THE TWO TIMES.

Sir,—Can you tell me why Prince Edward Islanders have two times, the one standard, and the other local? I can see quite plainly that the standard time is of real service to the travelling public, while I cannot for the life of me imagine what difference it makes to those who stay at home whether they call mid-day eleven o'clock or twelve o'clock.

THE CITY MATTER.

Sir,—It is currently reported that the local Government purposes offering to citizens, through their representatives, either to submit to direct taxation by Premier Peters, or to let go their hold on the supplementary clause in the Public Schools Act, and tax themselves for the Government's gain.

THE SCOTT ACT—YE OLD STORY.

Sir,—At the Mock Parliament last night three chestnuts were cracked, which, always unusual, are now really odorous with age.

Here they are in short metre:— 1. We have a majority, and whatever the majority decide "must be right."

2. We are "The Temperance People," and whoever does not support the Scott Act is—to put it mildly—a bad man.

3. The three graces are Faith, Hope, and Total Abstinence; and the last is the greatest.

This is the creed of the "Temperance Party," and he that will not cry "Crede" to these three articles is, in the eyes of the elect "majority" a rogue and a rascal.

This same majority is like a spoiled child which has made up its mind to play with the moon, and will be satisfied with nothing smaller.

Later on both will learn that, in the nature of things, they cannot have the attractive bundle, and what is more, would be none the better if they could.

These people are past praying for. Excommunicated by the "Temperance Party" they find themselves "without a god (Prohibition), and without hope in the world."

OUR TEACHERS' SALARIES.

DEAR SIR.—As our present Government intend going in for reform during this session, it is nothing but fair that our female teachers should be placed on an equal basis with males, or, in other words, should get the same reward for their labors.

They are as equally diligent and faithful in the discharge of their duties, at the same expense, and have to endure the same amount of labors, both physical and mental, in some cases a greater amount.

Now since the time for reform has come it is to be hoped, Mr. Editor, that justice will be fairly administered to both sexes, and that each one will receive their own peculiar right.
