

TELEGRAPHIC NEWS.

UNITED STATES.

CHICAGO, Dec. 2.

In the Irish convention this morning the committee on credentials reported 733 delegates. A telegram was read from Patrick Egan, in Paris, saying tenants on 5,000 properties, representing a rental of \$10,000,000 per year, have already refused to pay rent in Ireland, in compliance with the League's manifesto. Rev. Dr. Bette, an Episcopal clergyman of St. Louis, was made permanent chairman. The committee on resolutions were appointed and adjourned till to-morrow.

PHILADELPHIA, Dec. 2.

Developments have been made showing that from 1872 to 1879 the city has been defrauded of many thousands of dollars annually through irregularities in the tax collector and receivers' departments. The amount is not yet learned.

POUGHKEEPSIE, Dec. 2.

The Poughkeepsie Glass Works were burned last night, together with a large quantity of glass. The loss is \$250,000.

GREAT BRITAIN AND IRELAND.

LONDON, Dec. 1.

The British steamer Hansa, from London Nov. 15 for Boston, put back to Queenstown her decks having been swept.

LONDON, Dec. 2.

The greatest demonstration ever held in Scotland in connection with the land agitation took place yesterday at Aberdeen. Two thousand delegates, representing 40,000 farmers, were present and several Scotch members of Parliament attended. Resolutions were passed demanding a general reduction of rents, compensation for improvements, abatement of laws of hypotheca and entails and other legislation in the interest of the tenant farmers. It was urged that legislative changes required must apply to existing leases. A farmers' alliance for Scotland was formed.

LONDON, Dec. 2.

A despatch from Boyle, county Roscommon, says two hundred cattle on a grazing farm at Carrowgill have been mutilated.

LONDON, Dec. 2.

Mr. Sexton has postponed his departure, on the advice of his physicians.

DUBLIN, Dec. 2.

The coroner's jury found a verdict of murder against Inspector Strick, who was in charge of the police during the affray at Belmullet, Ireland, when Mrs. McDonough was killed.

LONDON, Dec. 2.

A temporary lighthouse is being erected near Calf rock, as a substitute for the one destroyed.

LONDON, Dec. 2.

As a representative oarsman, Hanlan writes to Boyd that he will row a race on the Tyne with him for £200 a side. Articles of agreement are expected to be drawn up for a match to take place in April next.

Boyd forwarded to Hanlan last evening articles fixing the 17th of April as the date for their match.

SOUTH AMERICA.

PANAMA, Nov. 22.

Calderon, Provisional President of Peru, and with him the Minister of Foreign Affairs, Galvesso, are prisoners in Chilean hands. He was arrested on the 6th inst., returning from mass, and allowed a few minutes to prepare for a visit to Chili. He was then taken to the Palace, where he had a private interview with Admiral Lynch, and was sent to Callao and placed on the iron-clad Admiral Cochran. He was courteously treated and allowed to take several friends with him. The reason for this arbitrary course has not been made public. Some say that the new government of M. Santa Maria believes Pierola to be the strongest man in the country and has banished Calderon to make way for him. The removal of Calderon makes room, however, for Montero, who has announced his acceptance of the Vice-Presidency of the Provisional Government, provided he is assured of the support of the United States, in which case he will assume the Presidency in Calderon's absence.

The Chileans are calling out an expedition of 15,000 men to repel an anticipated attack by the Bolivians upon the southern provinces of Peru.

Fattening Sheep in Winter.

An experienced keeper of sheep says that his plan for fattening is to begin when they are put into the yards, which is usually in November or December in our northern climate, by feeding straws, and a pound of oil cake, meal or grain, to each sheep for the first two months. Then he begins to feed hay, and if it is of very good quality he reduces the oil cake, meal or grain one-half. This must necessarily depend, however, upon the condition of the sheep. Fat is the object, and no arbitrary rule can be laid down in this connection. If the sheep is not as fat as it should be at the expiration of two months, such a system of feeding as will put it in proper condition must be followed. The character of the food used is the principal object of referring to this feeder's system. In this connection buckwheat may be referred to as an excellent feed for fattening sheep.

We have before referred to regularity in feeding, but while upon this subject we cannot emphasize it too much. It is absolutely necessary, if proper results are expected, and there must be the greatest care to feed only enough, that is, just enough to last the sheep from one feeding to another. If sheep are permitted to waste hay, they soon acquire the habit of selecting the best and waiting for the next feeding time. Sometimes sheep that have acquired this habit will go hungry for a long time, rather than eat the poorer hay. Hay fed to fattening sheep should be of good quality, and then only what they can and will eat. Sheep will do better on inferior food, if fed regularly, than on good food if fed irregularly. Our own experience is in favor of feeding three times a day, morning, noon and night. In this many of the best breeders agree. Some, however, feed but twice a day, and think it best. When this is done, the last feeding should be a considerable time before dark, for sheep do not feed well after dark.

Then there is the matter of salt which must not be neglected. As is well known

salt is not so necessary in the winter as in the summer; still it is necessary, and should be fed at least once a week. Some breeders keep it before the sheep all the time, and this is the better way. Randall mentions the practice of General Marshall of this State (New York), which is to take the orts from the hay-racks and place them in a box-rack under cover. Then they are sprinkled with brine, and the sheep when hungry for salt are not only supplied with it, but by salting the orts consume all the day.

1882. THE EXAMINER. 1882.

Now is the time to Renew Subscriptions and Subscribe.

ONE of the most prominent questions to be agitated is that of improved communication with the Mainland during winter and summer. THE EXAMINER will, in 1882 as in 1881, be actively employed in the discussion of this question. At the suggestion of the Hon. S. Prowse—who seems to have a high opinion of the influence of THE EXAMINER—and who has taken a leading part in the measures which have been adopted by the Local Legislature and Government—we shall keep before the public eye the following extract from the

TERMS OF UNION.

SECTION 7.—That the Dominion Government shall assume and defray all the charges for the following services, viz:—
SECTION 7.—Efficient steam service for the conveyance of mails and passengers to be established and maintained between the Island and the mainland of the Dominion, winter and summer, thus placing the Island in continuous communication with the Inter-colonial Railway, and the Railway system of the Dominion.

As heretofore, THE EXAMINER will, in 1882, advocate the introduction of improvements calculated to advance the interests of Prince Edward Island, in particular, and the great Dominion of which we form a part, in general.

THE EXAMINER is in favor of cutting down the Local Legislature, consolidating the Local Civil Service on a sound business basis, maintaining a system of rigid economy in the administration of local affairs, and applying the money thus saved to the advancement of the Agricultural and Industrial interests of the Province.

THE EXAMINER's policy shall be, as it has been, first National and then Political; first for the Island, next for Canada, and then for the Party by which both are governed.

Articles on Practical Agriculture will form a prominent feature of THE EXAMINER during 1882; and our columns will, as heretofore, be well filled with news and interesting miscellany.

Now, therefore, is the time to subscribe.

Canadian Pacific Railway.

Emory's Bar to Port Moody.

NOTICE TO CONTRACTORS.

Tender for Work in British Columbia

SEALED TENDERS will be received by the undersigned up to noon on WEDNESDAY, the 1st day of February next, in a lump sum, for the construction of that portion of the road between Port Moody and the West-end of Contract 60, near Emory's Bar, a distance of about 85 miles.

Specifications, conditions of contract and forms of tender may be obtained on application at the Canadian Pacific Railway Office in New Westminster, and at the Chief Engineer's Office at Ottawa, after the 1st January next, at which time plans and profiles will be open for inspection at the latter office.

This timely notice is given with a view to giving Contractors an opportunity of visiting and examining the ground during the fine season and before the winter sets in.

Mr. Marcus Smith, who is in charge at the office at New Westminster, is instructed to give contractors all the information in his power.

No tender will be entertained unless on one of the printed forms, addressed to F. Braun, Esq., Secretary Department of Railways and Canals, and marked "Tender for C. P. R."

F. BRAUN, Secretary. Dept. of Railways and Canals, Ottawa, Oct. 24, 1881.

L. B. ARCHIBALD, Superintendent, Railway Office, Charlottetown, Nov. 29, 1881.

LORNE HIGHLAND WHISKY. ANALYTICAL SANITARY INSTITUTION, 54 Holborn Viaduct, E.C., London, Aug. 18, 1879. REPORT on the LORNE HIGHLAND WHISKY: "We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fragrant, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality." "ARTHUR HILL, HASSALL, M. D.
