

Shall we be Satisfied.

After toil and turmoil,
And the anguish of trust belied;
After the burden of weary cares,

When the golden bowl is broken,
At the sunny fountain side;
When the turf lies green and cold above

What does it boot to question,
When answer is aye denied?
Better to listen the Psalmist's rede,

MORRIS & IRELAND'S

NEW IMPROVED PATENT EIGHT-FLANGE FIRE-PROOF SAFE.

THE only Eight-Flange Safe in the world, and containing more improvements than ANY SAFE made, such as:

1st. THE PATENT INSIDE BOLT WORK, which is placing the bolt work with the whole of the filling (six inches) between it and the outside, that is, as far from the fire and thief as it can be.

2nd. THE PATENT HINGED CAP—the lack plate of the door being on hinges, enabling the owner, by turning a thumb-screw, to have easy access to the lock and bolt-work. He can thus easily change the lock, clean, oil, and keep the bolt-work in good order.

3rd. IRON INSIDE LINING, stronger than wood, and which retains the moisture in the filling for an indefinite time. Wood is thicker and weaker, and after a few years absorbs the moisture and "requires filling over again."

4th. FOUR-WHEEL COMBINATION LOCKS, the simplest, strongest, most efficient and easiest to change of any in use.

5th. SOLID ANGLE IRON FRONTS, BACKS AND CORNERS, which prevents warping or injury to safe from falling, or falling walls or timbers.

6th. EIGHT FLANGES—the most important improvement ever made in fire-proof safes, providing eight laps, thus preventing the passage of heat, it having to pass over twelve inches, no injury arises from this source, as in other safes containing one, two or three flanges.

THESE SAFES have stood the test of years, and the greatest fires on this continent, and have the CHAMPION RECORD in the Boston, Chicago and Haverhill Fires.

We are selling these safes as low as any good safe, and are disposing of large numbers throughout the Dominion.

ELECTRIC GLOSS

FOR cleaning Solid Silver, Nickel, Brass, Copper and Fine Glass. Quick, sure, Permanent! No dirt, no trouble, no labor. Being entirely free from grit and acids, it cannot injure the most finely finished surface. It is the only preparation ever produced that will polish brass or copper without the use of acid. Nothing approaches it for removing grease and finger marks from Brass, Copper, Glass, etc.; while for cleaning Nickel or Stoves it is especially useful. Retail price, 25 cents per bottle.

MICA WASH.—This wash is the only thing of the kind ever invented. A stone may be as handsome as a jewel and shine like ebony; but smoked mica lights will spoil it all.
