

THE DAILY EXAMINER. SEPTEMBER 21, 1891.

Cardinal Manning.

CARDINAL MANNING has entered a plea on behalf of the youth of Great Britain. He asks that they shall be educated in the principles of total abstinence.

The Point of Difference.

THAT the country was defrauded by Larkins Connolly and Co., and by Mr. Thomas McGreevy, M. P., is admitted by all parties. The demand that the members of this notorious firm, with all other hoodlums, shall be punished, has been just as strong—aye stronger—on the part of members and supporters of the Government, as it has been on the part of members and supporters of the Opposition.

The Toronto Globe, too, commenting upon the evidence against Sir Hector as a whole, is constrained to admit that "excepting Murphy's, the direct evidence against Sir Hector was not strong."

The presence in Canada of an officer who fought at Waterloo is brought to mind by the letter of a London Times correspondent who wrote in a recent issue of that journal: "I can add one name to the list of officers still surviving who fought at Waterloo—that of Lieut. Maurice Shea. True, he was not an officer during the battle, but he won his commission by the valor he then displayed."

Methodist Missions.

A large congregation greeted the Rev. George Webber at the Second Methodist Church yesterday morning. His text was from 7th chap. Luke and latter part of 20th verse, "Art thou He that should come, or look we for another?"

The subject of the discourse was the testing question put to Jesus. Christ's answer to them, and to all men through his word, was the theme discussed. First—Jesus taught the Fatherhood of God. The preacher showed that God's Fatherhood was not only a new idea to the world, as presented by Christ, but that Christ's own life and spirit shed a peculiar light and meaning and fascination upon that central truth of his teaching.

Mission at St. Peter's Church.

FATHER HUNTINGTON arrived shortly after eight o'clock on Saturday evening, and at 8:30 delivered an introductory address. At the second celebration yesterday he preached a sermon upon the subject of The Cross. At 3 o'clock in the afternoon he addressed and catechised the children of the Sunday School.

Services this evening and to-morrow. Address for Women only..... 3:00 p. m. Address for children..... 4:00 p. m. Mission Service..... 7:00 p. m. Tuesday.—Holy Communion..... 7:00 a. m. Instruction..... 7:25 a. m. Holy Communion..... 7:45 a. m. Address to Women only..... 3:00 p. m. Address to Children..... 4:00 p. m. Mission Service..... 7:00 p. m.

Personal.

William Welsh, M. P., arrived home from Ottawa on Saturday evening. His Honor the Lieut. Governor and Mrs. Carvell left for St. John, N. B., this morning.

Mr. Geo. D. Pope, of Ottawa, was among the passengers in the Northumberland to Summerside, on Saturday. It is stated that Hon. Mr. Boyer has resigned his seat in the Mercier cabinet, not being at home among the hoodlums.

Premier Abbott was a few days ago offered the candidature of the seat for Kingston, with a promise that he would be returned unopposed. The First Minister was unable to accept the offer, although he expressed a high appreciation of the compliment paid him.

The Battle of Waterloo.

Byron's fine description of Waterloo and the ball that was given on the eve of it are brought to mind by a circumstance that is narrated in the London World. That journal says that Lord Kilmarnock has just received the bullet which fell from the skull of his great uncle James, Lord Hay, when the remains of the latter were disinterred at Quatre Bras in July, 1890.

No Change Necessary.

PRINCIPAL GRANT THINKS THE LIBERALS JUST AS BAD, IF NOT WORSE, THAN THE CONSERVATIVES.

(Cor. of Montreal Gazette.)

KINGSTON, Sept. 16.—Principal Grant being asked by your correspondent to express his opinion on the Grit contention that a change of Government was necessary for the purification of politics, said that he did not see what good a change of government would do. It was ridiculous to suppose, especially in view of the Mercier disclosures and the apparent intimacy between Mercier and Laurier, that one party was all virtue and that the other was all vice.

Your correspondent asked Mr. Shortt, professor of political economy in Queen's university here, what he thought of the liberal trade policy. "It's utter nonsense," said he; "it would increase the cost of living to every farmer and artisan in the country, while it would not secure either higher prices for the former or higher wages for the latter, the prices of farm produce being made in Britain or, at least, certainly not made in the United States, which has nearly \$700,000,000 worth of surplus agricultural produce to sell."

As Mr. Shortt is a free trader, his opinion militates against the supposed free trade party with great effect.

You can see the finest selection of gent's shirts to be had in the city at D. A. Bruce's.

We are now opening our fall and winter gent's furnishings. Everything fashionable.—D. A. Bruce.

NAVAL.—A man-of-war, supposed to be the Bellerophon, has been outside the harbor since Saturday.

DRIVING PARK.—There were some lively "brushes" at the Driving Park on Saturday. Elmo, Golden and other fast ones were out. The spectators were treated to some good sport.

LIVELY MOVING.—Mr. Brennan's well-known trotting Stallion Parkside trotted a quarter mile at Summerside a few days ago in 34 seconds—a 2.16 clip. Parkside is getting there rapidly.

IMPOUNDED.—A red and white cow, with the tips of her horns off, has been in the pound since Wednesday. The owner can have the same on paying the regulation fee. Apply at the police station or to the pound keeper.

MONEY STOLEN.—Some person entered the residence of Capt. John McLean, Great George Street, last evening while the members of the family were absent at church, and stole \$100 from a drawer in Mr. McLean's bedroom. The thief entered the premises through an open hatchway. The police are at work on the case.

GARRISON ARTILLERY.—No. 1 Battery will meet at the Drill Shed to-night at 8 o'clock in uniform, for inspection. No. 2 Battery will meet at the same place at the same hour to-night and to-morrow night, for drill. Both Batteries will be inspected on the 5th October next, by Lieut. Col. Montezambert, Commandant of the Royal School of Artillery, Quebec.

FIRE.—The dwelling house, warehouse, coach house, granary and stable of Mr. Theo. A. Stewart, of the firm of Farquharson & Stewart, at Westville, West River, were destroyed by fire on Friday afternoon. The fire started in the dwelling house. It is thought a spark ignited the roof. Very little of the contents of the buildings destroyed was saved. It was only by the greatest exertion that the warehouse and store at the wharf were saved. The loss will be in the neighborhood of \$4,000.

THE RIFLE.—The annual company's target practice of the Charlottetown Engineers took place at Kensington range on Saturday afternoon. There was a large attendance of the members of the corps, and notwithstanding the high wind which was blowing across the range, the scores made by the recruits were very good. Sergt. Davidson won the Hoop Challenge Cup with 6 points. Sapper W. Earle won the Taylor Cup. This latter Cup, which was presented to the Company by E. W. Taylor, is to be won twice to become the property of the holder. The prizes kindly presented by the friends of the Company will be presented at the Drill Shed on Wednesday evening next.

A PLEASANT OUTING.—The fun from Charlottetown to Summerside by train on Saturdays, and from Summerside to Point du Chene and return to Charlottetown by the palace steamer Northumberland same evening, is one of the pleasantest and most healthful outings one can take. The run over to the Point is usually made in a little over two hours, and there is a stay of upwards of an hour there while taking in freight and waiting for the train. The steamer reaches Charlottetown on return early the same evening. Captain Cameron, Purser MacDonald and Steward Collings, are all well and favorably known to the travelling public. The engine is excellent. Travellers say it would be hard to find a better table than that spread by Mr. Collings on any steamer. The trip from Charlottetown to Summerside by train, through a beautiful section of country, is also very enjoyable. The railway officials are all capable and obliging. On Saturday, Conductor Kelly, one of the best known and most popular officials on the road, was in charge.

BIRTH.

At Halifax, on Sept. 16th, the wife of Thomas Clay, Asst. Immigration Agent, of a daughter.

DIED.

In this city, on the 19th inst., Annie, youngest daughter of Arthur and Flora Clark, aged 13 months and 11 days.

Terms, etc., at his residence, Fitzroy Street, near the Kirk. 41—sept18

MANTLE DEPARTMENT.

FOR LADIES! What is Fashionable?

"Everything" would be a short answer, and not far from the correct one. We will, however, make our reply to this important question more explicit. Jackets are undoubtedly most popular, and a great variety of styles in different lengths are shown. As to material, Serges and Vignoles are the most fashionable, but Beaver and Nap Cloths are also largely used. For Trimming, Fur of all kinds is decidedly the correct thing, and forms at once the most handsome and serviceable trimming obtainable. Braid and Curly Cloth are also used as trimmings, whilst the heavy Nap Cloth Jackets are worn almost if not altogether plain.

Long Quilted Cloaks have taken a very prominent place and are very fashionable. Plain and Figured Cloths are both used, whilst Fur is the universal trimming. The Russian shape is the most popular. Many of these garments are extremely handsome and becoming, and no lady can well afford to be without one.

Nothing has taken the place of Dolmans, which still retains their popularity, especially in the better qualities. The addition of sleeves is a novelty, and is considered by many a decided advance.

Usters are still worn, but not so largely as formerly—the Quilted Cloaks having, in a great measure, taken their place.

The new Capes are quite long, and some of them are undeniably elegant and becoming. Shot Silks in beautiful combinations are largely used for linings, and add very materially to a garment by their rich appearance.

In conclusion, we believe long Quilted Cloaks and Jackets will prove the most fashionable and popular garments, and we have spared no trouble to procure the latest novelties for our customers.

For Children, Usters are the favorite, whilst Reefer Jackets are both fashionable and popular.

Every week brings additional novelties to our Mantle Department from London and Berlin. The great success attending this Department the past season leads us to hope that every lady of taste may find something to suit her in our present stock, which is the largest and finest we have ever imported.

BEER BROS.
