Mrs. Kenneth Beer entertained at her summer cottage in Mar-

Strange But True

year. Not one of these answers is entirely correct. February is the only month consisting of 4 weeks, and it has more than that in leap year; the other months have either 30 or 31 days, neither of which is the 12th part of a year. Formerly a month meant the time of one revolution of the moon around the earth, equal to 29 days, 12 hours, 44 minutes and 3 seconds. Ten such months made up a year in ancient Rome. March was counted as the first month. Jaynee Paul, 11, broke her left arm playing softball at the Glendale School in Glendale, California. On the other side of the school playground during the same recess, her sister, Jerri, 9, fell and broke her right arm. Both sisters had their arms set at Glendale Sanitarium on April 7th.

What was believed to be one of the smallest colts ever born arrived on the farm of Eddie Flakes of Red Bank, New Jersey, on April 7th, last.

The midget horse weighed 13 pounds and stood 20 inches high. Its twin died within 24 hours.

The job of feeding the tiny filly fell to Mrs. Flakes. Why? Because the foal couldn't reach her dam. Maize, for feeding.

Normally, a foal weighs 75 pounds and is 40 inches high at birth. In comparison, this midget horse is a little wonder.

Now the \$64 question to her owner is: Will she ever get big enough to be raced? Frankly, he won't hazard a guess, but just in case her owner had entered her in the 1956 New Jersey Futurity Stakes.

The little horse's sire won \$130,675 during his racing career. The gate on Thursday evening, honoring Mrs. John Daley.

Mr. and Mrs. Murray Hirtle, with their son Jeffrey, who have been holidaying with Mr. and Mrs. J. W. Lecky, Summerside, returned this week to their home in Mahone Bay, N. S.

Mr. and Mrs. George Gay with their children, George and Judy of Montreal are vacationing in Summerside, guests of Mr. and Mrs. Clifford Rankin.

Miss Bertha Ramsay has returned to her home in Summerside after spending a month with her brother-in-law and sister, Mr. and Mrs. James Sanders, Readville, Mass.

Mr. and Mrs. George R. Schurman and son Rankin of Shreveport, Louisiana, are vacationing in Summerside, guest of the former's parents, Mr. and Mrs. Benjamin Schurman.

midget foal may yet grow up to show horseracing fans some real speed. Dr. L. K. Zillinski and Mrs. Zillinski of Kinkora and Kensington, have three children, a daughter born in Egypt, a son born in England, and a second daughter born in Summerside, Prince Edward Island.

The first railway train which ever ran was used on the road from Liverpool to Manchester, England. The company printed a set of rules called "Rules for travelers." Copies were posted along the right of way. (1) Any person desiring to travel this route, must, 24 hours beforehand, make application to the station agent at place of departure, give his name, address, place of birth, age, occupation, and reason for wanting to travel.

(2) The agent, upon satisfying himself that the applicant desires to travel for a just and lawful cause, shall thereupon issue a ticket to the applicant, who shall travel by the train named thereon.

(3) Trains will start at their point of departure as near schedule as possible, but the company does not guarantee when they will reach their destination.

(4) Trains not reaching their destination before sunset will put up at one of the several stopping places along the route, for the night, and passengers must pay and provide for their own lodging during the night.

(5) Luggage will be carried on the roof of the coaches. If such luggage gets wet, the company will not be responsible for any loss attached thereto.

We have come a long way in rapid transportation since the copy of the rules for travelers on the first railway were posted. The suffering in the next war will be beyond the human mind to conceive. What with the portable use of poison gases, hydrogen bombs, germ warfare and other scientific inventions, it will be greater and more destructive than all past conflicts put together.

In other words, and summing it all up the next world conflict may be the Armageddon of the Apocalypse.
