

DOROTHY DIX'S COLUMN

Continued from page 2

cabins-building project. It is also possible, however, that you expect her to combine her housework with a man-sized job in the building line. Your casual attitude toward her would lead me to suspect that you are all too ready to find fault. Make sure your cause is just before jumping to conclusions.

DEAR MISS DIX: We are two teen-age girls. We have been going with two nice boys for a good while. They never have told us they like us and our problem is: If they don't tell us, how will we know if they like us or not?

ANSWER: Actions speak louder than words; if the boys didn't like you, they wouldn't take you out. Let things fall in their proper places; when it's time for them to get sentimental, they will!

Miss Nilsen cannot reply personally to readers but will answer problems of general interest through this column.

Agricultural News

ducer. By using United States Department of Agriculture records over the past 25 years, it can be shown quite conclusively that artificial lighting laying flocks will increase the gross of a laying flock approximately \$20. per 100 hens per year.

In 1949, Cornell University completed a three year test in which they proved that a laying flock properly lighted, produced \$47 worth of eggs per hundred hens per year more than an unlighted flock. This was, of course, based on prevailing prices at that time. These results showed that a high-producing flock produced an average of ten more eggs per hen when lighted but the majority of the profit was obtained from producing eggs in the winter when eggs were high

priced and producing less in the spring months when eggs are relatively low priced.

What this means to the poultry producer is that he can pay for a poultry house lighting time switch and the complete installation about three times over in one year, from every 100 hens he has. It can be definitely stated that artificial lighting control system, installed in a poultry house, will produce as many dollars additional profit per dollar invested as any other equipment that can be used on a laying farm.

Club News

The reorganizational meeting of Montrose-Alma Calf Club was held at Alma school Thursday evening, December 11th with a good attendance. The president, Donald Hardy, gave an excellent report of the year's activities and Weldon Rennie gave the treasurer's report.

which showed a balance of \$33.31 on hand.

Following a talk by Morris Deacon, Fieldman, it was decided that the club would again reorganize and the following members indicated their desire to join: Donald Hardy, Weldon Rennie, Albert Jordan, Alden Rennie, Carl Shea, Robert McAssey, Alfred Murray, Archie Ravner, Ernest Currie, and Wendell Weeks. The following officers were appointed by ballot: Mr. Hanford Reeves and Mr. Gordon Barbour acting as scrutineers; President—Robert MacAssey; Vice-president—Carl Shea; Secretary—Donald Hardy, Mr. Raymond Shea agreed to act as Club Leader and additional adult directors were appointed: Gordon Barbour and Leigh Weeks. Before adjourning the club members decided that their next club meeting would be held at Watson Hardy's Montrose, and that the club would meet on the second Thursday of each month during the winter.

The reorganizational meeting of the Carleton North Calf Club was held in the school Friday afternoon, December 12th. The following officers were appointed for 1953: President, Sylvia MacLean; Vice-president, Rose Marie MacLean; Secretary, Gladys Moran; Club leader—Mrs. George MacPhee, and Adult directors, Mrs. Andrew MacLean and Mrs. Agnes Moran. The Treasurer reported the club was in good financial position. Morris Deacon, fieldman, helped with the reorganization and presented the Prize Money won at the Achievement Day. Films were shown in St. George's

Hall Friday evening, December 12th on behalf of the Junior Farmers. These films were loaned from the National Film Board and shown by Morris Deacon, Agriculture Fieldman.

It is now approaching the time of year when all club members should be thinking about having their club reorganized for the coming year. The latter part of last week the prize money that was

won by each club was forwarded to your secretary along with a letter suggesting that a meeting be called at the earliest opportunity. If the club members are to receive full benefit from their club mem-

bership it is necessary that they be organized soon. Any new district that is contemplating the organization of a Junior Club should contact the Provincial Department of Agriculture as soon as possible.

ANCIENT PORT

Marseilles, the great French Mediterranean port, was founded by a Greek colony from Asia Minor about 600 B.C.

Let him come down to the splendid Aroma of a great coffee

He'll joyfully "follow his nose" down to breakfast when the splendid, tantalizing aroma of Chase & Sanborn Coffee is wafted above stairs.

coffee for nearly a hundred years. So richly fragrant, so deeply satisfying that millions have turned to it in sure preference to every other coffee.

Blended, since the early sailing-ship days, from the world's choice aromatic coffees—Chase & Sanborn has been a great

Let its heartening aroma waken you to new breakfast delight. Come downstairs every morning to a great coffee!

Gifts From HOLMAN'S Are Opened First!

For Happy Hours the Whole Year Through GIVE Music

Play Santa to the family with the gift of music that they'll enjoy for always. . . HOLMAN'S Music Sections are well stocked with instruments, record players and combinations, sheet music, and of course, records of all kinds and labels. Choose your gift of music from HOLMAN'S!

Record Players 19.95 to 99.50

Accordions 23.50 to 169.50

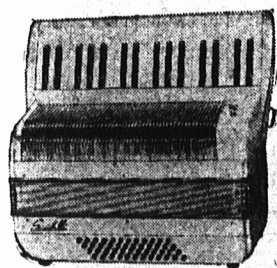

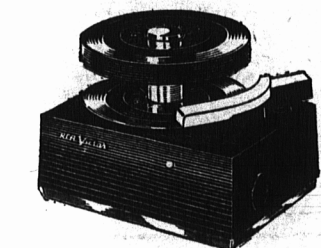

Violins 15.75 to 51.00

Guitars 18.95 to 85.00

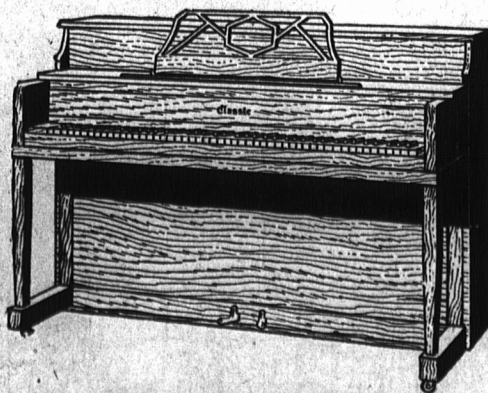

Harmonicas 89c to 2.75

Give Them RECORDS

There are wonderful selections of Records in both Music Sections. Old favorites, new tunes, children's records, symphonies and operatic recordings. Choose the ones your family will enjoy. Prices range from 90 cents up.

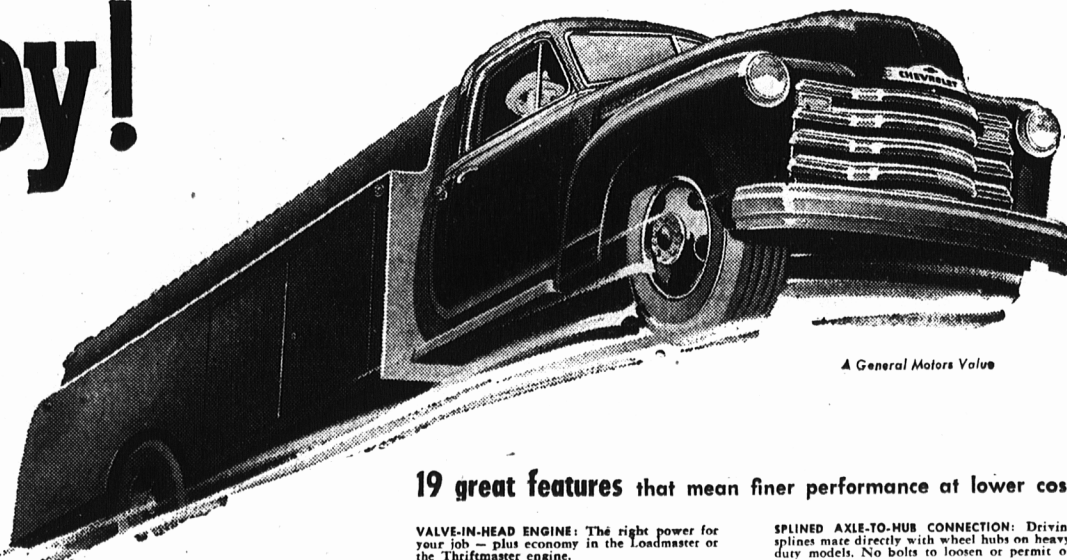

New! Modern! Beautiful!

PIANOS 445.00 to 765.00

HOLMAN'S S' SIDE and CH'TOWN

You can't buy a better truck to save your money!

Your savings begin the minute you buy a Chevrolet truck. For most Chevrolet trucks list for less than any other make with comparable specifications capable of handling the same payloads.

But that's only the beginning. You save on the job — day in and day out — in fuel, maintenance, and repairs. For Chevrolet trucks are the only trucks with all the 19 great features that add up to more rugged performance and more reliable operation at less cost.

And when the time comes to trade, the record shows that over the years Chevrolet trucks traditionally bring a higher percentage of their original cost than any other make!

For your every trucking need, be sure to see your Chevrolet dealer — and save.

Over the years first choice of Canada's truck buyers

It's a fact! For years Chevrolet trucks have been the choice of more users than any other make! Here's long-term leadership built on solid value and quality at lower cost.

19 great features that mean finer performance at lower cost

- VALVE-IN-HEAD ENGINE: The right power for your job — plus economy in the Loadmaster or the Thriftmaster engine.
BLUE-FLAME COMBUSTION: High efficiency combustion chamber squeezes all available power from fuel.
POWER-JET CARBURETION: Meters the flow of fuel to meet exact requirements of engine load and speed with 2-way controlled ignition.
FULL-LENGTH-JACKET WATER COOLING: Water jackets completely surround each cylinder for more complete cooling.
SYNCHRO-MESH TRANSMISSION: Quick, quiet, safe shifting — eliminates "double-clutching".
DIAPHRAGM SPRING CLUTCH: One single-disc spring provides positive engagement, reduces wear.
HYPOID REAR AXLE: Lowers tooth pressures, stronger tooth section gives extra durability.
STRADDLE-MOUNTED PINION: Maintains better gear alignment, better tooth contact on medium- and heavy-duty models.
SINGLE-UNIT REAR AXLE HOUSING: No bolts, no joints, tubular beam construction to withstand heavy loads.
FULL SIZE REAR AXLE INSPECTION PLATE: Saves time and trouble on inspections during regular maintenance.

- SPLINED AXLE-TO-HUB CONNECTION: Driving splines mate directly with wheel hubs on heavy-duty models. No bolts to loosen or permit oil leaks.
BALL-GEAR STEERING: Free rolling steel balls between worm and nut cut friction, save wear.
"TWIN-ACTION" HEAVY-DUTY REAR BRAKES: Two cylinders in each brake for safer, more positive braking.
"TORQUE-ACTION" LIGHT-DUTY BRAKES: Make full use of truck momentum for greater stopping power.
BONDED BRAKE LININGS: Rivetless linings on light- and medium-duty models nearly double lining life.
BATTLESHIP CAB CONSTRUCTION: Each cab is a double-walled, all-welded steel unit of great strength.
FLEXI-MOUNTED CAB: Minimizes vibration and driver fatigue.
HEAVY-DUTY CHANNEL TYPE FRAME: Deep channel-section side rails give maximum rigidity.
ROOMY 3-MAN COMFORT: Wide, deep and roomy, side to side, top to bottom, front to rear—describes Chevrolet cabs built to accommodate 3 men with ease. Double deck spring seats for extra comfort, less fatigue.
