

## Hope Had Departed

THE STORY OF A WOMAN'S RESCUE FROM GREAT SUFFERING.

For Years Her Life Was One of Misery—Her Feet and Limbs Would Swell Frightfully and She Became Unable to do Her Household Work.

From the Enterprise, Bridgetown, N. S.

It is appalling to think of the number of women throughout the country who day after day live a life almost martyrdom; suffering but too frequently in silent, almost hopeless despair. To such sufferers the story of Mrs. Joshua Wile will come as a beacon of hope. Mrs. Wile lives about two miles from the town of Bridgetown, N. S., and is respected and esteemed by all who know her. While in one of the local drug stores not long ago, Mrs. Wile noticed a number of boxes of Dr. Williams' Pink Pills in the show case, and remarking to the proprietor "I never there was a friend to woman, it is those pills." She was asked why she spoke so strongly about the pills, and in reply told of the misery from which they had rescued her. The druggist suggested that she should make known her cure for the benefit of the thousands of similar sufferers. Mrs. Wile replied that while averse to publicity yet she would gladly tell of her cure if it would benefit anyone else, and she gave the following statement with permission for its publication:—

"My life for some years was one of weakness, pain and misery, until I obtained relief through the use of Dr. Williams' Pink Pills. From some cause, I know not what exactly, I became so afflicted with uterine trouble that I was obliged to undergo two operations. A part only of the trouble was removed, and a terrible weakness and miserable, nervous condition ensued, which the physician told me I would never get clear of. I tried other doctors, but all with the same result—no betterment of my condition. The pains finally attacked my back and kidneys. My legs and feet became frightfully swollen and I cannot describe the tired, sinking, deathly feeling that at times came over my whole body. I became unable to do my household work, and lost all hope of recovery. Before this stage in my illness I had been advised to try Dr. Williams' Pink Pills, but like thousands of other women, thought there could be no good in using them when the medical men were unable to cure me. At last in desperation I made up my mind to try them, but really without any faith in the result. To my great surprise I obtained some benefit from the first box. I then bought six boxes more, which I took according to directions, and I am happy to say was raised up by them from a weak, sick, despondent, useless condition, to my present state of health and happiness. Every year now in the spring and fall I take a box or two, and find them an excellent thing at the change of the season. Other benefits I might mention, but suffice it to say I would strongly recommend Dr. Williams' Pink Pills to all ailing women."

Dr. Williams' Pink Pills surpass all other medicines as a cure for the troubles that afflict womanhood. They quickly correct suppressions and all forms of weakness. They enrich the blood, strengthen the nerves and restore the glow of health to pallid cheeks. Sold by all dealers in medicine, or sent postpaid at 50c a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

## THE CANS AND THE CANTS.

Sir,—All are agreed that Mutual Imperial Preferential Trade would benefit Canadian farmers and every Canadian interest. Then why should we not try to get it? The Liberals say: "It would not be a good thing, but there is no use trying to get it. England would never grant us a preference." The Conservatives say: "Let us at least try. We think we can get it. Give us a chance to try. There will be no harm asking for it anyhow." The Liberals thought the Canadian Pacific Railway could not be built, but it was built. They thought it would never pay, but it does pay. It seems to me that the names of the two parties ought to be changed. The Conservatives say, "We can." The Liberals say, "We can't." We should call them "the Cans" and "the Cants."

### MORE TESTIMONY.

JOHN MORLEY, the English Liberal leader, has declared that he believes that with the return of the Salisbury Government there will, ere long, be an Imperial Customs Union. The Liberal leaders of Canada affect to believe that this is "arrant humbug," "nonsense," "impossible." But John Morley has a closer and clearer view of the situation in Great Britain; and he has come to the conclusion that Preferential Trade within the Empire will come with the incoming of Lord Salisbury.

Independent Liberals in Canada who believe that Preferential Trade will benefit Canada must naturally be influenced by the opinion of so great an English Liberal to cast their ballots for the Liberal-Conservative leader, Sir Charles Tupper, the promoter of Imperial Preferential Trade.

"The parrot cry that goods are cheaper is repeated on every hustings. No doubt some articles are cheaper, but the point is, are you getting them as cheap as you should."—Sir Louis Davies at Kentville, 1896.

AND HOW NOW. ARE GOODS CHEAPER, NOW? AND STILL THE POINT IS, ARE YOU GETTING YOUR GOODS AS CHEAPLY AS YOU SHOULD.

## THE ONLY HOME PACKAGE

DYES IN THE WORLD THAT GIVE PERFECT RESULTS.

The scientific preparation of dyestuff, and putting them up in proper shape for family dyeing has been brought to perfection by Wells & Richardson Co., who are proprietors of the celebrated Diamond Dyes.

These popular dyes have banished from the homes of Canada madder, fustic, logwood, cochineal and all other antiquated dyestuffs. The work of home dyeing is now done quickly and successfully by Diamond Dyes; the process is one that would astonish our grandparents.

To-day millions all over the world use the scientific Diamond Dyes in preference to all others. Diamond Dyes commend themselves to all who use them, because they are the strongest, brightest and fastest, and the easiest to work with.

Diamond Dyes, like all other perfect and popular preparations, are largely imitated in style of package and the way they are put up. These imitations are worthless and adulterated dyes, ruinous to all kinds of goods and dangerous to handle. Great caution is advised when buying dyes for home use. Ask only for the "Diamond"; see that the name is on every packet.

## ARE YOU QUICK TO SEE

Good Doctors Are Quick to See and Appreciate Real Merit in New Medicines.

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases of dyspepsia and disordered digestion.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take one of the many so-called blood purifiers, which in many cases are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and do more harm than good.

Purgatives are not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help and you will have no trouble.

It is a common sense medicine and a common sense treatment and it will cure every time. Not only cure the disease, but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However—

Mrs. E. M. Faith, of Byrd's Creek, Wis., says: I have taken all the Tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time.

H. E. Willard, Onslow, Ia., says: Mr. White of Canton, was telling me of your Dyspepsia Tablets curing him of Dyspepsia from which he had suffered for eight years. As I am a sufferer myself, I wish you to send me a package by return mail.

Phil Brooks, Detroit, Mich., says: "Your dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy life as I never have before, I gladly recommend them."

It will cost 50c. to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

All druggists sell them. A little book on stomach diseases will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

## MR. McLELLAN.

GOVERNMENT CANDIDATE IN WEST PRINCE.

The subject of this article was evidently never designed to shine among the constellations. By a fortuitous combination of accidents he reached the Speaker's chair of the House of Assembly where he seemed for a few hours, on one occasion, to feel a slight consciousness that he had a mind of his own. That feeling was, however, only momentary, or until he heard the emphatic stamp of Peter's foot, when he wilted like a pricked bladder. At Ottawa the most important work that he was ever known to perform was to write his initials on the letters which Mr. Henry J. Pineau had occasion to mail during his famous sojourn at the seat of Government. That eminent performance of the ex-member for West Prince saved the immaculate Pineau not less than fifty cents. Such an eminent performance on the part of Bernard D. McLellan should surely excite the admiration of his late constituents. If that should not suffice, surely a survey of his wonderful engineering achievements at Skinner's Pond should convince the most skeptical that Bernard's genius should not be allowed "to blush unseen."

## MR. BELL.

GOVERNMENT CANDIDATE IN EAST PRINCE.

It is a fortunate circumstance for Mr. Lefurgey as well as for the people of East Prince that Mr. Bell has had an opportunity of exhibiting himself in Parliament, and dispensing some Government patronage. His prosy speeches in the Commons have the reputation of being the best soporifics ever tested in the City of Ottawa; while in the disposal of the contents of the Government flesh pots, he has utterly failed to give satisfaction to the rank and file of the party. Mr. Bell, like his Knightly leader, is a very promising man; but the people would like a little performance now and then by way of variety! Of course it was very foolish of the Liberals of West Prince to expect that Mr. Bell would have any influence with the Government he so faithfully supports. Who has forgotten the manner in which he knocked down to Peters' in 1896, or the humble way in which he submitted to his expulsion from the editorial chair of the Pioneer? He has evidently much in common with the walnut tree which

"The more you beat 'em, the better they be."

## A GREAT BATTLE

That is Being Fought by Canadians on Canadian Soil.

The forces of Dyspepsia have Attacked

Our People—But with the Assistance of Dodd's Dyspepsia Tablets We Can Easily Drive Them Back.

The war between England and Africa, if it continues for a thousand years, would not produce a battle so momentous—all its battles together would not be so important as the Battle of Life.

If you would win in the Battle of Life you must have a clear brain, keen senses, perfect vigor, shrewdness, energy and ambition.

Dyspepsia kills these useful qualities. You can't succeed if you are constantly tortured by dyspepsia or indigestion.

But you can get rid of dyspepsia, indigestion, biliousness, sour stomach, or any other ailment of stomach or digestive organs, by simply taking one or two of Dodd's Dyspepsia Tablets after each meal.

Dodd's Dyspepsia Tablets banish indigestion and dyspepsia. They ensure perfect digestion.

With a perfect digestion go a strong, healthy body, a clear capable brain, vigor, ambition, determination, energy, activity, keen, alert senses. Dodd's Dyspepsia Tablets ensure all these.

Dodd's Dyspepsia Tablets have never failed to cure any or all of the diseases named when they have been fairly tried. They cannot fail.

If you don't believe it—TEST THEM. They'll convince you by curing you.

WHOLESALE AGENT

Harder to increase trade in clothes for knickerbocker boys than in any other department of a clothier's business—more competition. "Everybody" sell boys' clothes except hardware stores, and some day they'll be advertising patent aluminum suits with reinforced seats and knees.

Besides outside competition our boys are continually graduating into youths and men. The same families won't furnish boys indefinitely, so we have all the while to keep finding new boys to replace the growaways.

Then again many parents imagine that a boy ought to be dressed for a quarter the cost of dressing his sister. They read advertisements of boys suits for 98c, 49c, &c., and try them, generally resulting in the boys' discreditably appearance. Even people who go to a first-rate clothing store for their boys' clothes often begrudge paying as much as is necessary to get real nice things.

We are going to revolutionize our boys' clothing trade by putting it on a basis as level as it ought to be effective.

Henceforth we shall sell clothes for knickerbocker boys without profit.

This means good clothes with only enough added to cost of material and labor to cover the expense of delivering them to you—not a dollar's worth of profit for ourselves; we'll wait for profit until the boy begins to pay for his own clothes.

The entire stock of boys' wearables—clothes—furnishings—hats and caps has been marked to accord with this idea.

You are invited to look.
