

I've flipped my lid for reality television
I've gone mad for reality television
I've lost it all to reality television
CNN. Live.

I've gone stupid from reality television
I'm all alone with reality television
Its you or me reality television
Law. Order.

I've done worse than reality television
I made a mint on reality television
I met my baby on reality television
MS. NBC.

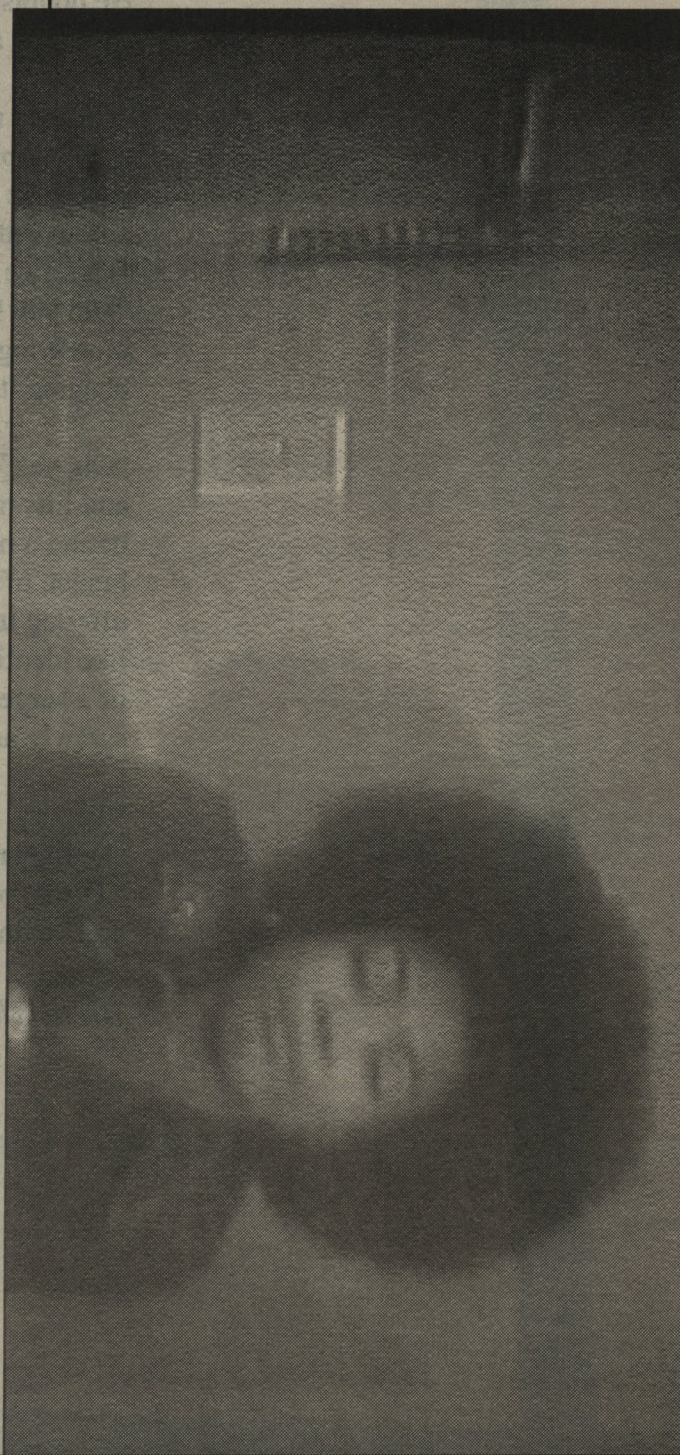

I'm a dull whore for reality television
I'm the Internet for reality television
I like it funny on reality television
Survive. Or.

I've been misquoted by reality television
I've been sold down the river by reality tele-
vision
I've found my savior in reality television
Much. Music.

I'm all ashamed on reality television
I've come undone on reality television
I lost my baby to reality television
Take. All. Bets.

I wore out my welcome on reality television
I'm so tired of reality television
I need a focus group, not reality television.

And none of that makes any difference to
Gordon Lightfoot.
