TEARE'S Directory & Hand Book

OF PRINCE EDWARD ISLAND,
FOR 1880 AND 1881.
Neatly Bound—Price Two Dollars.

WILL be published in a few months, provided a reasonable number of subscribers be obtained. It will contain a complete Directory of Charlottetown and Summerside, with Business notices of the principal establishments. Business Directories of Georgetown, Souris, Mount Stewart, Alberton, Montague Bridge, and more than 100 other Towns, Villages and Settlements. Historical Sketch of the Early Settlement, Rise, and Progress of the Province. Its Salubrious climate, fertility and productiveness of the soil, and special adaptability for the growth of root and other crops, including beet. Its numerous industries. Accurate records of Banks, Barristers, Judges, Justices of the Peace, Courts of Justice and Law Officers, Churches and Ministers, Schools and Teachers, Corporations and Foreign Consuls, Customs, Excise and Inland Revenue, Postal and Fire Departments, Dominion and Provincial Governments, Board of Health, Masonic, Odd Fellows and Temperance Orders, together with other useful information.
The Book is designed not only for circulation on the Island, but in England and elsewhere, and will thus extensively publish the wealth, resources and natural advantages of the Province. A limited number of advertisements inserted at moderate rates.
Compiled by ROBERT TEARE, (formerly on staff of Business Directory, London, G. B.) P. O. Box 84, Ch'town, P. E. I.
July 2, 1879.

NOTICE.

I BEG to inform the TRADE of Charlottetown, and Prince Edward Island generally, that Messrs. ROBERTSON, LINTON & Co., Montreal, have appointed me their Agent for the Island for the sale of Canadian Cottons, Tweeds and Woollens, and Imported Dry Goods. Samples of these manufactures will be on hand in good time for Fall orders, and will be in charge of Mr. Ben. Davies, jr., who will, after 16th June, be associated with me in business. Any orders entrusted to Mr. Davies will receive the most careful attention.
I hope to be on the Island early in July with full lines of samples from the various houses whom I represent.

Agent for Prince Edward Island
June, 1877—

NEWS BY TELEGRAPH.

UNITED STATES.

WOODVILLE, N. H., July 15.

A terrific thunder storm, with high winds and hail, swept over the village this evening; hail-stones fell the size of hen's eggs. Several houses were unroofed and sheds blown down, and there is scarcely a house in the town but had its windows broken in. Crops of all kinds were cut down and spoiled; damages very heavy.

URICA, N. Y., July 15.

A meteor of great brilliancy passed through the northern sky from west to east at 12.10 this morning.

MEYERS, July 15.

The city is quiet. No new cases of fever are reported.

New Orleans has rescinded its quarantine regulations against this city.

NEW YORK, July 15.

This afternoon the jury in the trial of Chastine Cox, for the murder of Mrs. Hull, was completed and sworn in. The Court was adjourned until to-morrow, when the District Attorney opens for the prosecution.

POTTSVILLE, Penn., July 15.

Fire was discovered at six o'clock this evening issuing from the slope at Provost's Colliery, Centralia. In a short time a breaker, which cost \$150,000, was entirely destroyed. The entire loss will probably be a quarter of a million. Three hundred and fifty men are thrown out of work.

GREAT BRITAIN.

LONDON, July 15.

In the Commons, to-day, Sir Stafford Northcote said the bill relating to elections and corrupt practices ought to be considered before the dissolution of Parliament, but he doubted whether it could be considered during the present session.

The Western District Bank at Barrow-in-Furness has stopped payment. Liabilities, £40,000. The creditors will be paid in full.

Robert Udall & Son, merchants, of Manchester, have failed; liabilities £45,000.

Mr. Tennant (Liberal) has been elected to the Commons from Glasgow, without opposition, in place of Alexander Whitlay (Conservative), recently deceased.

THE PANAMA CANAL SCHEME.

WASHINGTON, July 15.

A confidential friend of Gen. Grant says that he will not accept the Presidency of the Lessep's Panama Canal Company.

FRANCE.

PARIS, July 15.

The budget committee of the Deputies and the Senatorial committee pronounced in favor of France taking an active part in the opening up of Central Africa. A commission to examine the project for uniting Algeria and Bengal to Soudan railway was appointed.

GERMANY.

BERLIN, July 15.

The bill in the Bundesrat, which proposes to substitute biennial meetings of Parliament and biennial budgets, has created considerable sensation, as tending to further free the Government from Parliamentary control. The reason alleged for the change is the inconvenience of discussing two budgets, Prussian and Imperial, in the same year. The creation of a department for the control of Imperial railways is also regarded as a step towards rendering the Government less dependent on Parliament.

EASTERN AFFAIRS.

LONDON, July 15.

The Circassians are terrorizing the district of Adabazar on the east coast of the Sea of Marmora, by murdering and black-mailing the inhabitants.

THE NEW CANADIAN LOAN.

LONDON, July 15.

The new Canadian 4 per cent. loan has been fully subscribed. The tenders at the official minimum of 95 per cent. will receive about 90 per cent of the amount of their tenders, and all tenders above 59 per cent. will receive the full amount bid for.

Agricultural Prospects in England.

Mr. J. J. Mechi, writing on the above subject, says:—"We have the old story over again—low temperature, flooding downpours, no sunshine, no ripening, crops late. I passed through 70 miles of Essex this week. Barleys were distressingly yellow and waterlogged. Both wheat and barley fields were bright with crops of charlock (wild mustard) in full bloom. Hand-hoeing has been impossible, so weeds are supreme, and the laborer's earnings have been small. Sheep still suffer from wet jacket and damp beds. Uncovered farmyards and exposed dungheaps are contributing their 'strong tea' abundantly to the brooks and watercourses. Well-drained farms, with covered homesteads and horse-hood crops, have many advantages this year; but on all farms a more ripening condition is required. On the whole, the outlook is at present gloomy and unprofitable; but we should not despair."

Chicago now claims 537,000 inhabitants—on a directory basis.

Miscellaneous News.

A New York policeman has been indicted for burglary.

Six hundred Mormons, mostly women, arrived in New York on Wednesday, en route to Utah.

Rev. D. D. Currie, the new editor of the Wesleyan, previous to leaving Moncton, was presented with an address and a purse containing \$50.

A correspondent of the Halifax Herald has been introduced to a young lady at Vale Colliery, N. S., the smallest woman it is said in the provinces. Her height is 39 inches; weighs only 24 lbs., and is in her 16th year.

The London "Truth" has information that the health of the Emperor of Germany is in a most critical state. He has become subject to prolonged fainting fits and "may go off at any hour."

Up to the first of this month an improvement is noted in the shipments of lumber from Ottawa. This year 26,000,000 feet has been sent away, while only 21,000,000 feet had been shipped during the same period of last year.

The custom receipts at New York for the month of June, 1879, were \$7,559,825.75—an increase of \$1,363,190.20 over those of June 1878. This looks like a greater demand for goods, consequent upon business improvement.

Squire Applegate, of Sharon, Penn., done what he could to make marriage easy. In the country papers his advertisement ran: "No license required. Parents' consent not wanted. On the Fourth of July Squire Applegate will remain at home for the purpose of marrying all persons from Ohio who may desire his services. Strict secrecy maintained if required."

In an out-of-the-way town in New Hampshire lives an eccentric old farmer who found his cellar stairs hard to climb on account of the height of the steps. After careful consideration he hit upon the device of nailing a piece of two-inch plank on each, in order, as he said, to "bring 'em nearer together;" and contended that he noticed "a leetle tetch of improvement."

A WONDERFUL LOCOMOTIVE.—As an instance of the enormous amount of work a railway locomotive can be made to do under good care, it may be stated that the G. T. R. Baldwin locomotive, driver, J. Renwick, has been out since the 1st of March, 1875 to the 4th July, 1879, and ran 205,000 miles during that period, without general repairs. This is believed to be the greatest number of miles ever run by an engine without thorough overhauling.—Toronto Mail.

THE LATE PRINCESS ALICE.—The cast for the monument to the Princess Alice—commissioned by the Queen to Mr. Boehm for the Mausoleum at Frogmore—promises well. The Princess lies as in sleep, her head thrown back on a high pillow supported on either side by little angels the lower part of the figure being draped and swathed by the heavy folds of a mantle bordered with ermine. With her left arm the Princess embraces her child, who is placed at her side, resting her head on her mother's breast and extending her left hand to meet the caresses of her mother's right. This group, which is to be executed in Marble, will be supported on a base enriched by a band of delicate Renaissance arabesque crowning the pedestal, which is divided by fluted pilasters into three compartments. The general effect of this part of the work will be much varied by the employment of colored marbles.

Denmark threatens to prove a formidable rival to Canada and the United States in the live stock trade with England. The Scandinavian cattle exhibited at the Newcastle wholesale market have represented of late more than two-thirds of the beasts offered for sale. The quality of them may be judged from the fact that considerable sales were made for the southern markets, to which none but the best sorts are sent. A quantity of stock is now fed on the best pastures in Denmark for the English markets. When prices are pretty stiff, the Danish cattle steamer, instead of waiting for cargoes of coals or goods, run out of northern ports in ballast, and return with a fresh supply in a marvellously short space of time. In fine weather Copenhagen and the adjacent ports sending cattle to Newcastle are as near to it as Aberdeen is for the same purpose. Farmers in the north reckon upon this trade as thoroughly established, and as a growing one, too.

There was a snowstorm in Portland, Maine, on the Fourth, although the inhabitants of every other American city were suffering from heat. The signal service directors explain this remarkable meteorological phenomenon in this way: Artificial snow may be formed in a warm room, the air of which has become saturated with moisture from the breath or any cause, by suddenly admitting a current of cold dry air. Shortly before 5 o'clock a cloud was observed rising from the south. At the same time another rose from the northwest. The current of wind which bore this along was cold, while the opposing current was warm and saturated with vapour. These two intermingled, and the effect was to form crystals of snow. The preceding heat and dryness of the day also helped to produce this result. The barometer was very low at the time, and the thermometer dropped 15 degrees in ten minutes.
