BUCK WINS POINT ON DRIVE

Omar Anthony Massoud of 2440 Chenango Street, Utica, N.Y., is seen with his eight-point, 250-pound buck he dropped with two blasts from a 12-gauge shotgun near Sherburne, N.Y. Deer was loser on the drive handled in dense woods by Massoud's brothers John, George and Joey, but the big prize was placed behind wheel of sports car for trip home.

Report Of Maritime Meet Given Area Trade Board

KENSINGTON — At the general meeting of the Kensington area Board of Trade, held in the old town hall, Edson Rayner gave a graphic account of the recent executive meeting of the Maritime Provinces Board of Trade.

Among the highlights of the meeting were discussions concerning resolutions related to: increased agricultural income, which resolution was tabled; inspection of autos on the highways with regard to safety, and development which came in for a lot of discussion, particularly with regard to tax inducements, and three-year write off on machinery.

Mr. Rayner said a permanent manager for the board or boards of trade for an area has much to recommend it, and urged that the matter be studied carefully. It is understood that the government assists in paying the salary. He also warned that local people should invest in the future of the area, as there are many possibilities, which may be grabbed off by investors outside the province, if not taken advantage of locally.

He suggested that APEC which is really a child of the Maritime Board of Trade, is doing a splendid job and is doing research and giving leadership in many valuable fields. He suggested that it would be invaluable to the Island tourist industry, to station a man a Aulac, to direct people to the Island. He also commended the federal government with regard to it's field grains freight assistance program.

TOBOGGAN SLIDE

Dr. Harold Stewart aroused interest in a toboggan slide for the town which he thought would cost in the vicinity of $100 but must be well supervised for the safey of children and others using it.

Willard Stewart brought up the possibility of the rink remaining closed this year and concern was expressed. The public affairs committee was entrusted with the responsibility of looking into both the rink and the feasibility of a toboggan slide.

Other business included a report by Mayor Everett Champion with regard to extra lighting for areas within the town, on which, he stated, a survey is now under way. The mayor also stated that the town is investigating its welfare needs, and it was suggested that Ted Moore, a chairman of the public affairs committee, keep in touch.

ISLAND NEWS PAGE

Island Music Educators Select National Delegate

Gabriel Chaisson, Summerside, president of the P.E.I. Music Educators' Association, will represent the Island at the bi-annual convention of the national association in March at Calgary, Alberta.

The P.E.I. group, at a recent meeting in Birchwood High School, voted $50 to help cover expenses of the trip.

The hope was expressed that the music division of the department of education and Summerside School Board would contribute the balance.

A committee was set up to inquire into the possibility of holding an insrumental clinic for wind and strings at Kensington next year to encourage youthful musicians in the province.

Committee members are Christopher Gledhill, supervisor of school music for the province; Raymond Lock, bandmaster of Kensington Lions Band; William Conkey, Summerside, president of the Maritime Chapter of the Canadian Bandmasters' Association; and Gerry Rutten, Charlottetown, music teacher and instrumentalist.

Repors were given by Raymond Lock, secretary-treasurer, and Christopher Gledhill, music supervisor.

Mr. Chiasson invited the music educators to the Summer Street Elementary School, Summerside, for the next meeting of the P.E.I. MEA, to be held Saturday, Jan. 23. It is hoped that Mr. and Mrs. Carleton Elliott, lecturers at the Music Conservatory Mt. Allison, will be present to address the meeting and give a recital.

Following the business session, Sister Mary Winnifred, music specialist at the Birchwood Junior High School, Charlottetown, demonstrated the need for giving the children more theoretic music training. "It is no longer enough," she said, "to consider the music lesson as merely a leaning of songs by rote. That is only true of grade one, and even that early on a child's life a start can be made to introduce the basics of music reading into the daily lessons.

"It is time," the Sister said, "that we start teaching some of the material in each grade outlined in the course of studies the department has put out. Let the children learn the fundamentals at an age when doing so is fun and not leave it to later years when it only proves an embarrassment."

A lunch was supplies by the staff of the Birchwood school in the domestic science room.

Former Native Dies In Montreal

J. Elie Comeau, a former resident of P.E.I., died suddenly in Montreal Wednesday of a heart seizure.

Mr. Comeau, a native of Comeauville, N.S., lived in Charlottetown, where he was associated with Maritime Asphalt Products, from 1960 to 1962.

He was an outstanding figure in the construction business. He worked as project manager of the Terminal Construction Limited of Moncton before coming to this province, and in 1962 accepted a position with a large construction firm in Montreal, where he was project manager of the Des Beaux Arts building constructed in 1963.

In 1964 he became managing director of the Construction Industry Joint Committee of the Montreal region.

Mr. Comeau is survived by his wife Faye.

Most of the 6,000,000 residents of China's westernmost province of Sinkiang are Moslems. It once was part of ancient Turkistan.

Camera Club Sees World's Fair Slides

A showing of colored slides taken by members at the World's Fair in New York this summer was the highlight of the first regular meeting of the Charlottetown Camera Club.

Members' slides shown at Thursday's meeting at the Confederation Center were Rollie Taylor, Jim Baldwin and Gordon White.

The club toured the Confederation Centre, under the guidance of Gordon White, and discussed the program for the coming months. It was decided to hold meetings the second and fourth Monday of each month after the holiday season.

A program involving active participation by the members was discussed and is to be arranged later. It was decided that the first competition of the club would be colored slides with the theme of Christmas.

Mr. and Mrs. Gordon White, who for years have hosted club members at their home during the holiday season have invited the members for an after theatre party Wednesday, Dec. 9.

Gallery Curator Named Chairman Of New Group

Art directors and curators from leading institutions in the Atlantic Provinces have named Moncrieff Williamson, curator of Confederation Centre art gallery and museum, as chairman of the newly-formed Atlantic Provinces Art Circuit.

An organizational meeting held at Mount Allison University, Sackville, recently, also named J. Barry Lord, art curator of the New Brunswick Museum, St. John, as secretary.

It was pointed out APAC is not in opposition to existing groups, but seeks to foster a greater appreciation of art and artists on the professional level within its area.

Plans include holding biennial art exhibitions, representative of the Atlantic region, for circulation and exchange with other parts of Canada.

On a co-operative basis, it will initiate high quality exhibitions and sponsor speakers of note to circulate within the circuit.

MIXED POPULATION

Aside from Russians and Ukrainians, there are some 50 different ethnic groups living in the Caucasus area of the Soviet Union.
