Ever remembered by mother, brother and sisters.
ARMSTRONG—In loving memory of a dear mother, who passed away Jan. 23, 1948.
Years of striving—little of play
Loving and giving all the way
A cherished smile—a heart of gold
To the dearest Mother the world could hold.
Lovingly remembered by daughter Virginia, son-in-law Jack, grandchildren Charlie, Jacqueline and Arthur.

MACMILLAN—In loving memory of my dear husband Henry H. MacMillan who passed away Jan. 23, 1955.
No morning dawns
No night returns
But that I think of you
Those left behind are very dear
But none replaces you
But since you're gone and I remain
One thing I would have you do
Walk slowly down the path of death
For I'll soon follow you
I want to know each step you take
That I may walk the same
For some day down that lonely road
You'll hear me call your name.
Ever remembered by his wife Lillian, Albert and Elmira.

Splendid Vocal Concert By Notre Dame D'Acadie Choir

Charlottetown music lovers were treated to a delightful concert of choral music at the Community Centre on Saturday evening, the recital being the famed Notre Dame D'Acadie Choir, of Moncton, which appeared under the auspices of the Holy Redeemer subdivision of the Catholic Women's League. There was a large attendance, and the applause was warm and appreciative.

The choir was under the capable direction of Sister Marie Lucienne, a sister of Miss Marie Elena LeBlanc and Mrs. Joseph Melnick of Charlottetown, who was presented with a large bouquet of roses as a tribute of appreciation from the audience.

Dr. J.A. MacMillan presided and gave interesting commentaries on the selections before each number was sung. At the close of the programme he warmly thanked Sister Lucienne and the choir for the inspiring entertainment they had given.

The choir is one of the most talented groups of young ladies in Canada and its program last evening called for vocal efforts of the highest order. The selections ranged from works of Bach, Purcell, Mozart and Schubert to arias from Puccini and folk songs in French and English. Each number was of a high musical standard and some of them were heard here for the first time. The French numbers were particularly interesting and were very beautifully rendered. Y.M.C.A. Sunday In City Churches

Y.M.C.A. Sunday was observed throughout the churches of the city yesterday. At Trinity, Rev. A. Frank MacLean took as his subject, "Why The Y.M.C.A. Whence and Whither?" He made special reference to the founder of the organization, Mr. George Williams who, with Mr. Edward Beaumont of London, England, started the religious movement for the benefit of drapery clerks in England's Capital.

The minister went on to relate that from this small beginning, the movement within ten years had spread to the North American Continent until today it enjoys a membership of almost 5,000,000.

In summing up his remarks, Mr. MacLean drew a parallel with the Communist movement started by Engel and Marks. "If there were more people interested in the social welfare of their fellowman as seen through the Y.M.C.A. movement, we would not be obliged to observe with such red faces the spread of Communism throughout the world", he said.

Wintertime Construction Can Be Increased Spokesman Says

"When complaints arise about shortage of construction materials such as steel, cement, brick, etc., then is the time to think backward and ask yourself, whether you have done your share to get building projects launched in the fall instead of the spring." So says Raymond Brunet, O. B. E., past president, Canadian Construction Association and chairman of Joint Committee on Wintertime Construction.

"If we can put some mind to it, we can spread Canadian construction operations fully across the calendar in most regions of the country south of the 33rd parallel of latitude, whether on flatlands or mountain valleys. The main added costs will be extra enclosures, extra outside and temporary columns and lateral stays against snow load, extra bracing against varying winds, extra heating on the job for the preservation of materials and of manpower working comfort and efficiency.

"This so-called 'tough season in a tough country' is already being handled adequately by Canadian construction workers and management. "But the drive for more wintertime construction needs additional support from project owners, architects and consulting engineers.

Five Accidents On City Streets Over Weekend

A total of five traffic collisions were investigated by the City Police over the weekend. In the first a car parked on the west side of Elm Avenue facing north was hit by a truck coming into the city. It resulted in damage to the right front fender of the car.

Another occurred on Kent between Queen and Great George Streets between a car backing out from the Revere Hotel and a truck proceeding west on Kent Street. This resulted in considerable damage to the right door, fender and cab of the truck and left rear fender and bumper of the car.

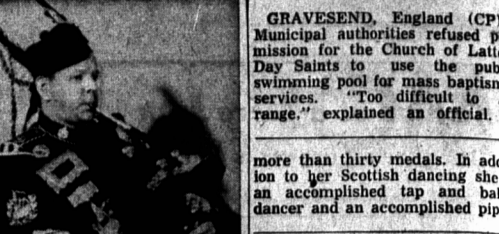

On Spring Park Road a car that was being backed into a driveway was hit by a car that swung out to pass; minor damage resulted. A truck going through a stop sign at the corner of Grafton and Cumberland Streets collided with a car on Grafton Street, causing damage to the left front fender and door of the car.

At the intersection of Prince and Kent Streets a car moving south on Prince struck a car going west on Kent. The car on Prince received damage to the right front fender, light and grill while the other sustained a damaged right rear fender.

PIPE MAJOR SUTHERLAND

Conclude Only One Drowned In Ottawa River

OTTAWA, (CP)—Thomas Leslie Hunter, 53, drove alone to his death Friday night when his car crashed through the rail of the Chaudiere bridge linking this capital and Hull, Que., over the Ottawa river.

A diver pulled Hunter's frozen body from the car Saturday, ending speculation that two or more persons occupied the car. A search of the damaged-up section of the river revealed no other bodies and police concluded he was alone.

Mrs. Ivy Hunter said her truck driver husband was subject to coughing spasms and had suffered two heart attacks in recent months. She said she believes he suffered another seizure while driving.

Both Mrs. Hunter and Hunter's brother-in-law, Martin Armstrong, said Hunter was alone. Motorists who witnessed the car's plunge had said they believed two or more persons were in the car.

One leading performer will be Pipe Major Harold Gordon Sutherland of Charlottetown formerly of Westville, Nova Scotia. The Pipe Major was champion piper and winner of the Col. Walter Scott Trophy at the age of 13. Since that time he has been successful in winning many distinguished trophies. Pipe Major Sutherland received the majority of his training at the Military School of Piping, Edinburgh, Scotland.

Another star performer will be Mrs. Garden Lawson of Summerside, who is well known as one of the leading Scottish dancers. The former Doris Anderson, Mrs. Lawson started dancing at the age of seven, and at one time was junior champion of Northern Scotland and placed third for the whole of Scotland.

A third feature attraction will be Miss Jeannette MacNaughton, a member of the Dunvegan Girls Pipe Band of Westville, Nova Scotia. Miss MacNaughton who is at present a Grade XI student at Westville High School, has won many of the top awards for dancing throughout the Maritimes and
