

Matthews Report Under Discussion

The fifth meeting of the group studying the Matthews Report on Charlottetown schools met in the board room of the Polyclinic.

The discussion was headed by Mr. Alan MacMillan, who spoke on the financing of the city schools. His analysis showed that the City is indeed doing a good job in the field of education, considering the monies at their disposal.

Councillor Johnstone discussed the heavy burden placed on the City, the demands of the various departments and the large amounts necessary to care for past indebtedness.

Councillor Johnstone felt also that the burden on the taxpayer has already about reached its limit and any further revenues must come from other sources.

The meeting then took the form of a discussion dealing with city and school finances.

Early Start On Federal Bldg. Site Is Anticipated

Mr. R. E. Neil, appraiser for Crown Assets, completed his examination of the standing buildings on the site of the new Federal Building for the Federal Department of Public Works, and returned to Ottawa this morning.

Mr. John R. MacKinnon, district architect representative, said last evening the situation looked promising for an early start at demolishing the buildings, following the calling of tenders for the work, which he expected would be made almost immediately through the press. The boring for rock level and other essential information has been completed.
