## MR. BLAKE'S SPEECH

### On the Question of Supply, FINANCES OF THE PROVINCE. A PLAIN STATEMENT.

Following is the official report of the speech, on the question of supply, delivered by P. Blake, Esq., member for the city, in the House of Assembly, Charlottetown, on April 18th last:

MR. BLAKE.—I suppose that the House is now almost tired of listening to long speeches on the motion now before it; but as this is a very important question, I would not be doing my duty if I remained silent. Hon. gentlemen on the other side of the House have found great fault with the present mode of conducting the public business, and complain very much on account of the indebtedness which now exists, amounting, they say, to about \$200,000. Well, I confess that I extremely regret we have so large an indebtedness, and must say that I would not like to see it continued in future. The rolling up of deficits from year to year is a very bad mode of doing business in private establishments, and the same principle will apply to the public business of the Province. I am, therefore, of opinion that a change should be made by the Government in their present financial policy. I take the ground that deficits should not exist in the transaction of either private or public business. But although fault has been found with the Government on that score, not a single charge of extravagance or corruption has been brought against them. On the contrary, they have introduced a system of

### ECONOMY AND RETRENCHMENT

in their management of public affairs, although not a member of the Opposition has had the political honesty to admit that such is the fact. With many of the remarks of the hon. senior member for New London (Mr. Sinclair), I was somewhat pleased, and fully concur in a portion of them. From his character for honesty, I had expected he would have given to the Government credit where credit was due, although he did take exception to their financial management. The question I will first deal with is this: "By what means have these deficits occurred during the past few years?" I think I use a fair and legitimate argument in favor of the general policy of the Government when I say that those deficits have been caused by certain public expenditures not under their control. We have heard some elaborate calculations made by some hon. members of the Opposition comparing the present financial position of the Province with that when the Davies Government were in power. It has often been said that figures cannot lie; but I think that by more than one hon. gentleman opposite they have been made to lie, or at least to do in the way of misleading. It is clear that figures can be made to tell any story which they are required to tell. Hon. members of the Opposition declare the balance against the Province to be \$236,000. That statement is considerably over the mark. I believe that there is a real indebtedness of about \$191,000. A good deal of disputing has taken place respecting the statement that only three quarters salary were paid the teachers in the year 1878, and that the remaining quarter should be added to the admitted deficit of the year. As the present Government has paid four full quarters salary to the teachers during each year since they came into power, it would be manifestly unfair to charge them with any further amount under that head. But I believe that unpaid accounts were carried forward at the close of the past year, amounting to \$7,000 or \$8,000, which, added to the sum just stated, makes a total of about \$198,000 indebtedness on the 31st December last. That the present Government are chargeable with an indebtedness of about \$200,000, I, as one member of the House, deeply regret. I think I shall, however, before I sit down, show clearly the causes of that indebtedness. Hon. members of the Opposition differ very widely in their statements respecting the amount of our capital at Ottawa, some placing it at one sum, and others at another. Every one of them seems to have made a different calculation. There is one fact, however, that cannot be controverted, and that is, it makes very little difference as to what amount is capitalized at Ottawa, so long as we receive a

SUFFICIENT SUM  
from that source to meet the requirements of the public service. I find that last year we received from the Federal Government the sum of \$183,537.20. This year we shall receive about \$193,000, or some \$35,000 over and above the amount received from that source by the Davies Government. If we capitalize that \$35,000, we shall find that it represents a capital sum of \$700,000. This shows the real increase of our capital at Ottawa since the present Government came into power. That certainly shows a very satisfactory state of affairs in that quarter. I cannot, therefore, see how we can be in a worse position, financially, than when the present Government assumed the reins of power, as stated by hon. members of the Opposition. Deducting the \$200,000 indebtedness from the increase of capital at Ottawa, we have still a balance of \$500,000 clear gain to the credit of the Province. It may be said that the present Government have used up a large portion of the moneys received at the Land Office since they came into power. Well, the Leader of the Opposition admitted that the policy of using the moneys received for Public Lands was first inaugurated by themselves. Although it is not good policy to expend the capital of the country, it is much better to expend moneys received for Public Lands, which, were they capitalized, would not yield more than four per cent., than to levy an Assessment Tax, and collect the same at a cost to the country of about fifteen per cent. I think that matter might well be omitted from the calculation altogether, as both parties have pursued the same course with reference to it. Looking at our financial position in the fairest possible way, there has been

### A CLEAR GAIN TO THE PROVINCE

in capital account at Ottawa of \$500,000. Under these circumstances there is no need whatever to sound the alarm as to the state of our finances. I have no doubt that a

NEWTON LEE.  
April 23, 1888.

### A By-Law to Amend the By-Law to Prevent Nuisances,

(Passed 14th May, 1888.)  
BE it enacted by the City Council of the City of Charlottetown, as follows:—  
1. The By-Law passed on the Nineteenth day of December last past, 1887, intitled "A By-Law to amend the By-Law to prevent Nuisances," is hereby repealed.  
2. Immediately after the publication of this By-Law, every sign or other projection, fixed or hanging and projecting beyond the line of any house, shop or other building to which the same is attached, and over any sidewalk or street of the said City, shall be removed and taken down by the owner thereof or by the owner of the premises from which the same projects.  
3. No person shall hereafter place, fix or hang up any sign or other projection so that the same shall project over any sidewalk or street in the said city, or beyond the line of any house, shop or building to which the same is attached.  
4. Any person or persons guilty of an infraction of the provisions of this By-Law shall, upon conviction before the stipendiary Magistrate of said city, forfeit and pay at the discretion of the said Magistrate a penalty not exceeding Ten Dollars for each offence, exclusive of costs (every day he neglects to remove or permits the sign to remain, contrary to the first section of this By-Law, to be considered a separate offence), and in default of payment thereof it shall and may be lawful for the said Magistrate to commit the offender or offenders to the Common Jail of the said City for any period not exceeding fourteen days, unless the said penalty and costs be sooner paid.  
T. HEATH HAVILLAND,  
Mayor of the City of Charlottetown.  
A. H. MACPHERSON,  
City Clerk.  
may16-2w 2aw

### MR. S. N. EARLE,

Teacher of Piano and Organ,  
**WEST STREET,**  
Charlottetown, - P. E. Island.

SUMMER CLASSES will commence May 1st, when Mr. Earle will be glad to receive a few pupils in place of some who do not remain in town during the summer.  
Having resigned his position in St. Paul's Church, Mr. Earle is open to an engagement as Organist or Trainer of a Choir.

Terms—Ten Dollars per quarter, hour-lessons Five Dollars per quarter, half-hour lessons. Special attention given to young ladies from the country.  
may 16-2w 2aw

sufficient sum will be received from the Federal Government to pay off all the present indebtedness of the country; but whether it will be drawn from capital or from amounts due in payment of the claims of this Province I do not know, as I am not in the secrets of the Government. But I think the present indebtedness should be paid off, and that in future we should have a clean sheet without any further deficits, year after year. I shall now endeavor to show the cause for that indebtedness of \$200,000. When the hon. member for West River made a comparison between the expenditure for two years under the Davies Government, and the expenditure for two years under the present administration, he showed that large sums had been expended by the former in some departments of the public service, and that comparatively small sums had been expended in those departments by the latter. Well, it is quite true that the Davies Government did expend enormous sums, instead of economizing as they should have done. But the hon. member failed to make a comparison of the sums expended by the two Governments for education. Now, I am going to show that the increase in the expenditure for education under the present Government will

MORE THAN MAKE UP  
the whole of the present indebtedness of the Province. In 1877 and 1878, the expenditure upon education by the Davies Government was as follows:

EXPENDITURE BY DAVIES GOVERNMENT ON EDUCATION.	
1877	\$ 80,813 01
1878	65,550 11
Total	\$146,363 13

Which is an average yearly expenditure of \$73,181.00. Now, the expenditure by the present Government on education since they came into power was as follows:

In the year 1879	\$ 91,007 88
" " 1880	96,213 81
" " 1881	96,459 46
" " 1882	97,411 77
" " 1883	101,193 41
" " 1884	105,185 09
" " 1885	109,763 08
" " 1886	111,992 21
" " 1887	110,484 54
Total	\$919,741 24

Which shows an average yearly expenditure of \$102,193.47. Let us now deduct the average expenditure upon education under the late Government from the average expenditure under the present Government, viz:

Average Expenditure under present Government	\$102,193 47
Average Expenditure under the Davies Government	73,181 00
Yearly increase under present Government	\$29,012 47

Multiplying this \$29,012.47 by the nine years of the present Government, we have a total of \$261,112.23. This sum, it will be seen, greatly exceeds the indebtedness at the present time, and shows where the money went. But the people, I believe, are

RECEIVING AN EQUIVALENT  
for the large amount now being expended on education. When the present Government attempted, last session, to cut down the expenditure in the smallest degree, they were accused of interfering with the efficiency of our educational system. In fact, they have never amended the Education Act to the slightest extent without being accused of a similar intention. But it is clearly seen that they have carried out the Education Act in its integrity, and improved it, and that while doing so they have expended annually the sum of \$29,012.47 more than their predecessors for educational purposes. This is an expenditure, as I before stated, entirely beyond their control, and amounted in the aggregate to \$261,112.23 over and above the average expenditure of the Davies Government. In addition to that very large amount, there was another uncontrollable expenditure, viz., that for the maintenance of the Hospital for the Insane. The present Government have expended on that institution annually the sum of \$8,882.40 over and above the amount expended upon it by the Davies Government, or a total in eight years of \$71,059.20. Add this amount to the extra sum expended on education and we have a total of \$316,171.43 for those two branches of the public service. I think I have clearly shown the cause of the indebtedness of the present Government, and that it has not accrued through any mismanagement on their part.

THE TOTAL EXPENDITURE  
of the Davies Government in 1877 and 1878 was as follows, viz:—

In the year 1877	\$381,632 13
" " 1878	334,131 29
Total	\$715,763 42

Yearly average.....\$357,881 71  
But during their term of office they took out of the pockets of the people in direct taxation nearly \$98,000, or a yearly average sum of \$49,000. They went out of power in 1879 with a deficit of about \$70,000. According to the Auditor's statement in the public accounts, their deficit was nearly \$22,000, but they left unpaid accounts amounting to \$51,000, making a total of over \$70,000.

Mr. Farquharson.—The hon. member makes no allowance for the statute labor now performed on the public roads by the people. Mr. Blake—I showed that the Davies Government expended annually an average sum of \$357,881.71 while they were in power, and that they went out of power with a deficit of over \$70,000. If the Davies Government had remained in power and had continued the policy inaugurated by them in 1877 and 1878, instead of having an indebtedness of \$200,000 as we now have, they would have an indebtedness of over \$900,000 at the close of the last year. The hon. member for West River claimed that the Davies Government expended much larger sums of money than those which had been expended under the present Government; I freely grant that they did; but they took the money from the pockets of the people in the way of taxes for that purpose.  
(Continued in our next.)

TO THE DEAF.—A person cured of Deafness and noises in the head of 23 years' standing by a simple remedy will send a description of it FREE to any person who applies to NICHOI, son, 39 St. John Street, Montreal. 4m—m14
