

**N.J. Barber Shop
Ordered To Cut
Hair Of Negroes**

TRENTON, N.J. (AP) — A northern New Jersey barber shop was ordered by the state to cut the hair of Negroes who previously had been refused service.

In a precedent-setting ruling, the New Jersey division of civil rights said the policies of Philip's Barber Shop in Madison constituted racial discrimination.

The decision came after a prolonged controversy that resulted in a public hearing last June. The barbers had contended they didn't know how to cut Negroes' hair and their shops should be exempted from state statutes on the grounds that the services they perform are strictly personal.

CONTRARY TO LAW
George F. Plauss, director of the State Division of Civil Rights, said refusal to cut the Negroes' hair was contrary to public accommodations provisions of the New Jersey civil rights law.

Plauss specifically directed Philip Gaetti, operator of the barber shop, to take immediate corrective action by inviting two Negro customers to whom he had refused service to his shop for haircuts at regular prices, during regular business hours.

"He must also serve all other Negro customers in the same manner as white customers," Plauss said.

**New Device
Aids Doctors**

TORONTO (CP) — An electronic detection device that can tell doctors in 10 minutes the location, intensity and reaction to treatment of an internal disorder is being tested at Toronto Hospital for Sick Children.

The device, also in use in Hamilton, Saskatoon and the Ontario Cancer Institute here, is the brainchild of physicist Norman Aspin, 31, who says the machine provides information about disease that was previously unobtainable. In addition, it duplicates work done by other machines in much less time.

Dr. Aspin spent about 18 months developing the scintillation camera, an electronic device that gathers information by photographing radioactive substances as they pass through the body organs.

PROVIDES DETAILS
Similar machines in use take about two hours to do the work the scintillation camera completes in 10 minutes. The new camera also provides more detailed information.

For example, the machine can show doctors exactly where a child with breathing difficulties has the most trouble and precisely where the disease is most severe. After treatment, it traces the result.

The camera thus permits doctors to diagnose and begin treatment of some disorders without waiting for the disease to develop to a point where overt symptoms make clear what is wrong.

**Chemical Output
Shows Increase**

MONTREAL (CP) — Production of Canada's chemical industry rose 7.5 per cent to a record \$1,750,000,000 and a further seven-per-cent increase is likely in 1965, Herbert H. Lank, president of Du Pont of Canada Ltd., says.

In a year-end review of the industry, he also forecasts a sharp increase in capital investment. In 1964 new spending totalled \$174,000,000 compared with \$117,000,000 in 1963.

Although domestic production has increased, the value of imports has climbed even more sharply, Mr. Lank says.

"Despite the expansion in external markets for Canadian exports such as fertilizers, the trade deficit in chemicals will remain for another year."

MIGRATING OWL

The U.S. Snowy owl is one of the few owl species that migrates—from the Arctic tundra to more temperate climes, but never the tropics.

men's
sport shirts

This Christmas Gift him with a sport shirt of his choice. Choose from this large selection of tapered or regular styled bodies for a trim fit. Plaids, stripes or neat checks in blue, olive, brown and grey cotton. Lined collar with perma stays for lasting neatness. Sizes S, M, L, XL.

3.98

timex
watches

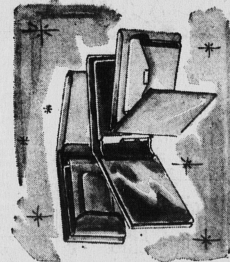

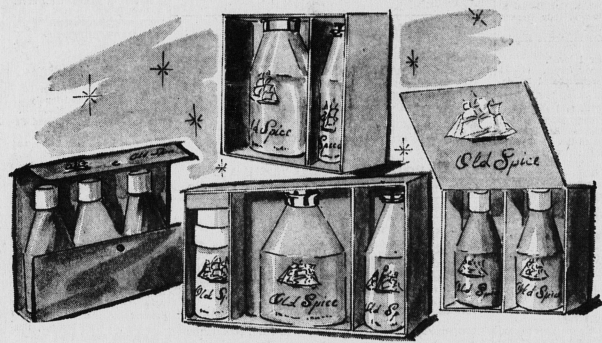

Give the gift that gives every day of the year... a Timex watch. Yes you can make it a watch Christmas for every member in your family when you choose Timex. Choose from gold or chrome cases in leather or expansion bracelets.

8.98 to 12.95

always a favorite
old spice sets

Choose from the best selection ever of Old Spice... the finest grooming products for men.

Plastic Travel Set	1.50	Set in Leatherette kit with plastic bottles	2.50
After Shave Lotion	1.50	Shaving Mug	1.50
