Montreal Stocks

MONTREAL (CP) — Industrials held narrow gains at the close of moderately active trading Wednesday on the Montreal and Canadian stock exchanges.

Stelco and Canada Iron were one-point winners in the steels. Disco eased ¼ and Alboma slipped a point. Banks provided firm ground as Nova Scotia climbed 2½ points.

In the base metals Aluminium added 1¼ points and Consolidated Smelters ½ while Asbestos Corporation and International Nickel each lost ½.

Papers softened as International dropped 2½ and Abitibi ⅜. Great Lakes vained 1¼ and St. Lawrence Corporation two points.

In active trading in the mining-western oil section penny issues advanced in a 20-cent range. Consolidated Denison Hollinger and Labrador were all fractions better in the producers.

The stock exchange's closing averages show banks up 0.66 at 57.88 utilities up 0.2 at 137.3 industrials up 1.7 at 325.1 combined up 1.2 at 262.5 papers off 2.18 at 1575.16 and golds up 0.42 at 86.70

N. Y. Stocks

NEW YORK (AP)—The stock market advanced Wednesday in a late burst of strength centred in oils and supported by rails.

Some gains were quite extensive but usually they didn't go beyond three points. Losses were numerous but larger than one to two points only occasionally.

Higher with oils and railroads were steels motors utilities Chemicals building materials and aircrafts.

Airlines were depressed throughout the day in the face of proposal to rearrange flight patterns in the east. Most nonferrous metals were lower but they came up from their worst before the finish.

The Associated Press average o 60 stocks was up 80 cents at $191.20 the second record high mark touched this week. The industrial component of the average was up $1.40 at a high of $274.30 rails were up 60 cents and utilities were up 10 ents.

Canadian issues were mixed on the New York exchange. Aluminium Ltd. and McIntyre both added ½ while Canadian Pacific and Distillers Seagram both moved up ¼. Granby Mining and International Nickel lost ¼, Hiram Walker fell ½ and Dome Mines slipped ⅜.

On the American exchange Brazilian Traction, Canadian Marconi and Preston East Dome were unchanged.

Currencies

MONTREAL (CP) — The U.S dollar closed Wednesday at a discount of 5-32 per cent in terms of Canadian funds, down 1-32. It took 99 27-32 cents Canadian to buy $1 American. Pound sterling $2.80 5-16 unchanged.

Bridge Causes Changes In Halifax And Dartmouth Areas

HALIFAX (CP) — A year ago this week a ddeam of decades came true when the Angus L. Macdonald bridge across Halifax harbor was opened to traffic.

The impact has been heavy. Business has exceeded the most optimistic expectations, and the economy and fcce of the metropolitan area is being drastically reshaped.

Close to 5,000,000 people and 2,500,000 vehicles have crossed the mile-long span connecting mid-city Halifax and central Dartmouth.

Even before the bridge was ready for traffic it was having an obvious effect on business and community life. A major population shift started across the harbor and today Dartmouth and its outskirts are mushrooming as never before with new housing developments.

Called by some "the bedroom of Halifax," the town's population jumped 50 per cent to 20,000 in 10 years. Halifax increased 21 per cent during the same period.

HALIFAX HEMMED IN

The reason is that Halifax is confined to peninsula and lacks growing space. Dartmouth has plenty of undeveloped land and can expand north, east and south for miles.

With the bridge in use, commuters find the trip to Halifax quick and easy. In fact so many switched to the bridge from the Dartmouth-owned ferry commission that the present boats are being replaced by new, passenger-only craft in an effort to keep the service operating without a loss. The monthly deficit of the car and passenger craft now is about $10,000.

Bridge traffic is far ahead of predictions.

It was expected to reach about 1,500,000 vehicles and 4,000,000 passengers in its first year. Cars pay a 40-cent toll and passengers five cents. Operating revenue from the opening April 2 to Dec. 31, 1955, was $658,018.

The bridge was financed by a bond sale of the Halifax-Dartmouth bridge commission, representing the province, city, Halifax county and Dartmouth. The province guarantees any operating deficit but may recover 25 per cent from the city, 10 per cent from the town and five per cent from the county.

Woman Sets Fire In White House Room

WASHINGTON (AP)—A middle-aged woman visitor Tuesday set a fire in the Red Room of the White House and four more in the adjacent executive office building. The secret service said she was apparently not lucid.

The fires were quickly smothered.

The incidents were announced at a joint press conference by White House press secretary James C. Hagerty and U. E. Baughman, chief of the secret service.

Hagerty said the woman gave her name as Mrs. Julia M. Chase, and said she came to Washington Tuesday.

The woman toured the White House public rooms Tuesday morning in company with hundreds of othed Easter week visitors.

Hagerty described the woman as apparently "not quite lucid."

Hagerty and Baughman said that in all five cases the fires were quickly put out by guards and that there was no damage.

They said the woman was detected setting the fifth fire in the executive office building, across the street from the White House.

She was taken into custody and sent to the District of Columbia general hospital for observation.

Expect First Of New Rifles In September

OTTAWA (CP)—The first batch of the army's new atuomatic rifles, the Belgian Fabrique Nationale, will be off the assembly lines by September, federal arms officials disclosed Tuesday.

Extensive detooling, started months ago at the government's arsenals plant at Long Branch, Ont. now is about completed and rifle production will soon be ready to roll, officials said.

The first batch to come off the lines, expected to be about 8,000, will be put through thorough field tests by Canadian troops before the Long Branch plant begins a fixed production schedule.

The rifle, first of the automatic class for Canada, also involves a change in ammunition and the propellant in the cartridge is currently causing some concern here.

The Belgian Fabrique Nationale is a 3.00-calibre weapon, a switch from the .303 single-action Lee-Enfield rifle, the old standby of Canadian troops.

TEST PERFORMANCE

Officials said that if the world situation got hot, they could turn out millions of rounds of cartridges for the new automatic quickly. But with things being relatively quiet, they've decided to seek ways of getting better all - round performance out of the cartridge, concentrating particularly on the propellant.

It appears likely that cartridges with a variety of propellants will be turned out by the federal arsenals men, leaving it to the troops and the experts in field tests next fall to decide on a final selection.

About 72,000 of the rifles will be turned out during a period of two or three years, depending on the needs of the 49,000-man army and Allies. At the moment there is no indication that any of Canada's Allies are interested in placing orders for the rifle in this country.

The view here is that the old Lee-Enfield will still be used for guard duty and ceremonials, with distribution of the automatic, which can pour out 20 round with one press of the trigger, limited to combat and operational work.

Maine Member Anxious For 'Quoddy Survey

WASHINGTON (AP) — Senator Frededick Payne (Rep. Me.) Tuesday asked State Secretary Dulles to "take all reasonable steps" to persuade Canada to consent to a $3,000,000 survey to determine the economic feasibility of the Passamaquoddy tidal power project.

On Jan. 1, President Eisenhower signed a bill authorizing such a survey by the International Joint Commission on U.S-Canadian waters. The president's budget for the year beginning July 1 contained a recommendation for appropriation of $1,000,000 to start the study.

Payne said in a letter to Dulles Tuesday it was his understanding that the state department cannot request Congress to appropriate the money until Canada and the United States have formally requested the joint commission to make the survey.

He said it further was understood that the United States had requested the Canadian government to join in the necessary dequest, but that to date the Canadian government has not acted on the request.

GREAT IMPORTANCE

Payne said a definitive survey of the proposed tidal power project "is of the utmost importance to the potential industrial development of the adjacent areas of both countries.

"Although the state of Maine and the province of New Brunswick would receive the greatest benefits from Quoddy if construction is found feasible," Payne said, "the project also could bring benefits to all New England and the Pdovince of Nova Scotia."

Payne urged the state department "take all reasonable steps within the limits of diplomatic protocol" to expedite securing the consent of Canada to the survey "so that it will be possible for the congress to appropriate funds this year to initiate the survey."

IN MEMORIAM

BERNARD McGUIGAN

There passed away at his home at St. Mary's Road on Dec. 5, 1955, Bernard McGuigan in his 98th. year. Although in failing health for the last few years his death came as a great shock to his family and friends. Barney as he was known to one and all, was a kind man, a good neighbor, always ready to lend a helping hand to his fellowmen. He will be sadly missed by his sorrowing widow and family and by the public in general. His home was always open to strangers and travellers. He had a family of thirteen, twelve of whom survive. David his youngest son was killed in action in Italy in World War 2. He had a very special grand daughter Katherine, who cared for him during his illness, but was unable to be present at the funeral due to illness.

Besides his sorrowing widow he leaves to mourn six daughters and six sons, also two grand children who lived with him from infancy-Barney who was killed overseas and William of St. Peter's Bay. All were present at his funeral except his daughter Rose who was away.

His funeral took place on Wed. Deec. 7th., to St. Paul's Church. All Sturgeon for Requiem High Mass, celebrated by his Pastor, Rev. F.L. Mullally who also conducted the service at the cemetery. Despite the condition of the roads and weather, his funeral was largely attended. Five grandsons were pall bearers. Dan Conway, Aeneas McGuigan, Reg. McGuigan, Teddy Butler, Bill McGuigan and H. McGuigan.

The family of the late Bernard McGuigan wish to express their thanks to Dr. McIntyre, Rev. F.L. Mullally, and Rev. J.W. McCardle, and all those who sent mass cards, sympathy cards and flowers, and all who in any way helped during their sad bereavement.

R.C.A.F. Corporal Has Pay Troubles

TORONTO (CP)—Cpl. Maxwell Endicott's wife says he is a happily married man who wants to get out of the RCAF.

But, she says, air force regulations classify him as a single man and he has been refused his discharge until he makes up $3,000 the RCAF says he was overpaid as a married man.

Mrs. Endicott said Tuesday her husband's pay has been chopped to $10 a month, leaving her and two children with no support.

He is stationed in Alberta.

RCAF regulations say that a serviceman shall be classified as single for pay and allowances if a maintenance order has been awarded against him by a civil court.

"It all started seven years ago when Maxwell temporarily left me, . . ." Mrs. Endicott said.

Later they were reconciled and the family took up life "as any happy married family."

Four years ago Cpl. Endicott, a veteran of the Second World War, re-enlisted in the RCAF and was classified as a married man, receiving a substantial allowance for his family.

When he applied for discharge last year the department of veterans' affairs discovered the maintenance order levied against him in 1950.

Mrs. Endicott said she appealed to the Navy, Army and Air Force Association last year and to members of both the federal and provincial legislatures but that so far they have been unable to get results.

Brighten your Kitchen... Lighten your Life

with a superb new '56 FRIGIDAIRE

You get
Newest Conveniences
Glamorous Colors—Inside and Out
General Motors Dependability
Exclusive Features

Now priced with just ordinary refrigerators!

These finest-of-all refrigerators have so *many* extra features! Like the finishes that will not crack or chip ... the extra pounds of frozen food they hold ... the flowing cold that makes food *more* appetizing. Yet the superb new '56 Frigidaires cost no more than ordinary refrigerators! See them *today!*

See its 66 pound capacity food Freezer! It combines a 10.1 cu. ft. Refrigerator with 66 pound Freezer! And a host of other exciting features — four aluminum Roll-to-You Shelves, automatic defrosting. Handy new Ice-Ejector that zips cubes right into the storage bin, so saves you getting damp hands! Pantry Door has Picture Window Hydrator and Butter Conditioner. Model CP-120C-56.*

Slips into less than 25 inches of floor space!

Here's the ideal Refrigerator to help you plan big meals in little kitchens. Has every basic Frigidaire food-keeping feature—a big Super-Freezer Chest, a handy Chill Drawer, two ice trays, full-width bar shelves, five removable shelves on the door. Model SA-80C-56.

*Color makes your kitchen glow!

These models are available in color... Mayfair Pink, Sherwood Green, Stratford Yellow or Snowcrest White. And there are Snap-on Decorator Panels, too, in still more colors. They snap on and off your refrigerator top and bottom panels.

Small refrigerator — large freezer!

Less than 25 inches wide — yet holds 29 pounds of frozen food! Five removable shelves, full-width Porcelain-finished Hydrator. Cold Control. Handy butter compartment on door. Model S-80C-56.

You'll like its convenient Storage Door!

This roomy Refrigerator has lots of features you'll like. Its Super-Freezer Chest has three Quickube Trays. Meat Tender and Hydrator glide out easily. Three aluminum shelves in the food compartment. Model S-101-C-56.*

Small, yet has everything!

Here's the smallest model on the page — perfect where space is limited. Super-Freezer Chest holds 15.9 pounds. Four full-width shelves. Cold Storage Tray, two ice trays. And Porcelain finish in the food compartment! Model A-61C-56.

De luxe model — lower price!

Beautiful Food Freezer-Refrigerator has Freezer that holds 40 pounds! Big Storage Door has butter compartment, Tilt-down egg server. Defrosts automatically! Three Quickube Trays and Juice Can Rack in Freezer. Model FD-95C-56.*

Packed with convenience features!

The extra convenience of Twin Hydrators keep vegetables so fresh! Storage Door has Tilt-down egg server, butter compartment, spacious shelves. Defrosts automatically! 49-pound Freezer with Quickube Ice Trays, Frozen Juice Can Holder. Model FD-120C-56.*
