

bestowal of offices of emolument upon Catholics, have all become subjects of the dearest interest to them; and, in the gush of their new-born sympathy, they become almost hilarious; for, like MARK TAPLEY, who sought to be jolly under the most disadvantageous circumstances, a deprivation of Government support seems to render the *Islander* and *Patriot* perfectly happy. We have only to hope, and, indeed, we have reason to believe, that our contemporaries will have ample time allowed them to improve their happy disposition. The Government has, doubtless, many difficulties to contend with (thanks to the prodigality of their predecessors) and have but little time to grapple with them; but in setting themselves earnestly and deliberately to work to do something for the benefit of the country, the people will take into consideration the actual position of affairs, and give their rulers credit for what they may do the first session, and what they would wish to do and will do before twelve months roll away. The hope of the enemies of the Government is, that dissensions will arise within it and result in a smash-up. Every movement is now directed to this end. The so-called Tenant Leaguers, the Old Liberals and the New, the Confederates and the anti-Confederates, the Catholics and Protestants, of which it is said the present Liberal Party is composed, are, in turn, patted and condemned. We very much mistake the gentlemen composing the Party, if they are going to be imposed upon by the wiles of their enemies, and to wrangle and split upon every trivial occasion. We believe them to be gentlemen of intelligence and independence, and that their desire is to promote, by every means within their power, the prosperity of the Colony over whose interests they have been placed for four years. We are willing to allow them a reasonable time to display their administrative capabilities. If they fail to prove themselves superior to their predecessors, we will not be found among their supporters; and if, on the contrary, they give a reasonable share of satisfaction in economising the revenues of the Colony, and in the passing of good measures, we think it would be wrong in us to withhold from them the full measure of our praise. The Government has already been condemned by the papers alluded to, but the commonest capacity can see that this opposition proceeds from factious motives, and the very fact of its proceeding from such a source ought to teach the people to be sparing in their censure or praise until really called for. The sole object of the opposition is to embarrass the Government as much as possible, and break it up, so as to place the reins of power once more in the hands of a mongrel Confederate-Conservative "faction," which is anxiously waiting for the chance to deprive us of the privilege of self-government—a privilege which the betrayed Province of Nova Scotia would sacrifice thousands of dollars to possess. No slight or trivial reason should induce us to forego this envied privilege, and sacrifice, through petulance, or hasty and unreasoning censure, the triumph won, after a hard-contested struggle.

SOME of the Canadian papers and their satellites in the Maritime Provinces, affect to believe that our Government is either Confederate in sentiment at present, or shortly will be so. Nothing can be more unfounded. All Confederates have been rigidly excluded from the Executive, which is purely and avowedly Anti-Confederate. In fact, a howl has been attempted to be raised against the Government by the disconsolate Confederates because none of their number has been admitted into it to serve as a spy for the Canadian party and an obstacle to harmony of action at the Executive Board. We have no doubt that the Government, taking warning by the fate of their predecessors, will honestly adhere to their Anti-Confederate platform, and as long as they do so, they will receive the confidence and support of the people, despite the plottings of their enemies.

We learn that the Charlottetown Amateur Dramatic Club will give an Entertainment on Easter Monday night, in St. Andrew's Hall. The celebrated Historical Drama entitled "the Earl of Warwick," is to be the principal piece on this occasion. The side-splitting Farce, "Paddy Miles' Boy," will also be produced, for the first time in this City. As this is to be the closing entertainment of the season, neither trouble nor expense will be spared to make it in every way worthy of public patronage.

The formation of a Hotel Company, and also a Company for the manufacture of Flax, are projects which are receiving practical consideration in Charlottetown just now.

TO CORRESPONDENTS.—Several favors on hand are unavoidably crowded out this week.

An English mail was received at the General Post Office, Charlottetown, on Thursday last. The most interesting items of news will be found in to-day's paper, Colonial and American Mails were received on Saturday and Monday nights.

Nova Scotia is preparing her local constitution under Confederation. The Elections for the General Parliament come off in June.

We see by the *Courier du Canada* that Mr. James McKenna, of this City, lately a student in St. Dunstan's College, and now preparing in Canada for the Priesthood, was one of the assistants at a Grand Mass in St. Patrick's Church, Quebec, on St. Patrick's Celebration on the 18th March.

It will be seen by reference to our advertising columns that Mr. Ross, of the *Weekly*, is about to oppose the Hon. Colonial Secretary in the Third District of Queen's County. We believe Mr. Ross's opposition to be purely factious. While we are willing to accord him all the credit to which he is entitled for what he has attempted in the way of abolishing landlordism in this Island, we are in candor bound to admit that Mr. Coles can and will do as much for the Tenantry as Mr. Ross possibly could do, even if he were elected, which we are sure he won't be.

The following, from the *Halifax Citizen*, will give the people of these Provinces some idea of what they will be called upon to pay for in the "Dominion of Canada":—"A rumor has been current in the city for a day or two, to the effect that orders have been received from England, not to proceed with some of the new military works designed at the entrance of the harbor and for which contracts were recently issued. The *Express* of Monday evening says this suspension of the works is only temporary, and pending a revision of the plans now being made by the military authorities at home. Other parties, however, who are likely to be as well informed as the *Express*, believe the stoppage of the work to be absolute and final. We have no means of ascertaining which report is correct; but we may observe if the work is stopped it would only be in keeping with the reasons given by the British government for promoting confederation. That policy has been adopted by England, in order that she might be free from the burden of our defenses; and after confederation is carried, if fortifications are wanted, they must be built and manned at our own expense."

A teacher said to a little girl at school:—"If a naughty girl should hurt you, like a good girl you would forgive her, wouldn't you?"—"Yes marm," she replied, "if I couldn't catch her?"

FROM ENGLAND.

The Cunard freight Steamship *Olympus* arrived at Halifax on Saturday afternoon, bringing dates to the 20th inst. The principal features of the news have been anticipated by Atlantic telegraph. We observe that the *Morning Star* alludes to rumors that the government mean to ask for another short delay before producing their reform bill, as it is alleged there is still some dissension in the Ministerial ranks, and a growing disaffection in the ranks of Lord Derby's party.

An official denial has been given to a statement, published in several London papers, that the Princess of Wales is seriously ill. Despite the assuring tone of the official notification respecting the Princess, it is generally believed that her royal highness is dangerously ill.

Fenian bands still prowl among the mountains in the south of Ireland; but, with the exception of making raids upon lonely police stations and unprotected homesteads, they commit little or no violence though they unquestionably cause great alarm throughout the country. Their sufferings owing to the rigorous weather and the difficulty of obtaining food, are very severe, and many of the "brigades" are melting away rapidly. On Saturday night the Dublin police captured nine men who, it is supposed, were in council for the purpose of concocting a rising in that city. Several of the prisoners were "centres," and all were well armed.

A Paris despatch says that a telegram has been received from Admiral Larocier, dated Vera Cruz, the 28th of February, announcing that 16,000 French troops had embarked and left for France, all in good health. The admiral hoped the evacuation of Mexico would be completed by the 8th March.

A Florence letter in the *Debats* contains the following statement in reference to the Roman emigrants:—

It is alleged that the Roman emigrants are about to cause grave embarrassment to the Pontifical, and consequently to the Italian Government. The emigrants are very numerous—about 12,000 it is said. They intend to enter Rome all at once as to their own homes, according to the suggestion of Garibaldi. However pacific the entry may be, it is difficult to believe that some trouble will not be caused to the temporal power. This project is attributed to Professor Filopanti, of Bologna, who is one of the chiefs of the advanced party.

Despite the attempts of the Spanish Government to suppress the clandestine publications of the revolutionists in Madrid, documents, couched in the most inflammatory and violent terms, continue to be profusely distributed, not only in the capital, but also in the Spanish provinces. One of these journals contains several decrees, issued by the Revolutionary Junta of Madrid, which are calculated to awaken apprehensions of approaching calamities in Spain. One of the decrees prohibits electors from voting at general elections, and citizens who accept nominations as deputies are denounced as traitors to their country. The late Captain-General of Madrid, Gen. Pezuela, is condemned to death, and his property ordered to be confiscated for the benefit of the families of the victims who suffered from his barbarous dictation.

The successor of Pezuela is also threatened with death should he attempt to carry out the threats contained in his recent decree. A proclamation has been issued in the provinces, inviting the people to hold themselves in readiness to co-operate with any movement which may occur in Madrid or any other part of the kingdom. General alarm prevails, and many persons are expecting an immediate outbreak, but others do not anticipate a rising before the end of May or the beginning of June. A royal decree was issued on Saturday raising a state of siege throughout Spain, and new press regulations of the most stringent character have been published.

It appears from the utterances of such men as Messrs. Chs. O'Connor, Judge Daly, James Kelley, James Sadler, Charles M. Connelly and other leading Irishmen in the United States, who were present at the recent dinner in New York to Mr. Francis Maguire, M. P. for Cork, that they are in favour of fighting Ireland's battles in the British Parliament as the only course which would bring peace and prosperity to their native land.

Holloway's Pills.—The great need.—The blood is the life, and on its purity depends our health, if not our existence. These Pills thoroughly cleanse this vital fluid from all contaminations, and by that power strengthen and invigorate the whole system, healthily stimulate sluggish organs, repress over-accretion, and establish order of circulation and secretion throughout every part of the body. The balsamic nature of Holloway's Pills constitutes them to the favor of debilitated and nervous constitutions, which they soon reanimate. They dislodge all obstructions, both in the bowels and elsewhere, and are on that account, much sought after for promoting regularity of action in young females and delicate persons, who are naturally weak, or who from some cause have become so.

An Old Nurse for Children don't fail to procure Mrs. Winslow's Soothing Syrup for children teething. No mother who has ever tried it will consent to let her child pass through this critical period without the aid of this invaluable preparation. Gives rest to the mother and relief and health to the child. 25 cents a bottle.

All suffering from Irritation of the Throat and Hoarseness will be agreeably surprised at the most immediate relief afforded by the use of Brown's Bronchial Troches. The demulcent ingredients allay pulmonary irritation; and, after public speaking or singing, when the Throat is tired and weakened by too much exercise, their use will give renewed strength to the vocal organs.

Perry Davis' Vegetable Pain Killer Possesses virtues, which not alone remove pain instantly, but regulates the stomach, gives strength, tone, and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact, that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain."

GENTLEMEN.—The actions of the present Government since its return to power, appearing to me to be in many respects at variance with the expressed wishes of a large number of its supporters, I am induced to offer myself as a candidate for your suffrages at the approaching Election. In thus coming forward, I am not actuated by party motive, but influenced by a desire to promote any measures which may be calculated to benefit the Island in general, and the Tenantry in particular. My views in regard to the much vexed Land Question, are so well known, that no explanation of them is needed. My ideas on this subject, I am happy to think, but an echo of your own, and I am willing to stand or fall by these principles. If returned as your Representative, I will be ready to support a moderate Liberal Government.
I have the honor to be, gentlemen,
your obedient servant,
JOHN ROSS.

To the Electors of the Second District of King's County.

GENTLEMEN.—At the earnest solicitations of many friends, I have, although with much hesitation, consented to come forward as a candidate for the representation of the District in the House of Assembly. In politics I have always been a Liberal, and should I have the honor of being elected, I will support that Party in all good measures. The independence of the Colony being a matter of paramount importance, I am opposed to Confederation upon any terms—feeling satisfied that if our liberty is once lost it can never be recalled; and that we will be placed altogether at the mercy of a distant Government, over which, from the contemptibly small number of our representatives, we can exercise no control.
As a resident of the District in which all my interests are centred and identified with your own, my highest ambition will be to look after its local wants; and to promote its prosperity without injury to any party. The Education Act requires, in my opinion, to be amended by defraying from the Treasury the whole salary of the Teacher. All measures, in fact, having for their object the good of the country, will receive my support. Not being an office-seeker, should I have the honor of being elected, I will not put you to the trouble of a re-election; nor in there any consideration which would induce me to violate my promises, or betray the confidence you might repose in me.
I have the honor to be,
Gentlemen,
Your obedient Servant,
WM. M. McEWEE.

To the free and independent Electors of the Third District of Queen's County.

GENTLEMEN:—A new Government, based upon liberal principles, having been formed, and I having been honored by being elected in my former position as President of the Executive Council and Colonial Secretary, my seat in the House of Assembly becomes vacant according to law. In returning to you for re-election, I have the fullest confidence that you will give the new Government a fair trial, and when its policy is fully developed—for which, of course, a little time should be allowed—I trust you will find it such as to be worthy of your warmest approval.
I have the honor to be,
Gentlemen,
Your obedient Servant,

Ayer's Sarsaparilla.

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has proved, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—Scorfula, Scorfulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c.
Scurfula or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.
Female Diseases are caused by Scourfula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.
Do not reject this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used Ayer's—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.
AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foal Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Neuralgia, and as a Dinner Pill, are unequalled.
They are sugar coated, so that the most sensitive can take them with pleasure and they are the best Aperient in the world for all the purposes of a family physic.
Prepared by DR. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.
