RACE.—The Fall meeting on the Pictou Driving Park is to be held on Friday and Saturday of next week. For the first day are two purses one of \$125 for the 1.35 class and \$100 for 2 minutes. On the second day the grand steeplechase will come off when the Stallion race is to be trotted for a purse of \$250. There will also be a running race for a purse of \$50. This will likely be a good meeting, coming as it does immediately after the New Glasgow meeting of the 23rd. We look for fast trotting and good sport at the races on the 25th and 26th. —Pictou News.

DOCTOR APPELBECH has written to a Jewish paper to recommend the practice of washing the hands before eating as a most valuable safeguard against contagious diseases. The doctor says that scrupulous cleanliness of the hand is, he is firmly persuaded, a certain means of prevention, particularly in the case of children, who so often take their food in their hands. The Jews have again this year enjoyed a wonderful immunity from the ravages of cholera. Can it arise from their habit of cleansing their hands before meals, which is one of their most urgent commands? At all events, such a practice is to be highly commended from more points than one.

A P. E. ISLAND dude, wearing a twenty cent pair of spectacles, and light brown overcoat, came to grief at Stellarton, on Monday last. He was a passenger by the express going west, and wanted to take charge of the train, between New Glasgow and Stellarton. When the train stopped at this station the employes fired him out. He laid on the platform for some time, calling those who gathered around him half-breeds, and a list of nice sounding names for which you look in vain in Webster's unabridged. F. O. Nicholson appeared on the scene, armed with a pair of handcuffs, and took charge of him. When last seen he was tramping towards Hopewell, minus his glasses. —Pictou News.

VERNON RIVER METHODIST CHURCH RENOVATION.—During the last few weeks this Church has undergone a thorough repair and renovation. It has been raised 12 or 15 inches, and underneath has been placed a solid foundation of dressed stone. It has also been partly new silled. After slight repairs to the outside the roof was covered with metallic paint, and the walls received three coats of paint. The door has been neatly grained, and a good platform has been built in front of it. Inside the building has undergone a complete transformation. The ceiling has been bleached, and the walls papered, varnished and blocked in imitation of marble. The cornice has been painted in various colors, and below it has been painted a border of pink roses, which look very natural. Behind the pulpit the wall has been painted a tea green color. The windows and pews have been painted and varnished, while the pulpit and communion rail have been grained. Inside the communion rail has been covered with a Brussels carpet. New blinds have been secured. It is intended also to secure additional and more powerful lamps. The total cost will be about \$180, (exclusive of between \$40 and \$50 worth of free labor and material.) This will be met by the subscriptions of the worshippers and the collections on the re-opening day. Mr. Cephas Ross, of Vernon River, has done the painting, graining, papering, varnishing, etc. His work has given satisfaction. On Sabbath morning, September the 13th, the Rev. Job Shepton, President of Conference, preached The sermon delivered with fervor, was beautiful and highly appropriate. Every available seat was occupied. A collection amounting to between \$14 and \$15 was taken up. In the evening the Rev. George Steel, the pastor, preached. Additional seats had to be provided. The collections for the day were between \$21 and \$22. All present expressed themselves as well pleased with the appearance of the building, which was with hearty and very inspiring, especially so in the morning, when, during part of it, most of the congregation were taking part.

A Well Planned Revolution.

The Roumelian Government Deposed.

General European Embroglio Expected.

LONDON, Sept. 21. The populace of Philippopolis, the capital of Eastern Roumelia, almost to a man rose in rebellion yesterday. They seized the Governor General and deposed the Government, and proclaimed a union with Bulgaria, and established a provisional government. The revolt was so well planned that no disorder or bloodshed occurred, everybody being in sympathy with the movement except the government officials. It is generally believed in diplomatic circles that Russia arranged the programme of the uprising, and suggested the union with Bulgaria.

A despatch from Paris says: It is feared here that the Roumelian trouble will lead to a general European embroglio. The East is in a most inflammable state, and serious events are anticipated.

Advices received from London state that Prince Alexander, of Bulgaria, has been assured of the support of Russia, Germany and Austria. He will send an army to Roumelia, and will defy the Turks.

The Sultan of Turkey has appealed to the Powers to enforce the Treaty of Berlin.

The Genesta Victor.

A LARGE FIELD OF YACHTS AND A FINE RACE.

NEW YORK, Sept. 18.—The English cutter Genesta retrieved herself in winning the regatta given under the auspices of the New York Yacht Club near Sandy Hook to-day as it was the annual race of the club. The prizes consisted of two cups—one given by Commodore James Gordon Bennett, for schooners, and the other by Vice-Commodore Douglas, for cutters or sloops. There were ten entries, as follows: Schooners—Fortuna, Grayling and Dauntless. Cutters—Genesta, Ileen, Stranger, Clara and Isis. Centre-board Sloops—Gracie, Athlon and Daphne.

The day opened bright and clear with a stiff breeze from the southwest. The course was a triangular run of 35 miles from an imaginary line drawn between Scotland lightship and the judge's boat, which was the tug Luckenbach. The course was as follows: first leg east by north; second leg southwest by west three quarters north-west, and third leg to starting point. The first two legs have 13 miles each and the third 8 1/2 miles. Shortly before 11 o'clock the tug whistled for preparation and a few minutes later

THE SIGNAL FOR A START was given. The first yacht to cross the line was the Ileen at 11 o'clock, 11 min. 03 sec. She was followed by the Clara at 11.11.09, and the third craft was the Genesta, upon which all eyes were fixed. She glided over the line at 11.11.30, followed a few seconds later by the Fortuna. Then came respectively the Grayling, Athlon, Dauntless, Gracie, Daphne and Isis. The last two were handicapped by an allowance of 5 minutes. The Genesta forged rapidly ahead, and gained steadily upon the yachts which had crossed before her. She gained upon the Clara and Ileen, but in turn was closely pressed by the Fortuna. At 11.45 the Genesta, Ileen and Fortuna were abreast of each other, with the English cutter slightly in the lead. The Genesta gained slowly upon the other two, and after the first five miles it became evident that the Genesta was ahead and intended to keep the first place. She had the wind fair on her first leg, and did not spare her canvas. The result was that

SHE STEADILY WALKED AWAY from her competitors. Captain Carter dexterously rounded the first buoy at 12.49.15, followed by the Fortuna, which made the turn at 12.50.23. The Grayling manifested good sailing powers and passed the red float a few seconds after the Fortuna. The Gracie then attracted attention by pressing forward and rounded the buoy fourth in the list. The Genesta made a big sweep to windward and left the others so far behind that the race seemed certain, for the Gracie had threatened her seriously sometimes. The second buoy was passed by the Genesta at 3.07.55, and the Grayling which had dropped into second place, turned at 3.19. The Fortuna came third and the Gracie fourth, the latter sloop being nearly half a mile behind the English cutter. The steamers Grand Republic and Taurus, with a number of steam yachts and sailing vessels, were all crowded with interesting spectators, who cheered the crew of the Genesta for the superior manner in which they handled their graceful craft. On the homestretch the English vessel came scudding along like a duck, and passed the line at Scotland lightship at 3.41.10, with the Grayling second.

There were private sweepstakes contended for during the race by the English cutter Clara, the New York cutters Ileen and Isis, and the sloop Athlon, which were won by the Clara. The Bennett prize cup was awarded to the Grayling and Douglas cup to the Genesta.

The English cutter, her owner and crew, received an ovation after the race, and between cheers, the noise of steam whistles, and the din of fog horns, the course seemed a veritable bedlam. Everybody was satisfied with the race. The weather and other conditions were as favorable as could be desired.

'Sing a Song of Sixpence' is as old as the sixteenth century. 'Three Blind Mice' is found in a Music book dated 1609. 'The Frog and the Mouse, was licensed in 1580. 'Three Children Sliding on the Ice' is of unfathomed antiquity. 'Girls and Boys come out to Play' is certainly as old as the reign of Charles II; as is also Lucy Locket lost her Pocket, to the tune of which the American song of 'Yankee Doodle' was written. 'Pussy Cat, Pussy Cat where have you been?' is of the age of Queen Bess. 'Little Jack Horner' is older than the seventeenth century. 'The Old Woman Tossed in a Blanket' is of the reign of James II, to which monarch it is supposed to allude.
