

Youth Is Featured At Baptist Service

Special services marking the opening of the new edifice of the First Baptist Church of Charlottetown continued last evening as the church was dedicated to the training of youth.

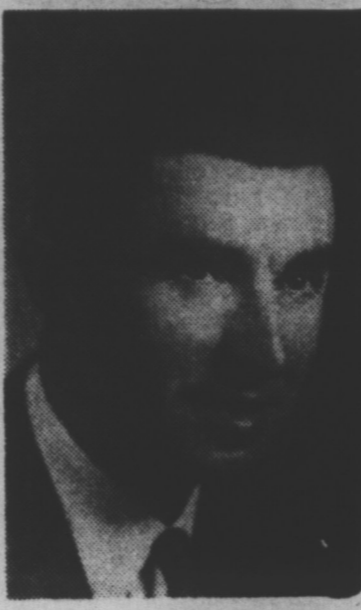

The various youth groups of the church—the Cubs, the Scouts, the Explorers, the Canadian Girls in Training, the Baptist Young People's Union—and their leaders gathered for the occasion. Also present were representatives of young people's unions from other churches in the city, as well as representatives of Baptist Young People's Unions from different parts of the province.

The pastor of the church, Rev. H.L. Mitton, conducted the service, assisted by Henry Sharam, president of the Inland Baptist Young People's Association, and Charles Ballem, the senior counsellor. Special music was rendered by the junior, intermediate and youth choirs.

The address of the evening was given by Rev. Ross Howard, pastor of the O'Leary Baptist Church, and a former president of the Maritime Baptist Young People's Convention.

He spoke of the need for the Church of Jesus Christ taking an interest in the training of its youth, and called upon the large number of young people present to avail themselves of the many opportunities for training within the church.

Following the service, a period of recreation was held in the church hall led by Charles Bal-

lem. The young people were given refreshments by the ladies of the church, after which Mr. Mitton led the group in a closing inspirational thought.

The service this evening will witness the dedication of the church to the denomination. The guest preacher will be Rev. Harry A. Renfree, general secretary of the Maritime United Baptist Convention.

He will take as his theme, "Our Heritage and Hope." Mrs. James Haslam will be guest soloist.

Survey Is Topic Of H.S. Address

The May meeting of Central Royalty Home and School Association was held on Monday evening with a good attendance. George Ayers presided.

Discussion took place regarding trees and shrubbery for the school grounds, and Mr. Ayers was delegated to purchase fertilizer for same. It was decided to ask the Scout troop to be responsible for keeping grass cut during the summer months.

The attendance contest was won by Miss MacGuigan's class (Grade I).

The nominating committee for the coming year is Mrs. T. Knox, Mrs. Acorn, Mrs. E.R. Clark.

Mr. Ayers introduced Dr. Found, who spoke to the members about the T.B. survey now being held all over the Island and in particular in this district on May 22nd.

The Home and School members along with members of the Institute are to begin a canvass of the district to interest as many as possible to attend. Several offered to help on the two days the clinic would be in operation.

who would naturally expect that railway research would deal with nuclear locomotives and jet-propelled monorail cars. The fact is that most CNR research is "much more pedestrian," dominated by economic considerations and with a basic objective: producing more, better and safer transportation at lower costs.

So far, Dr. Solandt added, the CNR sees no economic justification for building a nuclear locomotive. Yet it is heavily engaged in technical research aimed at increasing operational efficiency.

Reviewing the company's research endeavors in general, Dr. Solandt cited 10 sections, each of which has specific responsibilities. They are engineering economics, general economics, chief budget officer and staff, bureau of statistics, material testing, and research laboratory, co-ordinators of technical research, operational research transport research, materials handling group and planning section.

Dr. Solandt said the railway is basically a mass producer of transportation and therefore can sell its products in large quantities at low costs. Road transport is essentially a retail business of hauling relatively small loads over relatively small distances, quickly and conveniently.

Introduced by D. V. Gonder of Moncton, vice-president and general manager of the CNR's Atlantic region, Dr. Solandt dealt mainly with the railroad's research program, particularly as it is being applied to freight transportation.

He said the "great bulk" of this research is aimed at improving the efficiency of rail operations.

In a brief reference to passenger business, Dr. Solandt said
