Argentina Claims New Atomic Power Source

Three Dead, Six Injured In Fires; \$100,000 Loss Reported In Sarnia, Ont.

MONTREAL, March 25 (CP) - Two men were burned to death and two other persons, including a pregnant woman, were taken to hospital Saturday night when a two-alarm fire raged through three houses, forcing 23 families to evacuate.

Bodies of Roland Joannette, 32, and Robert Hamel, 25, were found among the ruins. Hamel was a roomer in the house where the blaze broke out, while Joannette was visiting at one of the homes.

Mrs. Marie Defosse was taken to hospital suffering shock. Later she gave birth to a still-born premature baby. A fireman, R. Dumes, also was taken to hospital with minor cuts to the hands.

The blaze, of unknown origin, broke out in a three-story brick house and quickly spread to adjoining structures. Residents of 23 flats were evacuated at the height of the outbreak and considerable water, smoke and fire damage was reported in most of their homes.

Flames were brought in check an hour after the second alarm. SARNIA, Ont., March 25 (CP) - One man was killed and four others injured Saturday in a seven-hour blaze which raged through six buildings and caused damage estimates ranging beyond \$100,000.

Firemen from three departments fought the flames. Rumors that three others, including two children, were missing caused a search of the ruins. The only body found was that of 58-year-old George Sorbes, a dishwasher.

Those injured were Amos Crist and Nick Keravodos, restaurant employees, and two firemen, Assistant Fire Chief George Eason and Richard Smith.

Crist and Keravodos were treated at hospital for cuts suffered when they broke a window in their apartment to escape. The firemen were given first aid at the scene for cuts.

The fire broke out shortly after 8 A.M. EST and was brought under control about 3 P.M. It left in its wake two gutted buildings in the row of old, two-story brick structures on downtown Front

Mrs. Morrow-Tait Weds Navigator

BURY ST. EDMUNDS, England, March 25 (AP) - Richarda Morrow-Tait, 27, who holds the world record for a flight around the world, has married Michael Townsend, her navigator most of the trip. Saturday's announcement of the wedding said it took place last Tuesday.

Mrs. Morrow-Tait was divorced by her husband, Norman Morrow-Tait, Feb. 2. He named Townsend as co-respondent and a divorce judge ruled she had misbehaved with the navigator on the long flight.

She left England Aug. 18, 1948, but wrecked her plane in Alaska. She got another one by working at various jobs in Canada and the United States and finally finished the flight Aug. 19, 1949. She has two children.

Crime Probe Poses New Question For Television

NEW YORK, March 25 (AP) - Something unbelievably big and emphatic smashed into the homes of millions of Americans last week when television cameras were trained on the Kefauver crime committee's hearings in New York.

Nothing quite like it had ever happened in any country. The audience was estimated at nearly 30,000,000 at the peak. This depressed retail sales in New York by 23 per cent, necessitated extra generators to handle the bigger electrical load, and contributed to absenteeism in the factories.

The presentation was flashed to 21 widely-separated cities. On one day, ratings fixed the number watching in the New York area alone at 3,000,000. Along with this, newspaper circulation went up.

Crime, or the whisper of crime, especially in high places, entangling notable names, and with overtones of money and murder was the picture that went out over television. It held millions of people spellbound. Moreover, it stirred quick and powerful reactions.

Senator Charles Tobey (Rep., N.H.) and Congressman Jacob Javits (Dem.-Lib., N.Y.) suggested that some debates and hearings in Congress be televised.

Many Scientists Call Claims 'Fantastic'

By Joseph F. McEvoy BUENOS AIRES, March 25 (AP) - Argentine scientists have produced atomic energy by a new method much cheaper than the usual processes and are probing problems of the hydrogen bomb, President Juan D. Peron announced Saturday.

He said the atomic energy will be developed on a big scale and harnessed exclusively for industrial use. Sarnia's three pieces of fire apparatus were joined by an engine from Port Huron, Mich., across the St. Clair River, and by firemen from the Polymer Synthetic Rubber Corporation. In addition, the Sarnia Township Fire Department stood by ready to combat any fires elsewhere in the city.

No Plans To Extend War To Chinese Mainland

UNITED NATIONS, N. Y., March 25 (AP) - The United States said Saturday it has no plans to ask the United Nations for permission to extend the Korean war to the mainland of China.

Gen. Douglas MacArthur said Saturday "A decision by the United Nations to depart from its tolerant effort to contain the war to the area of Korea, through an expansion of our military operations to their coastal areas and interior bases, would doom Red China to the risk of imminent military collapse."

While declining direct comment on the General's remarks, the U. S. delegation intimated that the U. S. has no intention of pressing the U. N. to make such a policy shift. Neither U. S. nor U. N. officials had been informed in advance of MacArthur's statement and were taken by surprise. There was considerable resentment among Western diplomats that the U. N. commander should express himself so freely on subjects in which they are intimately concerned, without prior consultations.

Government circles in Paris indicated they might approve MacArthur's peace efforts but could not approve the threats of extending the war. This view seemed to be general here too.

Canadians Buy More Motor Cars

OTTAWA, March 26 (CP) - Canadians, more eager to drive than walk, purchased almost \$60,000,000 worth of new passenger cars in January compared with \$42,000,000 last year.

The greatest sales, said the Bureau of Statistics in a report Saturday, were made in Ontario, where dealers chalked up \$25,000,000 worth of new passenger car accounts.

Total units involved in sales across the country climbed to 26,126 in January, a boost of 5,000 over the 21,107 in January last year.

Blame Poison Liquor For Deaths

WINDSOR, N.S., March 25 (CP) - Two residents of nearby Five Mile Plains died this morning and five others are in serious condition in hospital here suffering from what is believed to be poisoning from drinking a home-made beverage.

The dead are Clifford Sampson, 50, and Harold States, 50. On the danger list are Gerald Duncan, Clifford Upham, Miss Myrtle States, Ralph States and Mrs. Joseph Turner.

A coroner's jury was empaneled today and an autopsy will be made probably on Monday.

Millions Join In Easter Celebration

By the Associated Press The voice of millions of Christians all over the world rose Sunday in a fervent Easter prayer for peace.

In free countries and in those locked behind a curtain of official atheism, people thronged to churches to celebrate the resurrection of Jesus Christ, the prince of peace.

The joyous ringing of bells was carried all across the Judean hills from Bethlehem to Jerusalem as thousands of pilgrims flocked to the site of the holy sepulchre, and through the winding streets of the ancient city—now held by the Arab kingdom of Jordan—where Christ made his tortured journey to Calvary.

The pilgrims to the Holy Land passed through barbed-wire entanglements—Jerusalem's present-day crown of thorns—past the armed guards of Israel and Jordan.

The Pope, standing on the Central Loggia of St. Peter's Basilica overlooking the huge square in Rome, made a fervent appeal before a throng of 100,000 for brotherly accord to free the world of lust and violence so that people might live and work in peace. His blessings to the world were broadcast and relayed over the radios of many lands.

Three Warships Join In Search For Big U.S. Plane Missing On Ocean Flight

SHANNON, Republic of Ireland, March 25 (AP) - The United States navy sent three warships tonight to join one of the biggest air-sea searches in history for a U. S. Air Force Globemaster, which disappeared in the Atlantic on Good Friday, with 53 American airmen aboard.

Today about 35 planes, a British submarine, an ice breaker and two weather ships criss-crossed the search area, but found no trace of the Globemaster. Hope faded fast that any of those aboard would be found alive.

The aircraft carrier Coral Sea and two destroyers, en route from Norfolk, Va., to the Mediterranean, were diverted to the Atlantic area 600 miles southwest of Shannon where the search is under way.

A navy spokesman said the 45,000-ton Coral Sea's planes are ready to take off as soon as they are within effective range of the area, possibly tomorrow.

The Globemaster vanished while flying from Limestone, Maine, air base to a U. S. base at Mildenhall, England. Among those aboard was Brig.-Gen. Paul T. Cullen, deputy commander of the U. S. 2nd Air Force at Barksdale Field, near Shreveport, La.

More than 30 planes were patrolling the Atlantic for trace of the plane, but hope for survivors dwindled almost to zero as the planes from Shannon, Northern Ireland and England reported "still no news."

An American cargo ship, the General Muir, and the U. S. N. destroyer Golden Eagle joined other ships in the search for the plane—one of the biggest air-sea rescue searches ever organized.

During Saturday night the round-the-clock search, unofficially "still no news."

The majority of senators and congressmen are opposed to televising the proceedings.

The main objections, legislators said, were that there would be "too much mugging, grand-standing, playing to the cameras and talking for effect. Too little work would get done."

A leading New York lawyer, Col. Harold Riegelman, expressed similar opinions with respect to televising court cases, especially the highly-seasoned criminal trials.

"People are frequently nervous anyway when they are testifying. The knowledge that thousands were watching over TV would undoubtedly increase that nervousness and impair the efficiency of a witness to a point where he might be completely useless."

Naval Party Makes Hit-Run Raid On Coast

TOKYO, March 25 (Monday) (AP) - South Korean army patrols repeatedly punched north of the 38th parallel near Korea's east coast Sunday while naval headquarters disclosed a landing-party raid deep inside the Communist north on the west coast.

The South Korean sailors' hit-run landing took place Saturday on the Wolsa peninsula, 50 miles north of the old political boundary.

It was near the Taedong River estuary leading to Chinnampo, port for the Korean Red capital of Pyongyang. The raiders killed 100 Communist soldiers and captured 69 and some equipment. No other details were given.

The area has been the scene of much anti-Red underground activity. South Korean army headquarters announced its forces driving north from Kangnung on the east coast had reached the 38th parallel and sent patrols frequently north of that line.

Both actions were announced as the Korean war entered its 10th month.

Fighting limited. Most of the front was waterlogged and fog-bound Easter Sunday. Fighting was limited to armored patrol skirmishes.

A pelting day-long rain, first of this spring, grounded Allied planes and turned roads into quagmires.

The inclement weather and sharp censorship by U. S. Eighth Army authorities obscured details of the three-divided Allied offensive on the western front, north of Seoul.

AP correspondent William C. Barnard was able to report, however, that Chinese forces were withdrawing northward toward the 38th parallel in a sector northeast of Seoul. American and South Korean troops there reported only light patrol contact with the retreating

Missing B. C. Plane Is Reported Safe

VANCOUVER, March 25 (CP) - A missing Queen Charlotte Airlines plane was located today, forced down at an isolated inlet on the rugged west coast of Vancouver Island.

The pilot and two adult passengers were sighted standing on the wings of the pontoon-equipped plane, while two children were believed safe inside the cabin.

Heavy Program Facing Commons After Easter

OTTAWA, March 25 (CP) - The House of Commons, adjourned until April 2 for the Easter recess, has only nibbled at the Government's legislative program for the session.

The Speech from the Throne, read at the opening of the Parliament Jan. 30, forecast a lengthy list of legislative measures. Two of the most important have been passed.

One provides for the establishment of a new Department of Defence Production. The department will have broad powers to direct the procurement and production of material needed by the defence forces.

A second measure gives the Government wide powers to impose price, wage and other controls when it considers them necessary.

When members return, they will find the bulk of the work still ahead of them.

Finance Minister Abbott will bring down his budget probably about April 10. Although he has a surplus of about \$50,000,000 now, he still is expected to announce increases in taxes.

The surplus will be whittled down by defence expenditures before the fiscal year ends March 31. Then he will have to plan for the coming year.

Paris Conference Has Magnified Differences Between Russia, West

PARIS, March 25 (AP) - Three weeks of East-West talks have magnified, not diminished, differences between Russia and the West over two of today's gravest international issues. "Any other interpretation," said an official of one of the Western delegations, "is an ostrich-with-his-head-in-the-sand attitude."

The Big-Four deputy foreign ministers decided Saturday to continue their deadlocked discussions here Tuesday, by which time Soviet Deputy Andrei Gromyko may have fresh instructions on Russia's attitude toward a top-level conference.

The two top issues are: 1. Western rearmament, and particularly the rearmament of Western Germany. 2. The level of arms of the four great powers and those of a number of countries allied with them.

Delegations from the United States, Russia, Britain and France met here first March 5. In previously-exchange notes they agreed their job was to draw up a list of subjects which could form the basis of discussion at a foreign ministers' conference, designed to ease world tension.

Last week Gromyko pinpointed the issues most interesting to the Russians. They are: 1. No rearmament of Western

Burglars Get Candy, Cigarettes At Reddin Bros.

A large quantity of candy, cigarettes and other materials was stolen from Reddin Bros. Drug Store on Richmond Street sometime Saturday night or Sunday morning. The break was discovered about 10 o'clock yesterday morning.

Among the materials stolen were pen and pencil sets, Ronson lighters, pen knives, wrist watches, chocolate bars, chocolates and various assortments of candy. Entrance was gained through a rear window. No arrests have been made.

Windows were broken at the rear of Crockett and Storey's and the Massey Harris shop on Kent St. No theft was reported.

Seeks Holsteins For Spring Sale

Mr. Lorne Franklin of Brantford, Ontario, arrived in the Province last night to seek a number of Holstein cattle for the annual National Spring Sale which will be held in Toronto or Oakville in May. Mr. Franklin is in charge of the National Sale.

After his arrival in the Province he visited Premier Jones and toured the Premier's cattle barn. He will view the Premier's cattle in daylight today and will start his tour of other top ranking Holstein farms here.

Several Island farmers have had Holsteins sold for them by Mr. Franklin last night he noted that he had always received a good consignment from this Province.

Canadian Foreign Trade Report

OTTAWA, March 26 (CP) - Canada's foreign trade continued to forge ahead at record levels in February, but for the second month in a row the country ended up with a deficit.

Exports totalled \$286,000,000—a record for the month and a gain of \$35,000,000 over the \$251,000,000 in February last year, the Bureau of Statistics reported in a preliminary estimate Saturday.

But demand for imports expanded with the influx reaching 200,000,000 over the \$200,500,000 during the same month last year.

Thus Canada ended up with a deficit of \$37,500,000. Added to the deficit of \$38,400,000 in January, it brought the total adverse trade balance a \$75,900,000 for the first two months of 1951.

Traditionally, Canada has been able to produce a surplus in her foreign trade most of the time. Last year, however, she slid into

Report Spain Ready To Sign Alliance With U.S.

WASHINGTON, March 25 (AP) - The Spanish Government is reported ready to sign a direct military alliance with the United States modelled after the North Atlantic Defence Pact.

Generalissimo Franco, officials said, has informed American Ambassador Stanton Griffiths of this during informal talks in Madrid.

The Spanish leader is also reported to have expressed willingness to consider a triangular defence alliance linking Spain, Portugal and the U. S.

Both offers, however, were said to be conditioned on an American guarantee that the U. S. will ship Spain enough arms to modernize its armed forces.

Diplomatic informants told a reporter that Franco has advised Griffiths:

1. If the U. S. agreed to negotiate a military pact with Spain, the Spanish Government would be willing to accept all commitments contained in the 12-power North Atlantic Defence Pact.

2. Spain would be willing to consider an attack on any of the 12 member countries as an attack on Spain, and would be willing to provide full military assistance to the threatened country.

3. The Spanish Government is prepared to move its army beyond the Pyrenees into Western Europe, if desired, to help repel such aggression in co-operation with North Atlantic Pact armies.

Members of the North Atlantic Treaty are Canada, Britain, the United States, France, Italy, Belgium, The Netherlands, Luxembourg, Norway, Denmark, Portugal and Iceland.

Although Griffiths is reported to have talked to Franco about defence problems on instructions from the State Department, it appears virtually certain the U. S. will move cautiously before any acceptance of Spain as a military partner.

Idle Gossip and Truth Are Total Strangers

Idle gossip and truth are total strangers. The weather is fine in the Maritimes and Eastern Quebec. Skies are clear in most sections, and temperatures are in the 20s and 30s. Dry, cold air flowing into the district from the west is the cause of the fine weather. This air will continue to cover the district tomorrow and there will be little change in the weather.

Regional forecasts, Prince Edward Island—Clear with a few cloudy intervals. Colder. West winds 15 becoming light by afternoon. Low and high Monday at Charlottetown 24 and 35.

High tide today at 12:47 A. M. and 12:34 P. M. Sun rises at 6:06 A. M. and sets at 6:32 P. M. Summerside tide eighteen minutes later than Charlottetown.
