

We regret that a cargo has not been found here for the "Prince Edward"—that she is obliged to go to Montreal for a cargo of produce for the British market.

THE essay on Honesty, published in today's EXAMINER, though written for teachers, may well be read by parents, by young men and young women—by all; for it gives expression to correct principles, which are of general application.

IN Cuba, peace is gradually becoming assured; but the enforcement of martial law is considered necessary for some months longer. General Blanco receives the grand cross of San Fernando, with \$2,000 a year pension and a title of grandee of Spain, for his services in the pacification of Cuba.

AT the opening of the Antigonish N. S., County Fair on Wednesday last, the President in his speech gave it as his opinion that "an Exhibition for the Maritime Provinces, held alternately at St. John, Halifax and Charlottetown, must finally be decided upon."

NEW BRUNSWICK is leading off in the import of Polled Angus Cattle. The Moncton Times reports that "Josiah Wood, Esq., of Sackville, has deputed Mr. Lewis Avar, who accompanies the Westmorland and Cumberland cattle shipment to the old country, as the agent for the purchase of several head of Polled Angus cattle for the Sackville and Westmorland Agricultural Society." When shall Prince Edward Island have an Agricultural Society—taking similar measures for the improvement of its Cattle, etc.?

THE New York Herald runs up the result of the recent elections in Ohio and Indiana as follows:—

"The Western Democrats are in the condition of the Irishman's pig, which 'enjoyed miserably poor health and was getting no better very fast.' As the details of Tuesday's elections come in the Democratic defeat is seen to be even worse than was at first believed."

"In Indiana the Republicans appear to have elected the Governor, they have carried eight and possibly nine Congressional districts, against only six in the present House, and they have the Legislature and will be able to elect a United States Senator this winter to succeed Mr. McDonald, democrat. In Ohio they have carried the State by a handsomely increased majority, and have fifteen Congressmen against only nine in the present House. They will also be able to elect a United States Senator in place of General Garfield if he should become President. In two States the Republicans appear thus to have gained eight and perhaps nine Congressional seats and one seat in the Senate."

MR. J. R. BELFORD, Agent in Canada for the Atchison, Topeka and Santa Fe Railway, refers to the Toronto Globe's contradiction of Sir John Macdonald's statement that while in England he was confronted at every turn by copies of Mr. Blake's anti-Pacific Railway speech, and says:—

"If the speech Sir John Macdonald referred to is the one in which Mr. Blake honestly and justly, as I believe, eulogised Kansas, and of which I had, in part, printed and circulated many thousands of copies in Canada and Europe, I beg to say, in behalf of truth, that Sir John's statement is correct, and that the Globe is not justified in denying it. I received instructions from my chief, Col. A. S. Johnson, to send a lot of the circulars to our Manchester agent, which I did. It is not hard to believe that Sir John had them shoved under his nose everywhere, seeing they were distributed gratuitously, and in large numbers."

This shows how careful leading public men should be that their Parliamentary utterances are not detrimental to the interests of the country unless they have the fullest assurance that what they say is founded on fact. It has turned out that Mr. Blake was entirely astray in his comparison of Kansas with Canada. Speaking of the emigration to Manitoba this year, Dr. Macklin, of Portage la Prairie, in Manitoba says:—

"There has been a large emigration to the Souris valley, south of the Assiniboine, this year, and also to the Tiger hills. The land along the Souris is said by judges to be equal to any in the Manitobian region. The emigrants are from England, Scotland, Canada and the United States, many having come from Kansas, whether they had been lured by railway agents and ruiners for land monopolies."

On the testimony of Mr. Belford, Mr. Blake, Leader of Her Majesty's Opposition in Canada, has been made an instrument of these "railway agents and ruiners," who have "lured" British emigrants to less or ruin in Kansas.

THE Messrs. Stretch, of Long Creek, are with commendable enterprise, rebuilding the mills destroyed by fire last summer.

A Thriving Business.

WHAT CAN BE DONE BY RUNNING A BUSINESS ON CASH PRINCIPLES AND BY LIBERAL ADVERTISING.

THE premises of Messrs. Beer & Goff, Grocers, Queen street, have recently been enlarged and otherwise greatly improved. A visit to their establishment will suffice to convince one that the firm has now facilities for carrying on a grocery business, second to none in the Province. The firm is composed of two young, energetic business men. It has, from the beginning, met with unparalleled success—a fact which is attributed to the adoption of cash principles and liberal advertising in the EXAMINER and other prominent newspapers.

The firm commenced business in the year 1875, in the store now occupied by Messrs. Robertson & Cameron, on the South side of Queen Square. The premises, owing to a rapidly increasing patronage, became inadequate. In the year 1877, they removed to the spacious building on Queen street, opposite the Market House. By close attention, and spirited enterprise, they developed a flourishing trade, which is still increasing, and which is, no doubt, materially assisted by the prosperity with which Canada generally is now blessed. With the object of still more fully facilitating their already large trade, they recently extended the building which they occupy, back a distance of fifty-three feet—making it eighty feet by thirty, and three stories high. Besides this they erected an excellent warehouse in rear of the store, which is forty feet square by two stories high. Following the example of all well conducted firms in other cities, they have divided their store into departments for the display and sale of different varieties of goods. The first departments on the ground floor facing Queen Square, is the General Retail Store, which is well stocked with all descriptions of goods, generally found in a first-class grocery store. Adjoining the store is a neatly fitted office from which a commanding view of all the work done in the general store and other departments may be had. In the rear of the office are two spacious apartments, to which access may be obtained from the general store through splendidly designed arches. One is the wholesale department, which is stocked with samples of all goods to be disposed of at wholesale, while the other is a department for the exposition and sale of heavy goods, such as sugar in barrels, rice in bags, crockery, &c., and liquids, such as molasses, vinegar and oils. The second flat of the building is one large department for the display of biscuits, teas, and coffees—all of which the firm are large importers—while the upper story is used as a general storeroom. The new warehouse is conveniently situated in the rear of the main building. It is a substantial brick construction, and is well filled with flour, meal, tea, &c. The cellar is spacious, and is being fitted up for the receipt of over five hundred barrels of apples, which the firm intend to dispose of during the winter season. We might here state that a room is set apart in the warehouse, and thoroughly fitted with a new improved coffee roaster. The firm will, in future, roast all the coffee they intend to dispose of, and feel sure it will be satisfactory to customers, as it will be carefully roasted under their own supervision.

We feel safe in saying that Messrs. Beer & Goff have now facilities for doing—and they do—the best grocery business in the Province. They have in their employ ten salesmen, clerks and warehousemen, and keep two teams constantly employed delivering and storing goods. We wish them continued success, and advise readers unacquainted with the establishment to give them a call.

BRIGHT "Hildred," M. Callaghan, to Peake Bros. & Co., in ballast from White Haven, G. B., arrived here on the 17th inst., 24 days.

We learn that Mr. Charles J. McKenna, formerly of this city, has recently been appointed a clerk in Company E., 23rd (U. S.) Regiment, now stationed at Los Pinos, Colorado.

REMEMBER the great sale of Household Furniture, Beds and Bedding, Table ware, Cutlery, &c., at Auction to-morrow, at the St. Lawrence Hotel, Water Street, commencing at 11 o'clock sharp.

At the close of the Poll in Ward 2, on Saturday evening, the vote stood—

Murphy, 120.
Barrett, 80.

OWING to the fact that a cargo of produce was not found here for the "Prince Edward," Carvell Bros., nice little flock of twelve hundred sheep, for the British Market, will have to be sent via Quebec, Halifax, or some other port.

THE Stipendiary Magistrate had six cases for his attention this forenoon. Two of these were common drunks, while the balance was made of model (!) young men, who were arrested for disorderly conduct on the street late on Saturday night.

CRICKET BENEFIT.—The theatrical and musical Entertainment for the benefit of the Phoenix Cricket Club, will take place in the Academy of Music, on Thursday evening, 21st inst, not this evening, as stated in the Patriot.

ACADEMY OF MUSIC.—We feel pleasure in calling attention to the bill of fare provided for this evening, being for the benefit of Miss Louise Forster, and consisting of the most brilliant comedy in the English language, viz, Tobin's 3 act play of "The Honeymoon; or how to rule a wife." Dr. Creamer, whose excellent voice is heard too seldom, will sing, and other entertainments complete an excellent night's amusement. Kathleen Mavourneen, which has been so long in preparation, will be produced this week.

WE are pleased to learn that so well established and reliable a Company as the "Western Assurance Company," has secured as its General Agent in this Province, one so popular and capable as Mr. Horace Hassard. The Company has commenced advertising in THE EXAMINER, and will doubtless do a considerable amount of business here. It has been operating for twenty-nine years; and according to its "Annual Report" it is one of the best Insurance Companies in Canada.

MR. J. D. McLEOD, of this city, writes to the Patriot, denying the statement of the St. John Globe, that the oatmeal exhibited at the St. John Exhibition "was not of Island production." Mr. McLeod states that the oatmeal sent by him to the Exhibition was ground from Island grown oats, at Mr. Richard E. Egnell's Mills, New Glasgow, and he informs us that he can supply St. John editors and reporters with the same quality of meal as that exhibited, in any quantity from one pound to one ton.

THE "EPIZOO."—We learn that many horses on the Island are slightly afflicted with epizootic. A gentleman in New Brunswick, who takes an interest in horses, has supplied the following cure for the disease:— "Ground ginger pure (2) tablespoonfuls; German Condition Powder, one (1) tablespoonful; put in a common sized teacup and fill up with molasses and mix with the horses' oats or other food. Give morning and evening until the cure is effected."

IN another column are given the particulars of an interesting and auspicious event which took place at Alberton on the 11th inst. A correspondent informs us that "The ceremony was witnessed by a very numerous congregation of all denominations, who were unanimous in their hearty congratulations to the bride and bridegroom, both of whom are most deservedly popular in their neighborhood."

A YOUNG man named Fulton arrived from St. John, N. B., last week, with the intention of purchasing produce. He, as the old story goes, fell into bad company, was robbed of a few hundred dollars, and after drawing several hundred from a bank disappeared from the city on Saturday. Before his departure he was seen with a number of suspicious characters. His brother arrived late on Saturday night, but up to the present has been unable to discover the whereabouts of the unwary one. The police have the matter in hand.
