Testimonial From Duluth, Minnesota.

DEAR MRS. ROSS.—Having tested your "MAGIC HEALER," I wish to express my gratitude to you by this testimonial, which you can use, if you think it will assist you in selling it: Having cut my hand severely with a chisel, the corner of the chisel having entered the palm of my hand, making a long and deep cut, I applied your "MAGIC HEALER" at once, and after three applications I was able to go to work, and in three days the cut was healed up.

Yours truly,  
ALONZO H. LAVERS.

## LETTERS TO THE EDITOR.

### The Horse Market.

Sir,—All farm products, with the exception of horses, are being eagerly bought up at good prices. Some appear to believe that the small demand and low prices for the latter is caused by the McKinley Bill. It must be admitted that this is in part correct, but only to a very limited extent. One cause of the depression is due to the low price in Europe for timber and deals, which has fallen so much that a large quantity of last year's cut has not been shipped, and is held by the owners on this side. For this reason the operations in the woods, where horses are extensively used, are much less than they have been for many years past. Lumber merchants who have been in the habit of buying largely of Island horses, are this year reducing the stocks they have on hand by selling to farmers, truckmen, and others in their different localities, thus becoming competitors instead of good customers, as they had formerly been. For reasons that we need not here enquire into, the price of horses has gone down in the United States. Extracts given below from a few of many advertisements in the Boston Globe, of the 23rd inst., will give an idea of how thoroughly the market is demoralized there. But as the times are said to be on the Island, if these horses are what they are represented to be, and were offered in Charlottetown or Summerside, they would not remain long without purchasers at the figures asked for them.

The low prices in New York and Boston has induced shipments from these ports to the West Indies, to such an extent that the markets there are over-stocked. For a few years past a number of Island horses have gone south, with good results, but those that are going forward this fall (owing to American shipments) I fear will give an unsatisfactory return to the shippers, of whom I am one.

The prices have fallen (I hope only for a short time) but not so much as they have elsewhere. Take it all round, few horse raisers get better values than our Island farmers. Here are the Boston Globe's advertisements:

\$150 CASH WILL BUY the very stylish trotting mare Lily Wilkes, sired by Red Wilkes, son of George Wilkes, the great sire of trotters; dam Lady Harold, by Harold, the sire of Maid S; she is 5 years old, 13 hands high, full main and tail, bright rich color; has great courage and endurance; natural roadster of 1 1/2 miles an hour; she trotted three heats, when purchased by my husband at Lexington, Ky., a little over a year ago, in 2:31, 2:29 and 2:24, at which time he paid \$81 for her, and she is a better mare now than she was then; will warrant her sound, kind and gentle for ladies, as she has been used as a family and road mare the past year; allow thirty days trial; also at great sacrifice the very fast chestnut sorrel trotting horse Grayville; cost my late husband \$120; perfect in every particular, and can trot a full mile in 2:23; is young, handsome and stylish, and can road 26 miles in two hours, and weighs 1050 lbs. ## St. John Police Troubles.

A St. John despatch of the 28th says: At the regular meeting of the council this afternoon police matters was the chief subject of discussion. For a time confusion reigned supreme. The report of the board of public safety to the council that the Covey charges be investigated under oath in the police court was adopted. The chief of police was hauled over the coals in a lively manner, especially in reference to his action in reducing the Weatherheads to the ranks. Weatherhead, one alderman said, was a far better police officer than "Bill" Clarke ever hoped to be. The aldermen all complained bitterly that the city has no power in the appointment of its chief or officers. One alderman moved that the city reduce the pay of the policemen to 10 cents per day and hire a new force of special constables. It was not deemed advisable to press the motion at present, although the expedient may have to be tried soon. The chief will listen to no suggestions from the council, as he is appointed by the provincial government and his salary fixed by statute. He was present at the meeting of the council and interrupted the council while Ald. Tufts, chairman of the police committee, was speaking.

## A Comical Hanging.

THE SUBJECT WAS TO WHISTLE WHEN HE HAD ENOUGH, BUT HE COULDN'T.

Two drunken men, John Hoffman, almost a giant, and Tony Fechner, a pigmy, while drunk in Brooklyn, N. Y., one day last week, decided to settle a dispute about the pain of death by hanging by a practical experiment. The dwarf agreed to be the subject, and the stalwart consented to act as executioner. A rope and a hatchet were procured, and a clothes pole was selected as a gibbet. The noose was put around Fechner's neck and the other end of the rope thrown over the pole. It being understood that the hanging man was to whistle when he had enjoyed a sufficient experience to settle the dispute, he was hoisted up by Hoffman. Soon his tongue began to protrude and his eyes started from their sockets. Whistling was out of the question, so Hoffman received no signal to cut his friend down. Fortunately, just as the experiment was about to prove absolutely successful, the rope broke, thus saving the pigmy's life. The two men had a savage fight when Fechner recovered his wind. Hoffman was sent to jail for ten days for intoxication, and when that term is out he will be tried for assault.

## News Notes.

It is stated that there have been 4,000 cases of diphtheria and 800 deaths reported in Newfoundland within the last two and a half years.

The Department of Justice has received a despatch that the Indian (Sumah) now in New Westminster, B. C., jail, has been sentenced to be hanged December 16th for the murder of another Indian.

New York State has excellent farm lands, and its farmers have easy access to the markets of sixty millions. Yet it is interesting to note that the total gain in the population of the State during the past ten years was 899,063, while in the cities and towns over 4,000 there was an increase of 931,386. These larger places, therefore, absorbed the whole of the increase, and drew besides 30,000 people from the rural sections.

Sir John Macdonald was recently interviewed by a Montreal reporter in regard to the possibility of a dissolution, Sir John is reported to have said: "The matter has not yet been considered by the cabinet; that he saw no reason why he should dissolve just now, but that should any occasion arise to render a dissolution necessary the country would receive due notice."

## A Massachusetts Man's Feat in Penmanship.

Walter S. McPhail, of Holyoke, Mass., is a most versatile penman. He writes equally well, and with the same rapidity, with right and left hand, and with both hands at the same time. He also writes two words at the same time, one word upside down and backwards with the right hand, the other in the usual way with the left hand, or vice versa; but his most astonishing duo-dextrous feat is writing one word backwards and upside down, while with the other hand he writes another word as it appears in type—that is, when the paper is turned over and held to the light it appears as it should. About a year ago Mr. McPhail performed the feat of writing, with pen and ink, 10,283 words on one side of a United States postal card.—Boston Globe.

DIVIDING IT UP.—The temperance people of Hamilton, Ont., are raising a row because wine was used at the banquet recently given to the iron and steel delegates, and say that the money collected for taxes should not be used for paying for liquor. A Hamilton paper suggests that as these are taxpayers who do not object to wine, "the money of the temperance people should be used to pay for the grub, and the money of the other fellows to pay for the champagne."

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.
