THE WEEKLY EXAMINER

is issued every Friday morning. It is made up of matter which has appeared in the Daily, and is a first-class newspaper, containing all the latest news. Subscription $1.00 a year.

NOTES AND COMMENTS.

—"Our wine is as yet only in the experimental stage, but we hope to make something of it" Hon S Fisher in London Post.

—As to prohibition. the St. John Sun has taken the same position as THE EXAMINER. The Sun says: "In the present issue positive fore knowledge cannot be had. No man can say with absolute certainty what would be the result of the adoption of a prohibitory law. But there has been equal or greater uncertainty in the case of most measures of reform and progress. The only way to find out whether prohibition will be a success in Canada is to try it."

—The crop estimates for Ontario this year are very satisfactory. Fall wheat will amount to 25,000,000 bushels, a gain of 1,000,000 bushels over last year. The wheat crop will amount to 6,500,000 bushels, a gain of 1,500,000 bushels. Barley will be about as last year, and oats 82,000,000 bushels, a falling off of 4,000.000 bushels. The crop is 60,000 tons larger than last year, and the peas crop 1,000,000 bushels more. Late estimates place the Manitoba wheat crop at 25,000,000 bushels, and that of the Territories at 7,000,000 bushels, which is now being reaped.

Congress is to be asked for a vote of fifty million dollars to increase the navy.

The United States 3 per cent. bonds are being quoted at 104 5-8 to 105 1-8 in New York, and it is said that in the market over $7,000,000 of them were sold last week. They were issued as a popular loan at par, to go direct to the people. The people who get them seem to be putting them to profitable use, selling them to badks and such.

The immigration department at Ottawa is having several sets of western exhibits prepared to be shown at the United States fall fairs. They are to include, in addition to grains in the sheaf and threshed, grasses and samples of Canadian soil. The latter will be shown in 5-foot glass tubes, the soil being shown in the position which it occupied before being taken up. The first lot which go to Ohio, and thence on a circ- cut from Indiana to Texas. The second lot will go to St. Paul, thence to Kansas and adjacent states

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

A VISIT TO THE MAGDALENS

Their Population, Industries and Requirements

A LAND OF CLEAR SKIES AND BEAUTIFUL TEMPERATURE.

A Primitive yet Noble Souled People —Description of the Isles.

The first days of our sojourn in the Magdalenes were spent in exploring All Right Island over which our guest holds spiritual sway. We found it to contain a thrifty population of 200 families, or about 1150 souls. The people are nearly all crofters; that is to say, they cultivate small farms, while the more important fishing industry is not neglected. They are all within the English condition then of "three acres and a cow." And let us say, emphatically, that the cow is a prime animal, showing her Jersey extraction, and performing at the pail in a manner calculated to make the average visitor marvel exceedingly. These cows look very much like the Canadian Jersey, which on the whole, Professor Robertson, our Federal agriculturist, thinks the best cow in Canada. On this island the stock is doubtlessly the best, the cattle purer, the sheep larger and the pigs, although claiming none of the Tamworth, would cettainly please Mr. Lees in lankiness and leanness. It has been said that you would have to go to the Magdalens to see a pig on tether. We saw none, but we were not overly much impressed with Magdalen pork, for we object to bacon,—which theologically might be claimed as a lenten ration—like shell duck, so strong is the smell of blubber and fish offal on which it was raised. The porkers of the Islands want a different handling from the present system. Agriculture, too, needs practical encouragement. We are sure that it could be made to flourish there more than almost anywhere else. They have a splendid strong soil of sandy loam. The grass that grows there is thicker in the bottom and much more luxuriant than with us, and without seeding down they grow crop after crop of this natural grass which makes an excellent fodder, Timothy and clover grow well, too. We saw some especially heavy fields at Basson, particularly on the parochial farm. Any kind of a rotation system, with attention and a knowledg of the principles of cultivation, would change the whole face of the islands, we are fully persuaded. The Feceral Goverument should give these people their share of the impetus which in the last decade has gone around the country from the Central Farms, Ottawa. Any man devoting himself exclusively to agriculture in the Magdalenes would do well. A class of practical agriculturists would do better in a monetary sense than the fishermen, and have none of their hardships. Butter, grain and potatoes, eggs, beef, mutton, pork and poultry, all sell high. Even hay, grown by everybody, brings a fair price. We commend the agricultural question to the attention of the Federal deputy, Mr. Lemieux.

On this All Right Island what plensed us particularly was the tidy condition of the holdings. Every single dwelling was nicely kept and whitewashed thoroughly, and, as might be expected out of such nice tidy places, the people were good looking and neatly dressed. I doubt if any country parish of this Province could turn out a more up-to date in dress congregation without in any sense overdoing the thing than Havre-Aux-Maisons. There is none of the head shawl or coiffe to be seen, so long worn by our old Acadians here. The hat has possession of the whole territory; and no doubt is a fertile source of mental trouble there as well as here. Not a single pair of moccasins did we notice either; not even those which aspirants to legislative honors so often have to wear. The conveyances on the islands are somewhat rude still. There are no buggies, thank heaven, but there are few four wheelers either, and in a great number of cases the two wheeled charrette, a light form of our cart, does ample service. You might be inclined to laugh at them at first sight, but attempt to pass even two peasant girls in sun bonnets just coming from the nearest store with groceries and you have at once the biggest contract on hand you undertook for sometime. The Magdalen pony and the maidens are up at once, and while your McLaughlin springs are flinging you in the air at every rut and culvert, and you are afraid of your life that the ditch will bring you up, along they go as smoothly as the great wheel of a motor, almost flying over the surface of the road, while the broad grin they wear at your expense can be seen through the back of their sun bonnets even, and the ring of their merry laughter awakens the always sympathetic hills into merriment. Our advice to you then is "dont try to take the road from a charretted sunbonneted, Magadalen ponied damsel, or you will speedily regret it." We know a young fellow who did.

There are few heavy carts like ours in the Islands and few implements of agriculture. Later on, though, there will be an invasion of those veritable parasites, known as implement agents, and if the Magdalener gets a deed of his land he'll borrow a peck of trouble for himself. There is not much grain grown so far, but what we saw was

(Continued on fourth page.)

THE SAVED LIST.

Maritime Province People Cured of Kidney Disease by Dodd's Kidney Pills.

This List Includes a Few Names Only— One Druggist Knows Them All— There are Tens of Thousands More.

HALIFAX, N S, Aug 12.—"There are no ten doctors in this city who cure as many cases of disease in the course of a year as Dodd's Pills alone do," said a prominent druggist, to a m dical man recently.

This statement may seem rather strong, but it is fully borne out by the facts.

It is admitted by every one that Dodd's Kidney Pills have never failed in any case of Kidney Disease, for which they have been used.

It would be a difficult matter to reckon the number of lives that have been saveed by this great medicine.

One Halifax druggist gave the names of those persons in the Maritime Provinces who have been cured of Kidney Disease by Dodd's Kidney Pills: G J Worden, Wickham, N B, Kidney Disease; John J Burns, Darnley, P E I, Kidney Disease; M B Connick, North Carlton, P E I, Bright's Disease; Thos Harrison, St Mary's N B, Stone in the Bladder; John S Morgan, Bridgewater, N S, Kidney Disease; Samuel Locke, Jordan Bay, N S, Kidney Disease; William Gorman, Meteghan, N S, Kidney Disease, Frank Mills, Zealand, N B, Kidney Disease; W H Bowser, St. John, N B, Kidney Disease; James Fraser, Picton, N S, Kidney Disease; William Sharam, Murray Harbor S, P E I, Kidney Disease; Mrs D Allbright, Little River, N. B., Diabetes; Hrs Hattie M Morris, Burts Corners, N. B., Kidney Disease, Miss Edna Rathburn, Hampstead, N. B., Diabetes; Altred Miller, Shubenacadie, N. B., Kidney Disease.

There are tens of thousands more.

Dodd's Kidney Pills are sold by all druggists at 50 cents a box, six boxes, $2.50, or sent on receipt of price, by The Dodd's Medicine Co., Limited, Toronto, Ont.

Pain in the Back

Being troubled off and on with pains in my back, caused by constipation, I tried several kinds of pills I had seen advertised, and to put the truth in a nut shell, Dr Chase's Kidney Liver Pills are the only pill that have proved effectual in my case I can heartily recommend them.

JNO DEVLIN, Unionville, Ont

McGill University, Montreal

SESSION 1898–9
