Chase's Kidney-Liver Pills.

Chase's Pills have gained popularity because they are a specific for the uric acid condition, prevent Bright's disease, cure Rheumatism and all Catarrhal conditions of the Kidneys and Bladder. They do this because they possess remarkable alterative, tonic and diuretic properties, exerting a wonderfully soothing influence on irritated or inflamed mucuous membranes of the kidneys or bladder. One pill a dose. 25c. a box. The cheapest medicine in the world.

'I would'nt go through that again for a good deal,' said the pugilist with a shudder.

'What was it? A railway accident.'

'Worse. I was matched for a fight, and the managers on both sides came pretty near forgetting to notify the authorities in time for them to prevent it from coming off.'

BE NOT DECEIVED.

The Unparalelled Success of Dodd's Kidney Pills Excites the Envy and Greed of Unscrupulous Imitations.

A kidney treatment in pill form was unknown until Dodd's Kidney Pills came into use.

If Dodd's Kidney Pills were not indeed "the best in the world," no one would imitate them.

Who is defrauded and who pockets the proceeds when a counterfeit coin is passed upon you?

Never let any one persuade you to buy a substitute or imitation of the real article you need.

The genuine are put up in round, flat wooden boxes, white lettering on blue label with red band.

You can get the genuine Dodd's Kidney Pills from any druggist or dealer in Canada, at 50 cts. a box, or by mail from the Dodd's Medicine Co., Toronto, Ont.

THAT IMPALING CASE.

Mr. A. E. Hudson, Combermere, severely injured—Protruding Knot Entered the Body—Cured by One Box of Dodd's Kidney Pills.

COMBERMERE, Feb. 22 (special).—Mr. H. E. Hudson, trapper, hunter and lumberman, was injured by falling on a knot, which entered his body from beneath and injured his bladder and kidneys. He says: "I was confined to my bed for six weeks and was rarely able to work, feeling too weak since the injury, over eight years ago. I have taken one box of Dodd's Kidney Pill's and am perfectly cured and as able-bodied as ever before in my life. One box was worth one hundred dollars to me, if it is possible to estimate such a benefit in dollars."

Fifty-two new islands have appeared (by aid of volcanic action) during the present century, and nineteen have disappeared—have been submerged. This makes a net gain to the earth of thirty-three islands.

With Invalids.

Yes! with invalids the appetite is capricious and needs coaxing. That is just the reason they improve so rapidly under Scott's Emulsion, which is as palatable as cream.

Green to Black (who is preparing for a continental trip)—'How do you get on with your language, old fellow?'

Black—'Capitally. Why I've got so far now that I can think in French.'

Green—'Well, that's a blessing, for it's more than you could ever do in English.'

It Saved Our Child.

"My little daughter, three and a half years old, suffered three years with Eczema. Her little body was covered with the itching rash, and doctors did no good. Four boxes of Chase's Ointment have entirely cured and saved our child. Her skin is clear and not a sign of rash is to be seen."—Andrew Aiton, Hartland, N. B. Mr. Aiton is one of thousands benefited by this unfailing cure for piles and skin diseases.

CHRONIC HEADACHE.

The change in my Mother's condition marvellous.

Scott's Sarsaparilla is a Boon.

MONTREAL, August 29th, 1895.

GENTLEMEN:—There is such a change in my mother's health that I cannot restrain myself from writing you. She suffered for years past with a chronic headache, accompanied with a disordered stomach. She was weak and irritable, and we thought she was going into a decline. For three weeks she has been taking a course of Scott's Sarsaparilla, which was recommended to her by Mr. McGale, Druggist, Montreal. Her headache is now but a memory, her appetite is good, and she has gained five pounds in weight in twelve days. She is a different woman, and I feel that you, in God's hands, have been the means of restoring her to health. I shall always recommend Scott's Sarsaparilla to sufferers from head or digestive troubles. Thanking you again, I close.

Yours sincerely,
Hortense Gavliere.

Scott's Sarsaparilla is a concentrated extract, pleasant to the taste, and is taken in small doses. It is the finest remedy for disorders of the stomach and liver, palpitation, scrofulous sores, eczema and skin diseases arising from impurities of the blood. It builds up the weak, the strong it maintains in health. $1 of all druggists.

MILLIONS OF MEALS

IN TINS WILL PREVENT BESIEGED CITIES FROM STARVING.

You Can Have a Course Dinner Nowadays Entirely in Canned Foods—Paris Has Stored Enough of Them to Feed the City Eighteen Months.

That greatest terror of war, a starving garrison and a starving town, surrounded by a hostile camp, yet able to see far-off fields of grain and plenty, could not be repeated in this age of canned goods, meats, vegetables, puddings and fruits all incased in tiny jars or boxes of tin.

It used to be easy to beleagure a city and starve it into submission with hardly an ounce of shot, for it was a foregone conclusion that if all avenues of food supply were shut off only a few weeks would elapse before both garrison and citizens would have to capitulate, though they might eat rat-flesh and horse-flesh first. But now, so cleverly are provisions compressed and packed away into tins, and so long will even the foods that most usually spoil quickly keep,—for years in most cases—that no city or town could be starved out if it only had half a chance to provision itself properly.

The city of Paris has stored away hundreds of thousands of packages containing canned and compressed food enough to supply the entire population for at least eighteen months. This outfit of canned food is not permitted to be touched, though at times it is tested to see that it still remains unspoiled.

Other cities in Europe have built up stores along much the same lines, though Paris has by far the most important assortment of canned food held in reserve.

Outside of these preparations, the manufacture of canned articles has grown to be something enormous, especially in meats and vegetables. In many cases the canned goods seem to be actually preferred to the original products. Nearly every wise housekeeper nowadays emulates Paris in a small way, for she keeps on her shelves any number of these little boxes and thus finds herself always ready for any emergency should company suddenly drop in or the butcher or grocer fail to turn up.

It is really surprising the variety of things to eat that are put into cans. As a matter of fact, one can live, and live comfortably, on canned foods alone. "I can stock your house," said a big wholesale grocer, "so that you need not make another purchase of food for five years, and you shall have every day a perfect dinner of soup, fish, entrees, roasts, fruits, pudding, cheese, and coffee, all canned goods."

Canned goods, though, have proved themselves of the greatest value to the traveler from the fact that an enormous amount of nourishment can be carried in an exceedingly small compass. The Arctic explorers first found out the value of canned meats and vegetables, and in this way were able to travel with less hardship and to do things which would have been impossible had it been necessary for them to depend upon food in its original form.

When the Greely expedition went away in 1881 a large quantity of pemmican was put on board. A large part of it was not consumed on the trip, and on the return of the explorers it was sent back to the firm from which it was bought. When the Peary expedition was being fitted out, ten years later, and the same firm was doing the providing, they opened sample cans of this pemmican and found it to be in as good condition as if fresh made. So it was sent out with Peary, and on that explorer's return to New York what was left proved to be as good and as nourishing as it had been in 1881.

No expedition of recent date has plunged into the Dark Continent without being well equipped with tin boxes of all sizes and varieties. It is said that there is no desert plateau in any part of the earth where one is not liable to run across an empty beef can.

Transatlantic steamers and sailing vessels about to start out on long voyages use these goods in great quantities, because they keep so well and because they can be stored so easily. When prepared by a skillful cook it is impossible for the diner to distinguish between fresh meats and vegetables and those that are canned.

In canning the meat is steamed, boned and pressed into the boxes, which are then soldered up. It is estimated that a two-pound can of meat, sold at about 25 cents, contains as much nourishment as 50 cents' worth of meat fresh from the butcher.

The Presidential Succession.

I have told you of the Spaniard offices have never in our history both become vacant during a presidential term. Several presidents have died in office—Harrison, Tyler, Lincoln and Garfield, but the vice-president took up the office and survived the term. Vice-Presidents Clinton, Gerry, King, Wilson and Hendricks have died in office. John C. Calhoun resigned to become Senator from South Carolina. In 1886 a new statue was passed by Congress changing the succession, and now in the event of the death or removal of both the president and vice-president, the succession devolves upon the members of the Cabinet in the following order: Secretary of State, Secretary of the Treasury, Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, Secretary of the Interior.—Ex-President Harrison in Ladies' Home Journal.

Floral Decorations for Children's Parties.

In giving a birthday party for children the table should be decorated with the birthday flower of the month in which they were born: January, snowdrop; February, the primrose; March, violet; April, daisy; May, hawthorn; June, wild rose; July, lily; August, poppy; September, convolvulus; October, hops; November, chrysanthemum; December, holly; Each has an appropriate sentiment attached to it. The snowdrop means consolation; the primrose, youthful sunshine; the violet, modesty; the daisy, innocence; the hawthorn, hope; the wild rose, simplicity; the lily, purity; the poppy, the comfort of sleep; the convolvulus, contentment; hops, aspiration; the chrysanthemum, cheerfulness; holly, foresight and protection.

Granby Rubbers

It is no wonder that rubbers, which are not the same shape as the boot, should be uncomfortable. It costs money to employ skilled pattern makers but the result is a satisfactory fit. Each year new patterns are added, to fit all the latest shoe-shapes, and Granby Rubbers are always "up-to-date." They are honestly made of pure rubber, thin, light, elastic, durable, extra thick at ball and heel.

the doctors approve of Scott's Emulsion. For whom? For men and women who are weak, when they should be strong; for babies and children who are thin, when they should be fat; for all who get no nourishment from their food. Poor blood is starved blood. Consumption and Scrofula never come without this starvation. And nothing is better for starved blood than cod-liver oil. Scott's Emulsion is cod-liver oil with the fish-fat taste taken out.
