VARIETIES.

Sowing Wheat Thick.—The Michigan Farmer informs us that Gen. Williams of Lima, in that state, has been in the practice of sowing two bushels of wheat to the acre the effect of which is small straw, always bright, rarely or never liable to rust, and increased product—and that others had observed a similar result.

Book-borrowers, who forget to return the volumes which the kindness of friends enables them to read, should puruse the following lines, which, it is said, were written more than sixty years ago. They are as apposite, however, now as they were at that remote period:

"If I this book do lend to you,
Or you of me do borrow.
So soon as you have read it through,
Pray bring it home the morrow.
"Then after which, if you do want
To borrow yet another,
Just come to me, and you shall see
That I can lend the other."

"Did you ever attend a '*Golden Marriage?*' Do you know what a 'Golden Marriage' is?

"I will tell you.

"When a man and his wife have lived together for fifty years, it is the custom in some countries, as in Sweden, and, I believe, in Germany, to hold a second wedding, at which all the old friends of both parties—their children and their children's children to the remotest degree—are invited to be present on the occasion.

"I was present at a 'Golden-Marriage celebration in this city only a few weeks since; and I want to try to describe it to you.

"A gentleman who had been married for fifty years, all and every part of which had been passed in uninterrupted domestic happiness, sent out, in the name of himself and his aged companion, invitations to attend their 'Golden Marriage.' (You will find this pleasant and beautiful custom admirably described in a domestic novel called 'The Neighbors.') The evening arrived, and I was privileged, as an old friend, to be present.

"Fathers, mothers, children, grandchildren, great grand-children, sons-in-law, daughters-in-law, and *their* children, were present. The aged couple, in excellent health, and with faces as happy as good hearts, and good deeds, and a consciousness of years well spent, could make them, imparting happiness to all around them, in the rooms, odorous with numerous flowers. Oh, it was a most beautifnl sight; and I hope is a custom that may hereafter be followed by those married couples who are so fortunate as to live in perpetual peace and happiness together for half a century. How truly might that still 'happy couple' represent the lovely characters of 'John Anderson and his Jean:'

"'John Anderson, my Jo, John,
We've seen our bairns' bairns,
But yet, my dear John Anderson,
I'm happy in your arms;
And so are you in mine, John,
I'm sure you'll ne'er say no,
Though the days be gone that we have seen,
John Anderson, my Jo!'
"'John Anderson, my Jo, John,
Life's hill we've climb'd thegither,
And mony a canty day, John,
We've had wi' ane anither:
Now we maun totter doun, John,
But hand in hand we'll go,
And we'll sleep thegither at the foot,
John Anderson, my Jo!'

"I have somewhere seen a sentence in the 'Language of Flowers' like this: 'If you wish for *Heart's-Ease*' never look to *Mary-Gold*.' I rather think one 'party' that I know, some ten years ago, have had occasion to wish they had not followed this advice. I am inclined to believe, too, that they will never celebrate a '*Golden* Marriage' again—although their first was one, literally.

The case was simply this: A good-looking, but ambitious, somewhat proud, and not over-industrious young man, paid his addresses to a 'young-old girl,' whose father was a very rich and very pompous man, the magnate of the village, so far as the possession of a large property went. The girl herself was haughty, proud, and exacting; but she had 'soild' charms, and they won for her a husband.

This is Decidedly Cool.—A surgeon of St Petersburgh, after a series of experiments upon frozen corpses, has introduced a new method of amputation, by which the operation is relieved of the danger and pain usually attending it. His method is simplv to conjeal the blood by artificial means.

Rochidale. — An "Anti-marying-any-young-lady-who-goes-a-shopping-after eight e'clock Society" has been established in Rochdale, and the success of the society is said to have "exceeded the most sanguine expectations of the projectors."

Two persons who have chosen each other out of all the species, with the design to be each other's mutual confort and entertainment, have in that very action bound themselves to be good humoured, affable, joyful, forgiving, and patient, with respect to each other's frailties and imperfections, to the end of their lives.

The woman who was "buried in grief" is now alive and doing well. It was a case of premature interment.

Halifax, 12th July, 1853.

Archibald Scott, Esq.

SIR,—As the Agent of various *Fire Insurance Companies*, I beg to bring under your notice my *PATENT ARTIFICIAL SLATE*. This composition has been upwards of, three years extensively used in New Brunswick, Newfoundland and Prince Edward Island, the Canadas and Nova Scotia, principally for covering shingled roofs, as you will perceive by the accompanying circulars of certificates. It has been severely tested, and proved most successfully its fire proof qualities under most extraordinary circumstances; so much so, that I am of opinion that Fire Insurance Companies should encourage its general application to all kinds of wood building (where the color would be no objection to its being used, such as he back walls of dwellings in the city, out houses, ware-houses, &c., as well as the roofs) by lowering the premium of insurance on such buildings as are covered.

I have the honor to be, sir,,
Your obedient servant,
J. W. ROSS.
Patentee and Manufacturer

Halifax 14th July, 1853.

Sir,—In answer to your note of the 12th inst. I consider the use of your "Artificial Slate Paint" on shingled Roofs, as greatly diminishing the risk against Fire—I have frequently reduced the premiums on Buildings in the Country, upon its application,

I am, sir, your ob't servant.,
ARCH'D. SCOTT.
Insurance Agent.

The Wonder of the World!
Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA. COSTIVENESS AND CONSUMPTION have lost their terror, and vanish as as if by magic before this Sovereign remedy. Was it ever before known that, *Hopeless cases of Consumption were crred for less than $5?*

Truly, if any individual is to be pitied, and needs sympathy, it is the consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink with the outer flesh."

"Some bloom as roses bloom,
And live as roses live,
A single morning space!"

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,

"The prints of their parting steps appear."

All we ask is this one question:—If you have got mucous membranes, or any other members of the body that are "heirs to ills."—are you not interested n this *great remedy*, Devines' Compound Pitch Lozenge

GLEASON'S PICTORIAL.

ON the first of January next, *Gleason's Pictorial* will commence its *sixth volume*, and will appear vastly improved in all respects, with a superb new heading, new type and dress throughout, and will be printed upon the finest paper. As the proprietor of the *Pictorial* has purchased the entire good will of Barnum's New York *Illustrated News*. and has merged that journal in the *Pictorial*, the public will reap rhe advantage of this concentration of the strength of the two papers upon one, both in the artistic and the literary departments. The same brilliant host of contributors and artists will be engaged on *Gleason's Pictorial* as heretofore, and a large addition is also made to the corps, both in talent and number. The most liberal arrangements have been completed, and such as will enable the Proprietor to produce by far the finest illustrated journal yet published, and much superior to the present issue of the paper. The columns of the *Pictorial* will constantly be beautified by all that can please and instruct in art and nature, and its literary department will fully sustain the high reputation it has so long enjoyed.

The pages of *Gleason's Pictorial* will contain views of every populous city in the known world, of all buildings of note in the eastern or western hemisphere, of all the principal ships and steamers of the navy and merchant service; with fine and accurate portraits of every noted character in the world, both male and female. Sketches of beautiful scenery, taken from life, will also be given, with numerous specimens from the animal kingdom, the birds of the air, and the fish of the sea, and will present in its mechanical execution an elegant specimen of art. It will contain fifteen hundred and sixty-four square inches, giving a great amount of reading matter and illustrations—and forming a mammoth weekly paper of sixteen octavo pages.

Terms:—Three dollars per annum.

DR. CHALMERS' WORKS.

["*To commend these works is superfluous; they have met with universal approbation from the British press and public. That the periodical press, representing so great a variety of religious and political opinion, should have so generally noticed them, and that too with high commendation, is a circumstance exceedingly rare, if not altogether unparalelled. They have charms for the merely literary man, and they will obtain a hearing for evangelical truth in quarters from which it would otherwise be excluded.*"]—*Kitto's Journal.*

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad Washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, Colored PRINTS, MUSLIN and LACE. AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
