reciprocity, our really wholesome national beverage is already finding its way extensively into France! It is even doubtful whether for certain specific purposes, and under limited conditions, John Barleycorn does not enjoy a legitimate superiority over Bacchus. This at least is clear, that the more he becomes known the better he is appreciated by our neighbours.' The real fact is (and shrewd Frenchmen are finding it out) that one pint-bottle of genuine pale ale is worth a whole hog-head of their small drink. But you must not understand that one-half what they give you for pale ale is really what they say it is, any more than the wicked wash which is put off upon ignorant inquirers for 'light French wine' is the veritable produce of Bordeaux or Burgundy; for pale ale requires more careful treatment than even the finest wine; and your ordinary dealer, pleased to cultivate your ignorant belief that friskness is the true characteristic of the good drink, gives you abundance of froth and sparkle with ease, and makes you wonder how anybody can like such soapy and physicky stuff. And when you get the real thing it is necessary you should have discretion, and self-command, which is not needful in the matter of that fine light claret at twelvepence the bottle. I am one of those men who prefer 'a little and good' to a great deal and bad, and wish to bring other men to my way of thinking. I am no enemy to good French wine; but I wish to have it good; and I no more believe in the virtue of the wine which many of my countrymen are drinking (and profess to like) than in the efficacy of a Russian dinner for making a perfect Englishman.

Sham, Sir, is the vice of our age. People do so love the shining brass and the tinkling cymbals! Only to think what magnificence there is in the jewellers' shops in Paris! And how paltry the imitation of the sham in London. Shams of all kinds are odious, but imitation shams are most detestable. This is an age of appearances. A fine gentleman gives a fine dinner of flowers, and elegant wines which Mr. Gladstone himself might like to drink (?), and which are put into his cellar at the magnificent price of 10s 6d a dozen. He wants to 'cut a figure.' And he does cut a figure. But, my dear Sir, I would prefer to eat my simple chop in a tub, like old Diogenes, to dining with that man, and to simper with Madame, and profess a thousand hypocritical friendships.

Society, Sir, is rotting at its core. It is growing rich, but rich in nothing that creates real happiness here, or gives a reasonable hope of happiness elsewhere. We pipe the dance and pile up heaps of wealth, and wonder, after all, at the dullness and disappointments we experience. What else but disappointments can there be, when at the foot of society we find those noisome places, in a blaze of triumph, which I will not particularize, and its apex the poor and brazen hypocrisy which is typified by the Russian dinner!

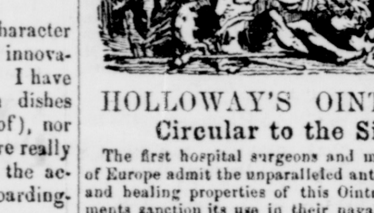
The Ready and Reliable Remedy.



HOLLOWAY'S OINTMENT.

Circular to the Sick.

The first hospital surgeons and medical authors of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country, and throughout the world, repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutralizes the fiery elements which feed and exasperate the malady.

Rheumatism, Scrofula, Erysipelas.

These are among the most terrible and agonizing diseases, yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation.

King's Evil, Fever Sores, Stiff Joints.

In cases of King's Evil where medicinal waters, lotions, and every recipe of the pharmacopœia have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

Discharging Ulcers.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the orifice is filled up with sound material and the ulcer is radically cured.

A Word to Mothers.

The young are the most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for burns, sprains, and bruises, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

Heated Blood, Scorbutic Eruptions.

This Ointment is universally resorted to with the happiest effects by seafarers for easing and curing the skin diseases resulting from the continued use of salted provisions. It is largely and successfully employed by sailors of all nations for curing the scurvy and the annoying eruptions which spring from overheated blood. Its fine cooling properties are invaluable in inflammation, ulcers, or sores, of the legs or feet, and it gives greater ease than any other application to the aches and darting pains, produced by varicose veins or neuralgia, resulting from exposure to cold or wet.

Wounds, Bruises, Burns, and Scalds.

The extent to which mechanical and manufacturing industry in this country has reached, is greater than in any other, therefore the liability to bodily accident has increased in the same ratio. Accidents are lamentably frequent, and often when seemingly trivial in themselves, are made to end fatally from want of due attention and proper remedies. The most powerful curative ever applied to wounds, bruises, burns, or sores of any sort, is Holloway's Ointment. Every tradesman, in fact, every man to whom an accident may happen — and who is there exempt?— should be provided with it against the physical dangers which, though never foreseen, are of hourly occurrence.

Bad Legs, Piles, and Fistulas.

The cures which this Ointment effects in healing Ulcers of long standing, and which have resisted all other applications, as well as in curing bad legs, Piles and Fistulas, have been so countless and so notorious throughout the world, that any effort to give an adequately detailed statement of their number or character would be vain. It is sufficient to say that the Ointment has never proved inefficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Corns (Softs)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore-throats
Bite of Moschetoes and Sand Flies	Fistulas	Skin-diseases
Coco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore-heads
Chilblains	Lumbago	Tumours
Chapped Hands	Piles	Ulcers
		Wounds
		Yaws

THE NEW FRENCH REMEDY.

By Royal Letters Patent, under the special sanction of Her Majesty's Government, and the Chiefs of the Faculte de France.

THERAPION:—or CURE OF CURES. This successful and highly popular medicament, as employed in the continental hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of *taste*, *odour*, and *appearance* of medicine, it can be left or carried anywhere, and taken from time to time without exciting suspicion Each package contains full instructions for every case.

THERAPION, No 1, in three days only removes gonorrhœa, gleet and all discharges, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destruction of the nose and palate; impurity of blood, scurvy, pimples, spots, blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly disappears; and the skin assumes the pleasing softness of infancy.

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications; and restoring the lost tone to the system. Therapion may be procured at 11s, and 33s per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s. are saved: and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

Her Majesty's Hon. Commissioners have graciously permitted the Government stamp bearing the word "Therapion" in white letters, to be attached to each package; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringment of which they will prosecute with the utmost severity.

Agents for England, Thomas & Co., 7, Upper St. Martin's-lane, London; Raimes & Co., Liverpool; Apothecaries Comp., Glasgow; Ferris & Co., Bristol; Cornish & Co., Plymouth; Rowe, Devenport; Randall & Co., Southampton; and obtainable through all medicine vendors in the known world, or in case of difficulty, by enclosing a draft or order for £5 or £10, according to the nature of the case, payable in London to Messrs. Thomas & Co., as above, a large package will be sent by return mail, carefully secured from observation or accident.

PREMATURE DECAY OF THE SYSTEM, and its perfect restoration, whether arising from youthful imprudence or the excesses of adult life, infection, climate, &c. Observations on marriage, the prevention and removal of certain disqualifications. Rules and numerous prescriptions for self treatment. Sufferers who are prevented from matrimony by the consequences of imprudence should read this work, as pointing out the sure way to restoration of health. Sent post free in an envelope on receipt of 3s, by Mr. Lawes, Medical Publisher, 14, Hand Court, London.

The Cause and Cure of Premature Decline.

Sold by all the Agents for Dr. De Roos' Medicines, or sent post free, secure from observations direct from the Author, for 2s 6d.

THE MEDICAL ADVISER on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system. By Dr W De Roos, M. D., M. R. C. S., L. S. A., &c., *of the Ecole de Medicine, Paris, Graduate in Medicine, Surgery and Midwifery; Licentiate of the Royal Society of Apothecaries, &c.*

REVIEWS AND NOTICES.

"To be your own counsel or your own doctor, entails risks that have become proverbial to a degree that prevents much good resolution from taking any benefit or advantage when reasonably offered. Suspicion begets irresolution, and where there is no confidence good results seldom follow. Medical books are a field for the faculty alone, and the public act wisely in refraining from their study. 'Drink deep or taste not the Pierian spring,' is good advice where the uninformed mind, listening to its own apprehensions is oftener ready to imagine than use its cool judgment. There is one class of medical lore, however, that stands in a position somewhat exceptional to our remark, and which treats on disorders and irregularities in which morality is offended. For this reason the patient too often suffers in secret, or pursues in ignorance practices that daily bring him into a more hopeless condition for want of friendly advice. To such we recommend a perusal of the 'Medical Adviser' of Walter De Roos, M. D., of London, an established Physician, graduate and licentiate of all the regular institutions of London and Paris; and who has made nervous disorders and their baneful origin his particular study, and obtained such a practice in this branch of therapeutics, as qualifies him to be a safe and competent adviser.—*County Chronicle, May 7th, 1861.*

"The **MEDICAL ADVISER**, by Walter De Roos, M. D., for the class of diseases upon which it treats is undoubtedly the best and most soundly practical book which has come under our notice The author is a man of most enlarged experience."—*Derby Telegraph, June 29th, 1861.*

To those who contemplate marriage its perusal is especially recommended.—The knowledge it imparts must come *some* time, and happy they who do not possess it too late.—Cure is certain in every curable case, and few indeed are they which are not so.—It is calculated to effect a complete revolution in the treatment of these complaints.—Simple and inexpensive, every sufferer may cure himself speedily, privately, and at the least possible cost.

From long practical observation of the treatment pursued in the most famous Institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness, whilst to all who need such aid he offers every assurance of speedy restoration.

Foreign Residents can be successfully treated by correspondence, on sending the detail of their cases, with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail, thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur.

DR. DE ROOS' GUTTÆ VITÆ or LIFE DROPS; *Protected by Royal Letters Patent of England; Seals of the Faculte de France; Royal College of Prussia, &c*, have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa, languor, lassitude, depression of spirits, irritability, anger, excitement, needless fear, distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart, giddiness, noises in the head, impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates the impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all those diseases in which mercury, sarsaparilla, &c. are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As these complaints if neglected become chronic or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicines, to make fair trial of a remedy, which concocted on unerring scientific principles, cannot fail, and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price, 11s, and four times the quantity at 33s per bottle. The £5 packages containing twelve 11s quantities, by which a saving of £1 12s is effected, will be sent from 25, Bedford Place, only on receipt of the amount per draft on a London house or otherwise.

Extracts from letters which can be seen by any one. "I am happy to say that I am now quite well, thanks to you and your medicine of medicines."—*D. P. St. Asaph.* "I am happy to say that I shall not require more, thank God, and I hope He will reward you for what you have done for me."—*A C., Hartlepool.* "If my tongue could speak, or my pen could write to express my gratitude to you I should feel happy, but neither tongue nor pen of mine can do so."—*H.A. Birmingham.* "Without you I should have been in my grave, but now I am a happy man again."—*D F.F., Inverness.* "I can never thank you sufficiently; had I never read of the Guttæ Vitæ, where or what I might have been now, I cannot tell."—*W. G., West Pelton.*

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS, BLADDER, &c. DR. DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy Remedy for the above dangerous complaints. Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s 9d., 4s. 6d., 11s, and 33s. per box. The superiority of these celebrated medicines over everything of the kind, is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

"I have taken your Pills and always derive great benefit from them."—*W. W. H., Queen's College, Cambridge.* "I have taken your Pills with the most happy result."—*B. H., Cork.* "Your Pills do me great good, I feel better this last twelve months than for years before."—*F. G., Wareham, Ashford.* "Your Pills did me more good than anything I have taken."—*M. J Dursley.* "I have tried your Pills and derived the greatest benefit therefrom."—*V. G., Navy Hotel, St. Helier's.*

McCoubrey, Esq., St. John's, Newfoundland; Thomas Walker & Sons, St. John, New Brunswick; Lymans & Co, Toronto, of whom also may be had "THE MEDICAL ADVISER," or should difficulty arise in procuring any of the above, enclose the amount by draft or otherwise, to 25 Bedford Place, Bloomsbury Square, London, W.C., and they will be sent securely packed per return.

CAUTION.—There being highly injurious imitations of the above, sufferers should guard against the recommendation of other medicines by dishonest vendors, who thus obtain a larger profit. To protect the Public against fraud, Her Majesty's Hon. Commissioners *have directed that the words* "Walter De Roos, London," *be printed in white letters on the Stamp affixed to the above, to imitate which is felony.*

MOFFAT'S LIFE PILLS

AND

PHŒNIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibably proved that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifost and sensible action in purifying the springs and channels of life, and indulging them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither *Mercury* nor *Antimony* nor *Arsenic* nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual Costiveness with all its train of evils, or sudden Diarrhœa with its imminent dangers. This fact is well-known to all regular anatomists who examine the human bowels after death; and hence the prejudices of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; *Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Langour,* and *Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

DIARRHŒA and CHOLERA, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucuous membrane.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence they have ever been found a certain remedy for the worst cases of *Gravel*.

Also *Worms*, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and *Consumption*, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces those dreadful diseases.

Scurvy, Ulcers and *Inveterate Sores*, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and *Bad Complexions*, by their alternative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum*, and a striking improvement in the clearness of the skin. *Common Colds* and *Influenza* will always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of thirty-five years, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by there medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, Loss of Appetite, and Diseases of Females—these medicines have been used with the most beneficial results in cases of this description:—King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS.

Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad.

A LIVING DEATH,

And restore him to his friends in a sound, and healthy condition.

Before presenting this wonderful cleansing remedy to the North American public, Dr. Radway was determined to test its medicinal powers for the cure of the class of diseases for which it is prescribed in the South American Provinces, as it is a fact well known to all physiologists that

SCROFULA, LEPROSY, SYPHILIS,

and its horrible train of concomitants, prevail in the tropical regions of the South, to a much greater and more malignant degree than in the North. In fact there is scarcely a family in any of the South American Provinces that is free from Scrofula, or its kindred diseases It runs in the blood of all its people, and has become established as a constitutional infirmity, and has baffled the skill of their best physicians. With knowledge of these facts, Dr. Radway was determined to test the accuracy of

RADWAY'S RENOVATING RESOLVENT,

which was prepared expressly to meet the exigencies of the diseases, as developed in the tropics. Large supplies were sent to Brazil, Buenos Ayres, Chili, Peru, Equador, Venezuela, Bolivia, New Grenada, and to several islands of the Spanish main, and was thoroughly tested by Physicians and the Priesthood, and is now the official remedy used by the Physicians, under the name of "Solutivo Renovador de Radway," (the Spanish for Radway's Renovating Resolvent,) in the treatment of Scrofula, Syphilis, Ulcers, Tumors, Prolapsus Uteri, Elephantiasis, Erysipelas, Saint Anthony's Fire, St. Vitus' Dance, Fever Sores, all diseases of the Skin, humors in the Blood, white swellings, Nodes, Cankers, sores in the mouth, deafness, discharges from the eyes, ears, and nose, glandular swellings, dropsy and constitutional diseases. Such has been the unparalleled success of this remedy in curing these horrible diseases in the tropics, that we do not hesitate to promise all the sufferers with Scrofula and eruptive diseases among our own people, with speedy restoration to sound and permanent health.

It is superior to all known remedies in popular use as a cleansing syrup for

PURIFYING THE BLOOD,

and removing from the skin Pimples, Blotches, Tetter, Rash and other offensive marks, and will in a few days give a pure, clear and roseate hue of health and beauty to the face and nails, and brilliancy to the eyes.

It is a pure and innocent preparation, all-powerful to do good, but never does injury.

IMPORTANT TO PARENTS.

There is no medicine in the known world, or physician, that has ever claimed the skill of eradicating from the system diseases inherited, by transmission, from parent to child. This great power we claim for Radway's Renovating Resolvent; and we religiously declare, that if Radway's Renovating Resolvent is given when the symptoms of any inherited disease are first exhibited, it will eradicate the same from the system. In the early stages of Phthisis or Consumption, Fits, Scrofula, and in cases of sore head, Ulcers, Tumors, Hacking Cough, Bronchitis, the use of Radway's Renovating Resolvent will exterminate the transmitted disease from the system, and make (what the parents neglected) a sound and healthy body.

CHRONIC DISEASE.

Another class of diseases that no other medicines or the most skilful physicians have succeeded in achieving, more than in merely palliating the sufferings of the patient, which Radway's Resolvent will positively eradicate, is that of Chronic Diseases that have infested the system for years, such as Chronic Rheumatism, Gout, Scrofula, Dyspepsia, Syphilis, and diseases induced by the injudicious use of Calomel, Mercury, Quinine; diseases of the Liver, Spleen, Gall, Bladder, Kidneys, Spine, &c., all of which diseases Radway's Renovating Resolvent will eradicate, and secure to the patient a new lease of life.

The price of Radway's Renovating Resolvent is $1.00 per bottle, Dose, a tea-spoon, twice full, half an hour after each meal. Sold by druggists and merchants everywhere.

BILIOUS COMPLAINTS.

Letter from Dr. Salmon Skinner.

New York, January, 1860.

Dr. Radway & Co.;

I have, during the past four years, used your remedies, and have recommended them to others for Billious Complaints, indigestion, dyspepsia, &c. I consider the Ready Relief and Regulating Pills unequalled. The Regulating Pills are mild in their operations and thoroughly effective.

The first dose should be large enough to purge—say four or five, and each successive dose be diminished one pill, until reduced to one, and then repeated every day, for a week or ten days. A permanent cure will surely follow.

Yours, &c.
DR. S. SKINNER.

Radway's Regulating Pills are sold for Twenty-five cents per box, (each box contains thirty pills,) by Druggists, Merchants and Storekeepers.

A QUESTION OF THE MILLION ANSWERED.

HOW IS IT THAT

RADWAY'S READY RELIEF

Possesses such wonderful remedial powers as to cure so many diseases of apparently opposite phenomena?

We reply that Radway's Ready Relief chief and most important remedial efficacy, is evinced in the immediate arrest of pain, and its potency in the treatment of such diseases and maladies, where pain is a concomitant of the disease.

Disease, like the storm, gives unmistakeable signs of its approach. At first the threatened patient experiences a slight discomfort, this followed with pain to a greater or less extent, and other symptoms follow in rapid succession. It is in this condition of the system where Radway's Ready Relief will be found all-potent. Its administration, either internally or externally, as the seat of pain indicates, will arrest the progress of the threatened disease, and quickly relieve the patient from all pain or discomfort.

If people, on the first indication of uneasiness or pain, either slight or severe, would take a dose of Radway's Ready Relief, not one in a thousand would ever be troubled with sickness.

WHEN THREATENED WITH

Croup, Diptheria, Influenza, Sore Throat, Scarlet Fever, Typhoid Fever, Pneumonia, Bilious Fever, Small Pox, Measles, Fever and Ague, Chills and Fever, Headache, Bilious Cholic, Diarhœa, Dysentery, Cholera, Cramps and Spasms,—let Radway's Ready Relief be freely used, and, in a short time, all pain and uneasiness will cease, and the threatened disease expelled from the system.

IF SEIZED

With either of the above diseases, the use of RADWAY'S READY RELIEF will ensure a speedy cure.

"IT CURES SO MANY DISEASES,"

"And therefore I'll have none of it," says the skeptic; now we appeal to the common sense of any reasonable being who has had the least experience in medicine taking, or business relations with Physicians, if this is sound reasoning.

RADWAY'S READY RELIEF

Is not recommended by us, nor prescribed for so many varieties of disease as every physician in the practice of medicine, prescribes Calomel, Mercury, Quinine, Morphine, Opium and other favorite hobbys of the profession. It is a well known fact that in ninety cases out of one hundred, no matter what may be the name of the disease or the condition of the patient, Calomel forms the important and the most active agent of the prescription: and if the symptoms of the disease are such as to leave any doubt in the mind of the physician as to arriving at a decided conclusion what to give, he gives Calomel. This is an ancient landmark of the profession, which no innovation has ever been suffered to alter.

IN MILITARY CAMPS.

There is no place so well calculated to test the usefulness of a specific medicine as a military camp. Radway's Ready Relief has been used in almost every camp throughout the Grand Army of the Union with the happiest success. Letters from Brigade and Regimental surgeons, officers, and privates assure us that Radway's Ready Relief has contributed more to the protection of the troops against disease, and to the use and comfort of the sick than all other medicines used or means suggested by the medical authorities.

RADWAY'S READY RELIEF

Will stop pain and restore the sufferer to ease and comfort in a few minutes after its use.

It never fails to afford relief to the patient

IN CASES OF

Rheumatism, Neuralgia, Lumbago, Tic Doloreux, Gout, Toothache, Sciatica, Face Ache, Ear Ache, Numbness, Swollen Joints, Sprains, Lameness, Strains, Pain in the Kidneys, Wounds, Pain in the Bladder,

Asthma, Difficult Breathing, Pleurisy, Pain in the Side, Small of the Back, Shoulders, Spine,

Its use will, in a few minutes, relieve you of pain, and its continued use cure you of the complaint.

CHRONIC RHEUMATISM, ASTHMA,

SLEEPLESS NIGHTS.

Let those who cannot enjoy an hour's calm sleep, make a trial of it. Wm. Sydney Myers, Esq., of the Havana (Cuba) Press, well known to the New York, New Orleans and London (England) Press, says that for twenty years he had been a sufferer from ACUTE CHRONIC RHEUMATISM, and for one week had not slept an hour at any one time. He applied Radway's Ready Relief, and felt immediately relieved, and slept soundly, and awoke in the morning free from pain. Its continued use cured him.

General Jose Villamil, Commander-in-Chief of the army of Ecuador, S. A., had been afflicted with ASTHMA for TWENTY YEARS, could not lay down in his bed without subjecting himself to violent paroxysms of coughing. The first application of the Ready Relief gave him the first calm, undisturbed sleep he had enjoyed for twenty years. Thousands of other cases could be adduced, if necessary, but the best evidence to those poor disturbed sleepless sufferers, is to try it, and enjoy a night of ease and comfort.

PAIN.—PAIN.—PAIN.

It is entitled to public confidence on the ground that in all cases when it is used where pain exists, it will afford speedy relief, and never fail to mitigate the sufferings of the patient, *be the disease what it may.* If it does not accomplish a perfect cure it will restore ease to the afflicted, nor will its use, under any circumstances, interfere with other treatment, or fasten new difficulties upon the patient.

RADWAY'S READY RELIEF

Is sold by Druggists and Merchants everywhere, for 25 cents, 50 cents and $1 00 per bottle. See that the label of each bottle bears the signature of Radway & Co.
