

THE DAILY EXAMINER.

FEBRUARY 10, 1890.

Declaration Day.

This was "Declaration Day" in King's and Queen's Counties. The Sheriff of Prince County will hold his court to-morrow. In King's County the results were as follows:

Table with election results for King's County, Second, Third, and Fourth Districts. Columns include candidate names and vote counts.

For Queen's County the returns from the several districts were:

Table with election results for Queen's County, First, Second, and Third Districts. Columns include candidate names and vote counts.

Notes and Comments.

The Patriot said:—The Government did not give us the advertisements because they loved us, but as a mere matter of business—because they thought it would pay.

Just so. Giving Government advertisements to the Patriot is a "mere matter of business,"—but having the same advertisements published in THE EXAMINER is "corrupting the press," "forking over the bootie," the secret of THE EXAMINER'S slavish support "of the Ottawa powers that be." What childish and ridiculous nonsense.

The New York Tribune says:—It may not be known to many people that Queen Victoria is an ardent student of African geography, and could pass a very creditable examination in that subject with Mr. Stanley as the interrogator. Her Majesty has carefully watched the Portuguese encroachments, and when the news of the outrage on the British flag reached London it was the Queen herself who insisted on Lord Salisbury compelling Portugal to consent to a definite understanding without delay.

The Temperance League.

The following resolutions were passed at a meeting held at Summerside on Thursday last:

That Whereas, It has become painfully evident from the events that have transpired within the past few weeks in our town that the traffic in intoxicating drinks is causing death, and thereby bringing sorrow to our homes,

Therefore Resolved, That this meeting do adopt the following platform as a basis for the better carrying into effect the temperance law at present on our statute books, and do now proceed to form an organization for that purpose to be called "The Prince County Temperance League."

Platform: (1st) That we desire to record our convictions that the continued sale of intoxicating liquors in violation of the "Canada Temperance Act" in Summerside, and the consequent widespread disaster in town and country which is becoming more apparent every day, has brought forcibly home to the people of this County the controlling influence which the liquor traffic has obtained amongst us, and the urgent need of organizing for the protection of our homes and the defence of our civil and religious liberties.

(2nd) We most emphatically condemn all sales of intoxicating liquors in violation of the true spirit or intention of the law, and especially those made by parties who do so under the cloak of a drug store or vendor's license.

(3rd) We pledge ourselves to use our continual and enthusiastic exertions to procure the conviction of all violators of the "Scott Act" and the enforcement of all the penalties to the utmost rigor of the law, after that due warning of our intentions shall have been given for the benefit of the erring and demoralized votaries of the traffic.

(4th) We furthermore pledge ourselves to discontinuance the traffic in intoxicating liquors by refusing to let or sell any house or premises for the purpose of such trade or traffic contrary to law, and that we will endeavor to persuade all other persons with whom we communicate to refuse any such assistance to parties desiring to engage in the business.

(5th) We deem it essential to the peace and highest welfare of our country and to the maintenance of good government that the influence of all good citizens should be united in seconding the efforts of the officers of the law in bringing offenders to justice, "for the punishment of evil-doers and the praise of them that do well."

A Terrible Accident.

A DRILL, FALLING 150 FEET THROUGH A MINE SHAFT, CRUSHES THROUGH A MAN'S SKULL.

A Kingston, Ont., despatch of the 5th says:—A peculiarly sad accident occurred at the Foxton mines, Sydenham, yesterday afternoon, about four o'clock, whereby Dennis Mooney, who was in charge of one of the steam drills, and was working fully 150 feet below the surface, had occasion to take to the blacksmith shop, which is situated near the mouth of the mine, several drills which required to be sharpened. The means of transport for these drills was a rude bucket which was drawn to the surface by means of a small steam hoist. Yesterday, according to custom, Mooney placed the drills in this bucket and gave the order to hoist. This was done, and if proper care had been exercised all would have been well, but through carelessness on the part of one of the attendants, the bucket, when almost at the surface, gave a sudden lurch. The result was that one of the drills, about five feet in length, slipped from its fastenings, and like a rocket went whizzing endwise down the opening and struck poor Mooney in the head, cutting through his hat, then through his skull and wedging itself solidly in his head, one end protruding through his mouth. The unfortunate man was immediately conveyed to a neighboring house and medical aid summoned, but all in vain, for never recovering consciousness Mooney shortly afterwards passed away. He was 36 years old, unmarried, and universally respected.

REPORTED WIFE MURDER.—It is reported that Isidore named Daniel Toney, while intoxicated, killed his wife on Monday at Hectanooga, Yarmouth County, N. S.

CONDOLENCE.—A Washington despatch says that the following message of condolence was received by Secretary Tracey on the evening of the 4th:

"OSBORNE, Feb. 4. To the British Minister at Washington: "The Queen deeply deplores the calamity to Mr. Tracey's family and inquires after him self and survivors. (Signed) POINSONBY"

To this Secretary Tracey sent the following reply: "Mr. Tracey begs the British Minister to convey to Her Majesty his sincere thanks for the gracious message of sympathy. In reply to her kind inquiry he begs to say that the surviving daughter and grand-daughter are out of danger."

MAIL TROUBLES.—The packet from Pictou on Saturday, instead of bringing the Halifax mail, brought back the bag she carried from hence on Wednesday. The mistake was not discovered until the bag reached the post office. It may be easily imagined that the disappointment was keenly felt; and in order to remedy the evil as far as possible the packet was immediately despatched back to Pictou for the right bag. Yesterday (Monday) she again returned without it, as the Pictou postmaster had served the good folks of Halifax precisely as he had done ourselves, by returning their own bag. Now, if this had been the only occurrence of the kind it might have passed without remark, but as precisely the same thing happened last summer, and as one of the Halifax newspapers recently intimated that for two weeks successively the P. E. Island papers had not arrived, although the postmaster at Charlottetown is ready to make affidavit that they were regularly forwarded to Pictou, we think it our duty to call upon the Deputy P. M. G. to look into the matter, and to adopt such efficacious measures as will prevent the future occurrence of such blunders, the mischievous consequences of which it is impossible to calculate.—P. E. I. Register, Aug. 11, 1888.
