NO 125

LIEUT.-GOVERNOR OF NORTH WEST.

Cameron, M. P. Gets It.

HOUSE IN SUPPLY ON BLAIR'S Estimates.

The Plebiscite Bill Read a Second Time and Passes.

[SPECIAL TO THE EXAMINER.]

OTTAWA, June 1.—Another patriot has received his reward.

In answer to Mr. Foster, Sir Wilfrid Laurier stated that M. C. Cameron, M. P. for West Huron, has been appointed Lieut. Governor of the North West Territories. Mr. Cameron left Ottawa about a week ago, and it was understood then that he had the appointment in his pocket.

The House is now on Blair's estimates chiefly relating to canals.

In the Senate, the Plebiscite bill was read a second time and passed without counting the votes. The bill was well scored by a number of the Senators.

FIGHT GOING ON AT SANTIAGO.

The Two Fleets Engaged

THE BATTLE BEGAN YESTERDAY AFTERNOON.

The Americans Supposed to Have the Advantage.

[SPECIAL TO THE EXAMINER.]

CAPE HAYTEAN, June 1.—Advises received from Havana say that since two o'clock yesterday afternoon the American fleet at Santiago de Cuba has been cannonading the batteries of Morro Castle, Lozocapa and Punta Garda.

At the same time it is added the American ships have been engaged with the Spanish warships.

The firing was extremely heavy at 5.45 p. m.

The cannonading was less heavy against the fortifications but was more accentuated in the locality where the fleets were engaged.

Morro Castle is at the entrance to the harbor of Santiago de Cuba, La Socapa is a short distance inside the harbor entrance and this is taken as showing that the American fleet has entered the harbor and has engaged the Spanish fleet in these waters.

Private messages indicate that there has been a severe fight between the American fleet and the outer fortifications and the Spanish fleet.

The fight lasted the greater part of the afternoon

The advantages appears to have been with the Americans.

According to latest advices the combat is still in progress.

NIKKI IS BRITISH NOW,

Natives Drove Out the French and John Bull Took Possession.

LONDON, May 30.—A despatch from Lokoja, in the territory of the Royal Niger Company, West Africa, says that the natives at Nikki drove out the French officers and six men who were established there. No explanation is given of the action of the natives.

After the French had been expelled, the British troops in the neighborhood entered the place and hoisted their flag. The natives are rejoicing over the British occupation of the town.

The French have protested and demanded that the British withdraw. They have established a post, with the French flag flying outside the walls.

The town of Nikki was one of the original causes of the dispute between England and France. According to Captain Lagard, in the British service, the chief of that town signed a heavy treaty placing his people under British protection. Later the French raised their flag over Nikki and it has floated there ever since.

ANOTHER ACCOUNT OF THE BATTLE.

Americans Claim a Victory

SCHLEY FORCED AN ENTRANCE INTO THE HARBOR.

Thought to Be a Greater Victory Than Dewey's.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, June 1.—Another despatch says Commodore Schley's fleet forced an entrance into Santiago harbor and engaged the Spanish fleet.

The cannonading was heard for four hours and was taken to be the bombardment of the forts at the entrance of the harbor.

The heaviest firing was at 4 o'clock and it is reported from the heights that the American vessels could be seen engaged with Cervera's fleet.

It is believed here that the victory is greater than that of Dewey at Manila.

The batteries of Morro, Punta, Garda and Seopaco were silenced by the Americans as they sailed into the harbor, and half a dozen mines exploded about their ships without doing any damage.

WA-HAI-WEI.

Japs Hand it Over to China and it is Passed on to Great Britain.

SHANGHAI, May 30.—Wei-Hai-Wei has been evacuated by the Japanese. Twenty Chinese arrived there on May 20th and took possession. The Taotai, or Governor, landed on May 21st and was received by the Japanese general. The Taotai bowed and said: "Thank you." The general bowed swiftly and proceeded to his headquarters, where he handed the Taotai a plan of each of the forts. Silence reigned throughout. The Taotai nodded upon receiving each plan. The proceedings lasted half an hour. The Japanese left Wei-Hai-Wei immediately.

The British cruiser Narcissus arrived at Wei-Hai-Wei on May 29, and landed 45 marines on May 21, taking possession of the place, the Chinese disappearing. The Narcissus landed two flag-staffs in the afternoon, which were erected on the west fort. No flag was hoisted, although the British appear to be in full possession. Sentries have been posted and the marines are quartered in the barracks. The guns have all been removed, but the forts are in good condition.

Children admitted to Marietta LaDell's entertainment for 15c. Tickets at the door only.

Ayer's Pills

Are a Sure Cure for Constipation

Dr. J. C. Ayer's Pills are a specific for all diseases of the liver, stomach, and bowels.

"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. After vainly trying various remedies, I began to take Ayer's Pills. Two boxes effected a complete cure."

D. BURKE, Saco, Me.

"For eight years I was afflicted with constipation, which became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural action."

ANOTHER CABLE HAS BEEN CUT

Off Santaigo de Cuba.

AMERICANS HAVE CAPTURED ANOTHER PRIZE.

A Spanish Barque, said to have Ammunition on Board.

[SPECIAL TO THE EXAMINER.]

KEY WEST, June 1.—News has been received here from Santiago which says that the auxiliary cruiser St Paul has cut the cable off that port.

Key West, June 1.—Another prize has been captured this time, the Spanish barque Maria Dolores, of Bilbao.

She was over-hauled by one of the American cruisers, six miles off Porto Rico.

She was bound from Rio Janiero to San Juan de Porto Rico with coal.

Some cases, supposed to contain ammunition, were found under the coal.

BAYARD CONDEMNNS SPAIN

And Hopes for an Anglo-American Union.

NEW YORK, May 30.—At Dover, Delaware, yesterday, Thomas F. Bayard, lately ambassador to England, delivered an address in which he said: "Spain is vain. Her vanity and arrogant pride have cost her much and will cost her more. She has disgraced civilization and humanity and she has tried to disgrace us, but in doing so she has pressed herself so hard that her total destruction, her total uselessness, among the civilized nations of the earth, are inevitable."

Referring to the Clayton-Bulwer treaty, which was a result of the statesmanship of John M. Clayton, of Delaware, who was one of the early Secretaries of State, which neutralized the antagonism of the English-speaking people for each other, Mr. Bayard touched upon the attitude of England in reference to our war with Spain. "I am happy to be able," he said, "to recall the policy of the English Government when the crisis came, when we were called upon to face the jealousy of the nations of Europe. It sent a thrill of joy to the heart of every good American and likewise every Englishman. It was the first step in the direction of that union which will mean the ascendancy of the Anglo-Saxon race and the indestructible brotherhood of the English-speaking peoples. It was a step on the way to a civilization that will brook no resistance."

U. S. S. COLUMBIA INJURED.

Was in a Collision With a British Steamer Off Fire Island.

NEW YORK, May 30.—The United States cruiser Columbia arrived at St. George, Staten Island, yesterday and anchored off Tomkinsville. She has a big hole in her starboard side abreast of the mainmast. The captain reports as follows:—

"At 7.38 p. m. last night, off Fire Island, during thick fog, was run into by steamer Foscolia (British), hence for Bordeaux, grain laden. The Foscolia struck the Columbia on the starboard quarter just aft of the after barrette, cutting clean into the hull, making a hole about ten feet, filling compartment with water. The Foscolia sank almost immediately after, but the Columbia succeeded in rescuing all of her crew and landing them at St. George's S. I."

The Columbia is a protected cruiser, of 7,375 tons, 412 feet long, with engines of 21,500 horse power. She was built at Philadelphia in 1892, and has a maximum speed of 22.8 knots. She has a crew of 400 men.
