

THE DAILY EXAMINER. FEBRUARY 13, 1892.

East Elgin.

YESTERDAY was another very cold day for the Grits. The remarkable triumphs of Thursday were followed yesterday by a splendid Liberal-Conservative victory in East Elgin.

Liberal Measures.

THE Liberal element in the British Government seems to be exerting the preponderating influence over domestic legislation.

University Extension.

THIS is one of the grand forward movements of the present age by which the possibilities of the highest education are brought within the reach of all who have the inclination and perseverance to secure it.

By the University Extension Movement, competent lecturers are sent round to the people wherever there is an opportunity of forming a class, and the same instruction is given as in the University itself.

In a week or two an extension class of the Mt. Allison University will be opened in Charlottetown, and we trust that many of our talented and aspiring young people will avail themselves of this excellent opportunity to obtain the advantage of a perfect science course.

The lecture course here will be in connection with the Mount Allison University, but arrangements are being completed by which the standing obtained by students will be equally available for any other university.

Notes and Comments.

REMARKING upon the causes of the recent defeat of the Scott Act in St. John County, the Globe, of St. John says: "This must not be taken as an indication of a decline of either temperance sentiment or practice, but as the act is so difficult of enforcement it causes so much litigation that and does not appear to do any real good, the people are tired of it."

Table with 3 columns: Constituency, Members Elect, and Maj. Lists constituencies like Victoria, N.S., and their respective members and majorities.

MONTREAL GAZETTE: Sir Adolphe Caron has published the receipts given to him by Mr. Thomas McGreevy for deposits held by the ex-member for Quebec West, and upon which Sir Adolphe drew for the sum paraded by the Globe's anonymous correspondent as a proof of Conservative corruption.

Imperial and Colonial Trade.

SIR MICHAEL HICKS BEACH SITS UPON MR. LOWTHER AND HOWARD VINCENT.

A recent despatch from London says that Wednesday night's debate in the house of commons on Mr. Lowther's motion to terminate treaties hindering preferential inter-imperial trade, was very disappointing to the friends of the colonial free trade movement.

Personal.

Mrs. Sarah Thompson died in West Oxford on Saturday, aged 105 years. The Russian Minister of War has complained that the measures taken to transport food to the famine stricken sufferers have disturbed the plans of army mobilization.

Canadians have a warm place in their hearts for the popular Earl and Countess of Aberdeen. The latter is well known as taking a deep interest in the affairs of Ireland ever since her husband was Viceroy, and the Irish Times recently contained a deserved tribute to the work she has done for the people in the Green Isle.

News Notes.

Ruinous floods have taken place in parts of New Zealand.

Canadian trade with the West Indies is growing rapidly.

The factions in Brazil are still quarrelling and serious trouble is expected.

A rich vein of coal has been discovered in Ireland, between Dungannon and Cookstown.

The popular agitation against Germany's secretarian education bill is spreading throughout the empire.

Edward and William York and W. A. Elliott were fined \$50 and costs each in London in connection with the cattle debarking.

The fact that Canadian agricultural implements can go to foreign countries and sell well there is at once a proof of their excellence and their low price. In 1891 Canada exported \$252,620 worth of these implements.

Religious Services.

Rev. Mr. Taft, of Bedoue, will preach in St. James' Church to-morrow morning and evening.

St. Paul's Church.—Services to-morrow: Holy Communion at 8.30 a.m.; Morning Prayer and Sermon at 11 o'clock; Evening Prayer and Sermon at 7 o'clock.

St. Peter's Church.—Services to-morrow: Holy Communion at 8 a.m.; Morning Prayer and Sermon at 11 o'clock; Evening Prayer and Sermon at 7 o'clock.

Gospel Meeting.—Remember the Gospel Meeting to-morrow afternoon at 4 o'clock in McLeod's Hall, conducted by the Railway men. Strangers always welcome. Lesson: Matthew 13.24, "The Parable of the Tares."

Raplat Church Services.—The pastor, Rev. J. A. Gordon, M.A., will preach at 11 a.m. Subject: "Profit and Loss." And in the evening the subject will be "The New Covenant and its Stipulations." Sabbath School and pastor's Bible class at 2.30. The series of special meetings will be continued each evening of next week.

The St. John Sun remarks that the organs of the Opposition appear to be ably giving to the public the information that the leaders of the party have come to the support of Mr. Thomas McGreevy and the Connolly brothers against a cruel and oppressive government.

A REMEDY that is endorsed by physicians must have some merit, for no physician of any standing will place his seal of approval on a preparation unless he knows it to be good. Now Estey's Emulsion of Cod Liver Oil is not only endorsed by physicians but largely used by them in their practice.

QUEBEC, Feb. 11.—A mandament signed by all the bishops of the province will be read on Sunday, in the Catholic churches of the province. The document is aimed at bribery, which is so prevalent at elections. In the case of the penitent having accepted a bribe for his vote, no absolution will be given at confession, but the matter will have to be submitted to a higher ecclesiastical authority for investigation.

AS A REFORMER of the system after the weak effect of a gripe, Campbell's Elixir of Life seems to be all that could be desired. It is pleasant to take, and has been used by the foremost physicians of Montreal, with most gratifying results. Price \$1.00 per bottle. For sale by A. S. Johnson.

What Mr. Tarte Says.

THE GLOBE ALTOGETHER OF THE WRONG TACK—NO IRREGULARITIES.

The Empire, thinking that an interview from Mr. J. Israel Tarte would be of interest at the present time obtained the following:—

Mr. Tarte said that he had received money from Mr. Thomas McGreevy for expenditure in the election of 1887, but this money was not for himself. "I was sent by Sir Hector Langevin and Sir A. P. Caron, as I suppose a score of other friends were sent, and none of us—I must say that for my Conservative friends as well as for myself—knew at that time that Mr. McGreevy had any connection with the Connolly's. When, therefore, the Globe tries to make the whole Conservative party of that time responsible for McGreevy's actions, it is on the wrong tack altogether. I am not acting to-day with the Conservative party, but I will not be unfair to them, because, as I say none of us knew at that time that Mr. McGreevy was perpetrating frauds, for, had I known it, I would not have gone to them at all. The Globe is trying to make people believe that the Conservative party at that time knew that McGreevy and the Connollys were defrauding the public and that we were accomplices with them, that is not true."

"Who do you think is the Globe's informant?"

"Why, Thomas McGreevy himself. How could it be otherwise? Who could have given those letters but Mr. McGreevy himself? I do not care about the matter, but I am sorry the Globe has taken the course it has, as its conduct is most unfair."

I am not alarmed, however, about the Globe's threats. I only received a few hundred dollars for the counties of Charlevoix, Bellechasse, Quebec and a few others. At that time I was one of the Conservative party organizers, and, if you remember, I myself asked last session that the receipts be placed before the committee. I was perfectly certain I did not receive any money for myself. I was not a candidate, and I may add that \$5,000 of my own money went into McGreevy's hands for the benefit of the party."

"What do you propose doing if the matter is brought up in the House at the coming session?"

"I have no other answer than this: The money was subscribed and used by the Conservative party for legitimate purposes. If Mr. McGreevy and the other people did wrong we were not aware of it. I do not deny having used money in elections. Those who have had the experience know that money is required for perfectly legitimate purposes. I am just now writing an editorial asking the Globe if, while publishing these statements about me, it reflects upon the record of its own party as shown by the courts at the last general elections. I wish I never did any more harm than spend money legitimately in elections. To my knowledge nothing wrong in the elections of 1887."

LETTERS TO THE EDITOR

The Pumping Shaft for the Tunnel.

SIR,—I observe that the editor of the Patriot insists upon the necessity of sinking the "pumping shaft," recommended by Sir Douglas Fox in connection with the test borings to be made on the line of the P. E. Island tunnel. I beg to remark that, however agreeable it might be to intending contractors to have the bed for the proposed tunnel opened up in every direction for their inspection, as this pumping shaft, while a costly affair, will not explain anything of importance as to the borings are made, it is a pity to urge for unnecessary expense and delay in the approaching survey.

The pumping shaft would not penetrate one half the beds which the boring will. It could only show what leakage might occur in its own vicinity, and would not explain the hydraulic character of the beds penetrated by the main submarine tunnel, which would be entirely different strata. This pumping shaft would be valuable in the construction for pumping and ventilation, but is not necessary in the survey.

Re Mail Carriers.

SIR,—Of all other places Murray Harbor North has the least cause to complain, and the most cause to feel proud of its mail services. Our carrier is Mr. Richard Thomson, who has not missed—through storm and shine—a single day this winter, not, in fact, since he began to drive the mail. That is, he has never been compelled to let one mail day wait for another. It is no small privilege for a settlement to be favored in this manner; and we advise Mr. Vishey and all other delinquents of his stamp to go and do likewise.

MURRAY HARBOR.

SIR,—Since the Conservatives have gained all the votes in the recent election, it would be heartless to refuse our Grit friends the *Ped*.

Mount Stewart Notes.

It is said,— That P. and M. look well after their nine days sojourn in jail. That the man with the "convenient memory" furnished the oil grates for the torchlight procession in honor of the event. That Mr. Sutherland's lecture had not the attendance it deserved. That politics had something to do with the smallness of the audience. That politics are very much out of place in a church.

That we are soon to have a "free-thought" association. That with four Christian churches in the vicinity this should not be.

That it's time James R. McEwen was replying to Mrs. Coffin's letter.

Sliding and Detachable Watch Springs,

Superior to Whalebone, Horn, Rad, Cord or any other compound of Mexican Grass.

This is the most PRACTICAL and COMMON SENSE invention of the present period.

The Springs are very FLEXIBLE, and LIGHTER and yet MORE DURABLE than any stiffener heretofore used in Corsets.

They are not fixed permanently in the pockets, BUT ARE SUSPENDED, yielding to every CONCEIVABLE MOVEMENT of the body—whether bending, sitting or stooping—and CANNOT PENETRATE the material of the Corset.

These Springs are UNBREAKABLE, of which any Lady can convince herself by simply removing one of the SPRINGS and testing the same. With each Corset TWO EXTRA SPRINGS are enclosed, which can also be used for DRESS STEELS.

The Corset is so constructed that it can actually be STIFFENED or BONED by the wearer AT HER OWN PLEASURE. If the Corset should hurt on the side, a complaint so general to other Corsets, THE SPRING CAN BE REMOVED. This can be accomplished by simply raising the flaps and withdrawing as many springs as the wearer may find convenient.

The WATCH SPRING, owing to the many superior advantages which it possesses, is to day the CHEAPEST and MOST DURABLE Corset ever offered to the public, and one which will be MOST ACCEPTABLE to the wearer.
