I. O. O. F.—The Oddfellows of Charlottetown will assemble at their lodge room on Sunday afternoon at 1:30 sharp, and headed by the Citizens' Band will march to the several cemeteries and decorate with flowers the graves of their deceased brethren. All brethren are requested to be present. Visiting brethren cordially welcomed.

HIGHLY RECOMMENDED.—"Mr. Taylor surpasses our expectations. Is very fine. I never heard a better address on the subject. You will be more than pleased with him." So writes a friend from Summerside in reference to Rev. E. O. Taylor, who speaks in the Methodist brick church on Sunday evening next at 8:15 o'clock, and in the Baptist Church on Monday evening at 8, and also in Zion Church on Tuesday evening at the same hour. Silver collection.

WATERWORKS.—The waterworks survey of the town is now in progress, under the superintendence of Prof. R. S. Lea, and boring is going on at Pickering's brook. This brook was tested on Tuesday, and showed a flow of 600,000 gallons per twenty four hours, a supply sufficient for the domestic requirements of a town of twelve thousand inhabitants. Mr. Percy Tanton has given Chairman Hunt a written agreement to sell the water supply of this brook, together with land sufficient for pumping station and plant in connection therewith, and right of way through his farm for the water main, for \$1,000, should these privileges be required at any time.—Summerside Agriculturist.

EXHIBITION DATES.—The Provincial Exhibition takes place at Charlottetown on the 21st, 22nd, 23rd and 24th inst, with horse races on the 22nd and 23rd. The Prince County Exhibition takes place at Summerside October the 6th.

PUMPED THE BABY FULL.—Mrs. George Ruthman, of Beaver Falls, heard a peculiar noise on the back porch of her residence. She found her two sons, one aged seven and the other a year older, in the corner. The baby was on his back. The elder brother had inserted the tube of a bicycle pump in the baby's mouth and was filling him full of wind as fast as he could work the pump handle. The infant was unconscious, and its little stomach was inflated like a balloon. The mother pulled the tube from the child's mouth, and the air followed with a sharp sound like the exhaust of an air brake on a railway train. The baby recovered consciousness.—Wiar-ton Echo.
