Closing Exercises Held At Notre Dame Academy

The closing exercises of Notre Dame Academy were carried out yesterday afternoon in the Convocation Hall, in the presence of a large number of relatives and friends. His Excellency, Most Reverend James Boyle, presided, with Rev. F. P. MacDonald, Chaplain of the Academy also in attendance.

In speaking to the scholars His Excellency explained the necessity of not being discouraged at not being a prize winner. "You are all young yet," he said, "and I assure you that often no-prize winners are most successful in the long run."

He urged the Grade VIII pupils to remember that they were the connecting element between the elementary school and the high school and it was very important that they continue through high school and to college if possible. "Because of financial difficulties, a great many young people are taken away from school at Grade VIII, which is a great mistake if it can possibly be avoided.

"Our City and Province," said Bishop Boyle, "experience a very definite loss, which is reflected in the social and business life of the community, when education is discontinued at the eighth grade."

A final admonition and warning was given the scholars about the danger to life and limb in the streets by car and at the shore in drowning accidents. He wished them all a good holiday and a happy return to school in September, in good health and vigor for the study and routine which lies ahead.

A nicely balanced and splendidly executed musical programme added very materially to the enjoyment of the occasion. A duet "Spring Frolic," played by June Hennessey and Patricia Cronin, was followed by the Tots of Grade I in "A Talk With Little Jesus",

Model School Closing Exercises Held Yesterday

Dr. Frank MacKinnon, Principal of Prince of Wales College, expressed his pleasure at the splendid results achieved by Miss Mildred Harrington in her oversight of the instruction given the children at the Model School, and the success that crowned the efforts of Mr. Frank Johnston, A.T.C.L. in their musical training, at the closing exercises of the school which were carried out yesterday morning at the Prince of Wales College auditorium. Mr. James B. Brow, Vice Principal, and Mr. W. A. MacPhee, Supervisor of Teaching Training, assisted in the presentation of the certificates.

More than 100 pupils were granted grading certificates, which were presented by Dr. MacKinnon in the presence of a large number of parents and relatives of the children. Brothers and sisters of more tender years, also enjoyed the proceedings, particularly the entertainment part of the programme which was of exceptional merit.

Many adults in commenting on the work of the children in the Playettes, suggested that a field for increased and sustained interest in the Little Theatre movement and similar organizations was being developed through the teaching which the young folk are receiving at the Model School.

The work of conducting the Rhythm Band through three selections, by Donalda Mill and Christine Mugford, climaxed by the presentation of the Mugford-Mill Dance, brought a most interesting and instructive session to a close. The programme was opened with the chorus "O Canada" and continued with a playette by Grade 1 titled "The Green Elves Ball," then the chorus "The Doves," by grades 2, 3 and 4. This was followed by a Choral Playette, "The Three Bears", presented by grades 2 and 3., and the chorus "Waltzing Matilda."

The Senior Class put on a demonstration of a regular music period, including two songs "Au Clair de la lune," and "Malbrouck and Frere Jaques." The Grand Finale was rendered by the Rythm Band with "Turkey in the Straw," "The Syncopated Clock" and the "Gavotte," concluding with the "Mugford-Mill dance. Mr Frank Johnston, who presided at the piano throughout, was thoughtfully presented with a pleasing gift, by the young people of the cast, the presentation being made by Christine Mugford.

Physical Education.

"Considering the fact that our rural teachers already have a heavy work load in covering their curriculum it is most encouraging to see so many taking an interest in the physical exercises and play of their children." stated Brig. Reid, "and it is our hope in our little Fitness Branch to eventually be able to have someone available to visit various schools often enough to at least be of assistance in encouraging teachers who have been carrying on a programme of Fitness and to get others started who have perhaps felt they are not quite up to carrying on such a programme."
