

A Soulless Man.

A DEAD MAN RESTORED TO AUTOMATIC LIFE—HIS SPIRIT FLED, LEAVING ONLY A MACHINE.

Nothing more marvellous than the following story, told in the letter of a Globe-Democrat correspondent has ever been in print. It rivals the fantasies of Edgar Poe. Under the date of New York, the 19th inst., the correspondent says: Yesterday your correspondent called Dr. Clarence Bigelow's attention to an article printed recently in the city newspapers, descriptive of an Australian discovery whereby cattle can be frozen, laid away for weeks, and then brought back to life and genuine activity. The purpose of this discovery is to ship live meat in iceboxes, and kill it on the other side of the ocean after it is thawed out again. In this way the cost of food and attention can be dispensed with while at sea. In case of emergency a man travelling from California can buy a first-class ticket for himself, and ship the rest of the family, including the mother-in-law in patent refrigerator. At the terminus of his journey he could restore his children to their youthful vigor, and his wife to her proper station at the wash-tub or cook-stove.

Your correspondent asked the doctor what he thought about it. 'It is nothing,' said he, 'to the great crowning effort of medical science that I witnessed a few nights since.' 'Pray, what was that?' was asked.

THE DEAD TO LIFE.

The doctor reflected for a few moments, and then he spoke as follows: 'When you publish what I am about to tell you it will set the whole country ringing. Accompanied by my friends Judge Warren and Dr. Chambers, I went last week to one of the up-town hospitals, whither we had been invited by Prof. Doremus and the house physicians. On our arrival we were shown at once to the dissecting room. At the foot of an amphitheatre of seats stood a long table, on which rested some immovable object, covered with a white sheet. Most of the seats were occupied by medical students from the Bellevue and Roosevelt hospitals. Myself and party were assigned to chairs on the platform. Shortly after eight o'clock the white sheet was removed, and I saw on the table the nude body of a man. Presently Dr. White stepped down by the table and said:

'My friends, the body before me is that of a man who bled to death. He was employed in a planing mill on West Sixteenth street, near North river. He fell against one of the swift revolving saws, one of the large arteries was severed, and the blood which is life, flowed out before assistance could arrive.'

THE VITAL FLUID.

'The doctor paused,' continued Dr. Bigelow, 'for a few moments, looking, meanwhile, attentively at the body. Then he continued: 'There is a mere cessation of life, because the blood was diverted from its natural channel. I can discover no injury save the severed artery. It is absolutely necessary to the success of the experiment we are about to witness that the organs of the body be uninjured, for any material injury to any organ—I mean vital organ—would preclude the possibility of its performing its functions, since science cannot restore the organ. But where the action of the organ is interrupted by some cause that does not materially injure the organ, then I believe that the organ may be again compelled to perform its duty. As the great wheel of a mill may be stopped by shutting off the water, so may it be made to revolve again by turning the water on, thus the blood, which turns the wheels of the body, having been diverted, the wheels stopped, I claim that this body may be brought to life. Whether the soul has departed and can be brought back, or whether the mind may be restored, I cannot tell; but I believe I can again set at work every material organ of this body. I have carefully closed up the severed arteries.'

(Concluded in our next.)

Liver is King.

The liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with dyspepsia or liver complaint, and all the numerous symptoms that result from an unhealthy condition of the liver and stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

CATARRH.

Constitutional Catarrh Remedy CURES CATARRH.

Hear what a Reverend Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., Brockville, Ont.:—DEAR SIR—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case described in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your agent came to Walkertown in August, 1876, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head. A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper Yours truly, W. TINDALL, Methodist Minister. Port Elgin, Ont., Aug. 24, 1878.

Ask for Littlefield's Constitutional Catarrh Remedy and take no other.

T. J. B. HARDING, Dominion Agent, Brockville, Ont.
