Railway Office, Charlottetown, Nov. 25, 1885—wkly pr 6

Breakwater at Tracadie.

Pursuant to notice, a public meeting was held at Curran Ban Bridge, Grand Tracadie, on the 18th inst. The meeting was called to order by appointing Philip Hughes, Esq., Chairman, and the undersigned Secretary.

The Chairman in a few well chosen remarks stated the object of the meeting, being the necessity of a Breakwater at Tracadie Harbor and other wants of the district.

Mr. Peter Campbell being called upon, said that in the year 1854 this Harbor had water enough in the channel to admit an English gunboat, that made it during that summer a coaling station, and considered the Dominion Government might expend a sufficient sum in order to make the harbor what it has been in former years, and stated that he had every confidence in the integrity of the Government to carry out the wishes of the people.

The Chairman then called on Senator Haythorne, who said that it afforded him great pleasure to be present at the meeting, and it would be a labor of love on his part to do anything that would be a benefit to this section of the country, and consequently would use whatever influence he might possess in order to promote their welfare.

The fact alone, said he, of a gunboat making a coaling depot of the harbor, was a strong reason that the Government should do something towards restoring it to what it naturally was. He then spoke at some length on the means of continuous communication and pronounced the Northern Light to be quite unfit to perform the services required, and inadequate to carry the passengers and freight to and from the Province, and concluded his review of the political situation by an able description of the Hon. Senator Howland's scheme of constructing a tunnel across the Straits of Northumberland, and considered it the only feasible means of satisfactorily fulfilling the Terms of Confederation, respecting winter communication.

The Hon. Donald Ferguson, having been called upon, said that he was very happy to meet so many of his constituents, and hear their views respecting the requirements of the district, and he fully endorsed the sentiments of the Hon. Senator regarding the Public Works in this part of the Province. For years the grievances for which the meeting was convened has been greatly reported to him, and he felt sanguine that the Dominion Government would do what laid in their power towards redressing this long standing grievance. He then, in a clear, concise and comprehensive manner spoke of the services performed by the Northern Light and other means of winter communication, and said that the terms of union were not carried out with any view to the wishes of the people of this Province, and that Senator Howland earned the everlasting gratitude of the people of P. E. Island for his laudable and energetic exertions in their behalf, with a view of bringing this serious and long-delayed matter to a successful issue. He then concluded by explaining the manner in which this Province is misrepresented in the customs returns, stating that a large volume of the exports from this Island are shipped to the United States through Nova Scotia and New Brunswick, and consequently swell the returns of those places, causing a discrepancy to appear against this Province, and the same falling off can be said respecting our imports. True it is that instead of this Province, standing as it really is one of the largest exporters and consumers per capita of any Province in the Dominion, those misrepresentations place it the very reverse.

Mr. Henry Boyer came forward and said that as he was only a candidate as yet for their suffrages he could not be expected to speak much, yet it would be a source of satisfaction to him to see the people in this part of the country having their harbor improved. He then spoke for some time on the Local Government of the day, and said that the support he would receive from the electors at the forthcoming election, would amply testify the confidence the people still repose in the present Administration.

Mr. E. Coffin then spoke, and in a short but pointed speech said that he considered that this section of the country has not been looked after as it should have been by our representatives at Ottawa, and hoped they would in future pay us a little more attention. A Breakwater at Tracadie Harbor would be a great boon to the country for miles around, as we have no shipping place only that, and on that account people are put to a great deal of inconvenience during the shipping season, and in procuring limestone and coal; likewise in the way of getting supplies for fishing purposes, and also respecting the shipment of fish.

Several other persons present also spoke, when the following resolutions were put to the meeting and carried unanimously.

Moved by Mr. Peter Campbell, seconded by Mr. William McLachlan:

Whereas, it is the unanimous opinion of this meeting that a breakwater at Tracadie Harbor would greatly aid in promoting the general welfare of this district and surrounding country.

Therefore Resolved, That a petition be drafted and forwarded to the Department of Public Works, Ottawa, asking a sum sufficient to construct said Breakwater.

Moved by Mr. E. K. Coffin, seconded by Mr. Ready:

That our representatives at Ottawa be requested to use their influence to secure to us the immediate construction of the aforesaid breakwater.

Moved and seconded by Mr. Wm. McGraft:

That the thanks of this meeting are due and hereby tendered to Hon. Senator Haythorne, Hon. Donald Ferguson and Mr. Boyer for their attendance here this evening and their hearty co-operation in our behalf.

Moved by Angus McInnis, seconded by Mr. M. Campbell, that the petition for the

said breakwater be now read. The petition being then read it was—

Moved by Hon. D. Ferguson, seconded by Mr. James Trainor, that the said petition be now adopted.

The chairman being then tendered a veto of thank the meeting dispersed.

ANGUS MCINNIS,
Secretary.

LETTERS TO THE EDITOR.

Boards of Health.

SIR,—As there is a good deal of sickness now in the country, and several Boards of Health appointed to enforce and carry out the rules of health, would it not be very necessary for the Government to provide each Board with local instructions and directions in the matter. At present some of the Boards are at present in a state of uncertainty or total ignorance of the extent and limitation of their powers, or how far the Government is responsible for their actions. It is said that no acts for guidance thereon can be procured from that august body.

As you take a lively interest in the welfare of the people and the dissemination of knowledge, and as you are in the centre of the legal literati of the Island, you might give the public an explanation of the statutes in force.

Yours, &c.,
INQUIRER.

Queen's Co., Jan. 25, 1886.

CURRENT NOTES.

The cattle ranches of the West occupy 1,305,000 square miles of land.

Joe Cook says the American nation is the most drunken nation in the world.

A neat, clean, fresh-aired, sweet and well-managed house exercises a moral as well as a physical influence over its inmates.

The late cold snap killed cabbages in the gardens in the neighborhood of Mobile, Alabama, which if they had matured would have sold for \$100,000.

London has 67 hospitals, with 6,588 beds, 50,498 patients are received annually. The number of outdoor patients treated during the past two years exceed 1,000,000.

The London Standard suggests that the Mormons take possession of some South Sea Island. Let them try the Friendly Islands and leave this unfriendly continent.

An experienced vocalist has, it is said, during fourteen years cured a number of cases of obstinate cough by prescribing the free use of raw oysters as a diet. The remedy is easily tried.

A Philadelphia girl has refused to "kiss the book," because of two previous witnesses, one of whom had sore lips and the other chewed tobacco. The Philadelphia girl is assuming the time-honored prerogatives of the Boston girl.

A party of nine cowboys visited the town of Burlington, several miles north of Gainesville, Texas, on the 18th, and becoming crazed with liquor, terrorized the population during the entire night, riding up and down the principal streets, firing into windows and acting like savages. They defied the authorities, but Sheriff Cook, with a posse, succeeded about daylight in driving the ruffians from town, killing four of them.

A man named Lachlan McDonald has been arrested at Galt, Ont., on a charge of attempting to kill his wife. McDonald, his wife and three men, who were in the house at the same time, had some disagreement. During the progress of the quarrel, McDonald seized an axe and struck Mrs. McDonald a blow on the back, just under the right shoulder blade, inflicting a wound about five inches deep and the same in width. Mrs. McDonald is still alive but cannot recover.

Scott's Emulsion of Pure
Cod Liver Oil, with Hypophosphites
IN CONSUMPTION AND SCROFULA.

Dr. J. R. Burton, of Valdeosta, Geo., says: "I have for several years used Scott's Emulsion, and find it to act well in consumption and scrofula and other conditions requiring a tonic of that class."

Horsford's Acid Phosphate,
AS A NERVE FOOD.

Dr. J. W. Smith, Wellington, O., says: "In impaired nervous supply I have used it to advantage."

A CARD.—To all who are suffering from errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c. I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America and self-addressed envelope to Rev. Joseph T. Inman, Station D, New York

NOTES.

Not the promissory, but facts about WELCOME SOAP, an article that does not contain one particle of the adulterations used to reduce the cost of "Pure Goods," but does possess the value of legitimate Washing Qualities, the demand for which proves the advantage gained by the use of the genuine over Soaps of doubtful character. None should be deceived even by Red and Yellow Wrappers, or any of the imitations of WELCOME, as a pair of clasped hands is stamped on every bar. Made by CURTIS, DAVIS & CO.

Black Beehive Fingering, Ladies Black Braided Jerseys, Cardinal and Garnet Pish, Cream Tissue Frilling and Black Wool Velling, opening to-day at Stanley Bros, Brown's Block.
