

THE NEW Morell Regional School which was officially opened yesterday with ceremonies in the afternoon and evening is shown above. The spectators were told that bricks and mortar are fine but it's the teachers and pupils that make a school. Insert is the school's principal, Charles Campbell.

DEPUTY MINISTER of Education Malcolm MacKenzie is shown as he applied the mortar to officially lay the cornerstone for the new Morell Regional High School yesterday.

More RHS Cornerstone Laid By Deputy Minister

Yesterday to officially open the Morell Regional High School. Prior to the cornerstone laying, school pupils, parents and caterers gathered in the auditorium to hear several addresses marking the official opening of the school.

Chairman of the meeting was Rev. William Simpson, who along with Rev. Donald MacLean is co-chairman of the Morell Regional High School Board.

In his remarks, Father Simpson emphasized that the fine, new educational facilities do not mean much themselves, but it is the teachers and students who really give meaning to education.

This thought was enlarged upon by the principal, Charles Campbell who told the students "there is no royal road to learning," and while excellent facilities have been provided for the students of the area, it is the responsibility of the student to make good use of them.

Speaking briefly, Mr. MacKenzie said "while we are very proud in the department of education of this new building, bricks and mortar do not make a school—proper teaching methods and good teachers are all important."

It is the teacher that makes the school live and I would suggest that you students give serious consideration to entering the teaching profession. There is still a weakness in our high schools—we need more men and women to enter the profession with a view to teaching in high schools."

Museum Is Attraction

Approximately 10,000 tourists visited Montague Museum during the season, the chairman stated yesterday. This figure represents an increase of at least 1500 over the previous year.

As all visitors do not register, the number is only an approximation, he noted. He also added that many people called to see the museum after it had closed for the season.

The following committees were named: Scout promotion - Judge J. S. DesRoches; Cub promotion - Mrs. R. R. Beck; camp and activities - Douglas McGowan; finance - Roderick Martin.

The major topic of discussion was the need of suitable, permanent quarters for Scout meetings. This need has become pressing since the announcement that the Armouries would no longer be available. Every effort is being made by the committee to rectify this situation.

A need for assistance in leadership was expressed by Scout Master Douglas Hender, who also reported that an excellent camp had been held at Red Point last August, with 16 boys from Montague and 11 from Souris attending. Mr. Hender also moved a vote of thanks to Richard Wallace of North Carolina, who led nine enthusiastic Scouts on an overnight bike last week, an outing thoroughly enjoyed by the boys.

Mrs. Ina Hixcox, cub master, reported great pleasure and satisfaction with the Cub meeting place in the Elementary School, and with the valuable assistance received from Mrs. Douglas Coffin and Mrs. A. E. Sullivan.

Appreciation was expressed by all present when Mr. Fraser announced that a cheque for \$100 had been received from the Montague Choral. This money, a gift to both the Boy Scout and Girl Guide organizations, is to be used to start a joint "Building Fund," and is deeply appreciated by all concerned.

Eric Duvan, district scoutmaster, was asked to represent the group committee at the Provincial Council.

DANGEROUS PRACTICE

Cleaning clothes with carbon tetrachloride is dangerous when done in a small room without adequate ventilation.
