EXCURSIONS.—The Charlottetown Steam Navigation Co. intend giving excursions to Plover on their new steamer Northumberland, on Wednesday, Thursday, Friday and Saturday next. The Northumberland will leave the company's wharf at 8 a.m. on Wednesday, June 10, and will leave that place on return at half past two in the afternoon.

C. A. A.—Persons intending to take part in the gymnastic classes will please obtain shoes suitable for the purpose. Tennis shoes or moccasins will do. No heels allowed.

We are requested to state that the gymnasium will not be open for a few days yet owing to a delay in the arrival of the electric wires.

CATTLE AT LARGE.—Parties who are in the habit of obtaining free pasturage for their horses and cattle on Euston Street east and vacant lots adjoining, in the day as well as at night, are likely to find their animals pasturing in the city pound at an early day, at the rate of a dollar per head. The police officers are respectfully requested to take charge of animals found running at large in the vicinity referred to, and thus rid the residents of a nuisance which will not be longer patiently borne.

CONCERT.—The Relph Concert Company will give one of their popular performances in the Lyceum, on the 22nd inst. Those who heard Miss Chamberlain, the wonderful whistling soloist, when she was here a few years ago, will not miss this chance of hearing her again, and we advise those who had not that pleasure to make no engagements for the 22nd, as the performance is one of the best that has ever visited our city.

TWO ACROSS CANADA.—Professor Robertson's lecture to-night in the Philharmonic Hall should be attended by all who have an opportunity of doing so. The subject, "Two across Canada," is one which admits of much humor and graphic description, which the Professor knows well how to express. The lecture is rich in interesting facts as well, and we advise our readers who desire to know all about this Canada of ours, to hear Professor Robertson this evening.

AT SUMMERSIDE.—The Pioneer says:—The HAYTOR, a large iron steamer built at Middleboro-on-Tees, England, in 1889, entered this harbor about 5 o'clock last Saturday morning. She is owned by John Holman & Sons, and came from Barrow, England. The HAYTOR is 1000 tons net register and is commanded by Capt. Cooke with a crew of twenty. Part of the cargo (silk and merchandise) was discharged at Halifax, and the remainder (rails for the P. S. R.R.) will be discharged here. She will, we are told, proceed to Montreal and onwards trading in this part of America.

CHILD BURIED.—We are sorry to hear that a little son of Police Marshal Cameron, aged one year and ten months, was so badly burned on Saturday afternoon that for a time his recovery was despaired of. It appears that the child's older children were burning up some refuse in the yard, when the little fellow's clothing accidentally took fire. The child's cries brought his mother upon the scene, and it was only with the greatest difficulty that she succeeded in tearing the blazing clothing off the child and extinguishing the flames. Mrs. Cameron had her hands badly burned while rescuing the child. The little fellow, we understand, is severely burned about the face and ears, but his body is unharmed. Dr. Warburton is in attendance. The child is reported "better to-day."

SCHOOL MEETING.—The annual school meeting of 1891 will be held throughout the Province on Tuesday, the 10th inst., at 4 p.m. At this meeting supplies will be voted for the coming school year, reports submitted, and all business in connection with the school transacted. To be legal, at least six days' notice must be given. Notices must therefore be posted not later than the 10th inst., in three of the most public places of the district, of which the schoolhouse shall be one, and shall be signed by the Trustees or by the Secretary on their order. To avoid complications care should be taken to conduct the meeting strictly in accordance with the law. The sections of the School Act of 1877 which refer specially to the matter are 43, 45, 46, 47, 48, 50, 55, 56, 59, 60, 74, 75. These should be carefully studied and closely followed.

Death of Sir John

Very Imposing Ceremonies.

DESCRIPTION OF THE CASKET.

OTTAWA, June 8.

The Premier died at 10.15 on Saturday night, and the sad intelligence was published by the tolling of the city fire-alarm bell.

The streets were crowded, and great excitement ensued.

In Toronto the bells tolled as soon as the news was received.

All flags are at half-mast.

Sir John's body has been embalmed. His features are most life-like, excepting for the extreme pallor of his cheeks.

The body lies in state to-day at Earnsccliffe. To-morrow morning it will be taken to the Senate Chamber, where it will lie in state until Wednesday, at 1 o'clock, when it will be taken to St. Alban's Church.

Thence it will be taken by rail to Kingston. From Wednesday night until Thursday at noon the remains will lie in state in Kingston City Hall, after which the body will be buried beside his parents, his first wife, his brothers and two sisters.

Both Commons and Senate chambers will be appropriately draped.

In the great dining hall at Earnsccliffe the remains of his late master lie this morning. The casket rests upon a pedestal in the centre of the room, and all the appointments are most imposing.

The hangings are of violet and white. These arrangements took till nearly midnight to complete, and when all was done the metallic casket with its precious burden was carried down stairs from the room in which the lamented premier passed away, and placed upon a catafalque there.

There the remains will lie until to-morrow morning to be viewed by the members of the sorrowing household and a few personal friends, including the members of the Cabinet, who will call at Earnsccliffe to-day.

So far Lady Macdonald has borne up bravely, but the strain upon her endurance has been inconceivably severe.

The casket in which all that is mortal of the departed statesman lies is of rolled steel finished in rose-wood graining, with a silver rod extending the full length alongside. It has a full glass top, and the cover is bound along the edges with solid silver in the form of wreathed leaves.

The lifting panels are fastened with silver knobs, the lifts themselves being in the shape of a wheel surrounded by a pair of folded wings. The interior of the coffin is upholstered in satin of the finest white, and fastened with silk cords. The shell in which the casket is to be enclosed before being lowered into the grave is of plain oak polished and finished with solid silver handles.

At Kingston the casket will be closed and hermetically sealed.

The Dominion Methodist Church here was heavily draped yesterday, and Sir John's death was the one theme in all the Churches.

Messages expressive of sorrow pour in from all quarters.

Early yesterday the Queen called her regrets to Lord Stanley, desiring him to express her deep sense of the loss sustained by the Dominion and the Sovereign.

Lord Knutsford sent condolences as also did Sir Charles Tupper from Vienna.

The Princess Louise has instructed the Governor-General to place a wreath on the casket from Lorne and Louise.

All the London papers this morning speak in highly eulogistic terms of Sir John. Both here and in Toronto on Sunday, morning editions of the papers were printed and sold.

The state funeral on Wednesday will be the most imposing pageant ever seen in Canada. During its progress minute guns will be fired not only in the capital, but in every city in Canada.

The interior of St. Alban's Church will be decked in the most impressive trappings of woe, and admission to the Church will be by ticket.

The removal of the remains from Earnsccliffe to the Senate chamber will constitute the private funeral.

Upon arrival in Kingston the casket will be taken charge of by Mayor Drenan, and all the expenses of the obsequies there will be borne by the city.
