

THE POPULAR CANDIDATES

KING'S: A. C. Macdonald. WEST QUEEN'S: Dr. Jenkins. EAST QUEEN'S: Alexander Martin. WEST PRIZE: Edward Hackett. EAST PRIZE: Richard Hunt.

THE DAILY EXAMINER.

JUNE 18, 1896.

SENATOR WOOD'S VISIT.

During the walk and conversation of the gentlemen who have recently visited this Province and addressed the people on the issues of the day, an impartial and unprejudiced observer must conclude that Sir Charles Tupper is fortunate in his friends and supporters. It was remarked by an observer here that "no one would take Mr. Dickey to be a member of a boogie government." The same remark, slightly altered, might be made concerning the Hon. Senator Wood. A man of high character, as well as position and ability, his words must be influential over an intelligent electorate willing to be convinced by the weight of fact and argument. This is particularly the case in the discussion of the Manitoba question. Senator Wood is a strong Protestant and an able lawyer. He is, moreover, above the suspicion of being induced to "play into the hands of the Catholics." He goes to the root of the matter, shows that the Confederation compact provided an assist interference by the Government of the Province with the denominational schools in existence at the time of the union and subsequently established, traces the course of the difficulty from the beginning, describes the various proceedings taken before the courts, interprets the judgments of the Privy Council, and declares that as a Protestant he is forced to admit that the compact has been violated by the Greywater Party, and that the Government and Parliament of Canada are, in good faith and honor, bound to remedy the grievance which has been declared to exist. His explanation of the Manitoba case last evening was exceedingly effective; and we have no doubt that it will be equally so at Montague this evening and at Murray River to-morrow evening. In respect to the trade question also, Senator Wood's appeal to the logic of accomplished facts is overwhelming.

RESULT OF THE CONSPIRACY

Is the course of his rattling speech delivered at Souris last evening, in support of the candidature of Mr. A. C. Macdonald, John McLean, Esq., touched upon a very suspicious circumstance. He pointed out that the Liberal-McCarthy-Patron negotiations were begun as early as the first of January—just before the meeting of Parliament, and were going on when the Liberal caucus was held; and he argued that the Parliamentary obstruction to defeat the Remedial Bill, the motion for the six months' hoist, etc., all resulted from the combination then formed. We have no doubt that Mr. McLean's conclusion is right. McCarthy and other disgruntled politicians wanted the Manitoba School Question kept open as a means of stirring up religious discord and dividing the people at the polls; and Mr. Laurier and most of his followers were constrained, in order that a party triumph might be obtained as against the Government, to follow the plan of campaign—invented, probably, by Farrer. However this may be, the people are now compelled to vote upon a question which ought never to have been brought up at an election, and will be obliged to pay the cost of an additional session of Parliament, amounting to about half a million dollars.

A "JUG-HANDLED" PROPOSAL.

The Montreal Star remarks that whatever may be said in favor of coming to an agreement with the Americans to take down the two tariff walls that follow the border—and the Canadian electorate pronounced judgment in '91 upon the best that could be said for this proposal—certainly no one can offer a plausible reason for tearing down our wall while the American barricade remains standing. This would mean: (1) That the American farmer would share our market, but that the Canadian farmer could not share his. (2) That the American manufacturer could slaughter his surplus output in Canada, thus keeping his own market from demoralization, and that the Canadian manufacturer would have no such privilege in the United States. (3) "That the American farmer and manufacturer would have the custom of five millions of people added to their market, while the Canadian farmer and manufacturer would not gain a single new patron. (4) "That our farmers and manufacturers would thus be forced into competition with farmers and manufacturers possessing a market of seventy millions, while they would only be compelled to meet our competition in five millions out of the seventy. (5) That it would be very easy for the American manufacturers, with their own market safe, to set systematically at work to destroy our manufacturers by underselling them all over Canada for a time, while our manufacturers would be absolutely unable to strike a single blow in retaliation. (6) That the American farmer could make his Canadian rival share his hard times and come down to the lowest price the (the American) could get for any products he might have in abundance while keeping all his "plums" to himself. (7) That, in short, we would be giving the Americans a new market and getting nothing in return." These points, pithy and convincing as they are, ought to be cononed by every farmer in this province.

HONORS FOR THE MASTER OF THE ROLLS.

By unanimous election, the Honourable Edward Jarvis Hodgson, Master of the Rolls of this Province, was, at a Convocation meeting of King's College University, held yesterday, made Chancellor of the University. This is the highest honor in the gift of the University to bestow, and the Master of the Rolls succeeds the Very Rev. Dean Gilpin. Furthermore, the newly appointed Chancellor will have the honorary degree of Doctor of Law conferred upon him at the University which takes place to-day at Windsor. Dr. Hodgson already holds the honorary degree of LL. D. of Laval University, and in reason of his deep interest in University education the additional honors are conferred on our eminently deserving of the distinction. We congratulate Dr. Hodgson on the acquisition of his new dignity, and also the University in having filled the important position of the Chancellorship with a man of such acknowledged ability.

TRIED AND FOUND WANTING.

The Mark Lane Express, one of the leading British authorities on agriculture, when summing up the position of the English farmer last year, compared the prophecies of the great free trade leaders and the results, in the following pertinent way: "Prophecy—Land would not be driven out of cultivation by the repeal of the corn laws. Fact—Nearly 3,500,000 acres have been driven out. Prophecy—Land owners have nothing to fear from free trade in corn. Fact—Rents and agricultural land values have fallen from 30 to 50 per cent. Prophecy—In a country growing in population and advancing in prosperity, land always increases in value and without any help from the owners. Fact—If all the land in cultivation twenty years ago worth £50 an acre, and has fallen 40 per cent, that is a loss of £20 an acre. Prophecy—The land of England would produce 25,000,000 quarters of wheat per annum. Fact—In 1862 we grew 17,600,000 quarters; in 1892 about 7,000,000. Prophecy—We should always have a protection of 10s 6d per quarter on wheat in the shape of carriage from abroad. Fact—Freights for wheat as now below 2s a quarter, and it has been carried free as ballast. Prophecy—we might as well doubt that the sun would rise on the morrow as doubt that in ten years every civilized nation on earth would have followed our free trade example. Fact—Not a single nation on earth has followed our example, and are heavily taxing our goods in return for a free market here. The Montreal Gazette remarks that fifty years of experience in Great Britain has shown free trade, as respects the interests of agriculture, to have failed in every way to meet the expectations of its promoters. Farming land has fallen in value; rents have declined; considerable areas have gone out of wheat cultivation; the product of the wheat crop has been reduced two-thirds; no country has followed the British example.

THE LAST RESORT.

It is supposed that the time for discussion is past. The Grigs, beaten upon the stump, are now resorting to the whiskey bottle. We hope that all clergymen and respectable men of whatever denomination will unite to denounce this attempt to debauch the electors.

CAMPAIGN NOTES.

A Toronto paper asks: "Will the maintenance of 'rank tyranny' in Manitoba compromise Ontario for the upsurge of the industries and the destruction of its prosperity?" This is the question which prudent voters all over the country are asking themselves. Considerable interest has been aroused, which will have a leaning to the independent voter, by the speech made by Sir Charles Tupper at Exeter, Ontario, a few days ago, in which he denounced as a grit falsehood the statement made by Laurier that he (Sir Charles) was millionaire as the result of his political career. He said he was a poor man, and should he die now would leave less money to his heirs than did the late Sir John Macdonald. The speech made by Sir Charles effectively robs the grits of the canvass used extensively among independent voters.

Easter Advocate: The opponents of the Remedial Bill talk very glibly of the great principles involved. The great principle involved is simply the right of the Roman Catholics of Manitoba to spend their own money for the education of their own children, in accordance with the dictates of their own consciences—a right they bargained for and were solemnly guaranteed before Manitoba entered the union. They demand for a certain amount of money, but merely for their own money. Why not let them have what belongs to them? Why should we hump our backs, like cats in the presence of a strange dog, at a bill which provides that the school taxes which are taken from Catholics shall be returned to them for the support of their own schools?

Monoton Times: On Thursday last while Grit newspapers in the Maritime Provinces were sending broadcast the statement that Dr. Montague, Minister of Agriculture, had resigned because he could not endorse the Government's school policy, Mr. Montague was sitting on the platform with Sir Charles Tupper at St. Mary's in Ontario, before an audience of 5,000 people, and speaking at the great demonstration in London. The Minister is not enjoying very good health, and has been unable to speak as often as he would wish, and this fact is seized upon by the despicable Grit correspondents as an excuse for sending out reports that are absolutely untrue. A partisan press is laid in the eyes of some people, but a press so prostituted by partisans is not encouraging for those who would like to see our political contests conducted with some show of decency and honesty.

Creamery shipping butter to the Chicago market paid 4 1/2 to 5 1/2 cents per 100 lbs of April milk. Chicago Produce Report, June 13. Patrons of our Central Creamery received from 52 cents to \$1.10, an average of 60 cents! After all our dairy patrons receive more for their milk than those of the States.

THE METHODIST CONFERENCE.

At the opening of the ministerial services at 2.30, the President, Benjamin Hoyle, presiding, the Revs. C. Camber and F. W. H. Pickles led in prayer. On calling the roll 51 ministers answered to their names. The question of character was taken up district by district, and one name was entered as having resigned, and laid over until a future session. Probationers were passed on a stage—Henry Pierce and Hedy B. Balderson for ordination. Three Years' Probationers—Wallace H. Bryenton, Levi J. Leard, Hedy D. Marr, H. S. Young, Josiah Champlain, S. A. Bagley, J. A. Ives. Two Years' Probationers—W. J. Buchanan, L. R. McDonald, R. A. Colpitt, John Distant. One Year Probationers—R. J. Campbell, George Ross, W. E. Smith, R. G. Fulton, W. B. Tennant. The following candidates were received: Herbert E. Thomas, H. C. Rice, Ernest L. Smith, D. R. Chowan. The Rev. Dr. Carman is expected this afternoon, and he shall soon be in full swing of Conference work. The changes in the circuits on P. E. Island so far are as follows: Charlottetown—G. M. Campbell, W. J. Kirby, Little York—R. O. Cornwall, H. B. Baker, Winslow—W. J. Howard, Pownall—E. C. Turner, Venon River—J. McConnell, Montague—H. Peena, Murray Harbour—W. B. Thomas, Souris—J. S. Eby, Mount Stewart—A. D. McLeod.

SUMMERSIDE DISTRICT.

Summerside—R. W. Weddall, Bealeve G. C. P. Palmer, Tyson—J. Goldsmith, Margate—F. A. Waitman. River—H. Pierce, Balford—C. H. Minaton, Alberton—T. Hicks, West Cape—E. Slackford. The brethren are all in good feeling and a good conference is anticipated.

LITERARY NOTES.

The July number of the Delinquent is called the summer number, and is remarkable on account of several new departures. First and foremost is the addition of two superb colored plates—one devoted to ladies' misses' and children's fashions, and one to millinery and its accessories. The regular millinery department is also materially enlarged and improved. The magazine has been given a handsome new cover; its make up is changed and it is printed on finer paper than hitherto. Another innovation is the first of a new story by Julia Magruder. In addition to a complete illustrated resume of the season's fashions, this number is one making a special appeal to young mothers. Dr. A. Schreder discussing the care of the infant's health in summer, Eleanor Brown giving a delightful description of a baby's first reception party, and an illustrated article being devoted to infantile attire. Woman's opportunities are broadly considered by Mary Caldwell Jones, while the pursuit of literature as a profession is given experienced exposition by Agnes Reppier. Dr. F. J. Levisier continues his talks on health with instructions as to the care of the hair. In addition to a sprightly account of a fourth of July party, by Lucia M. Robbins, and a paper on the furnishing and decoration of dining rooms, by Frances Leach, there are the usual well-stocked departments devoted to table chat, reasonable cookery, household sanitation, new books, fancy articles and embroideries, lace making, knitting, tating, etc. With the added attractions of a great Woman's Magazine, its subscription price of one dollar a year is more than ever a marvel. Address all communications to the Delinquent Publishing Co., of Toronto, Ltd., 33 Richmond St. West, Toronto. Subscription price of the Delinquent, \$1.00 per year, or 15c. per single copy.

YOU

are making a mistake by not trying a Bicyclo now. Low weather, roads, etc. A good discount for cash or time. Examine our stock of Refrigerators, Oil Stoves and Ice Cream Freezers and compare prices with other dealers. DODD & ROGERS. The hot weather is here. You will need a hammock. See our large stock of new and pretty hammocks, all kinds and prices, from 75c to \$4 each.—Geo. Carter & Co., fancy goods, etc. Strawberries and ice cream at the Crown Confectionery to-night. Ice cream and strawberries at the Crown Confectionery to-night.

OBITUARY.

At Brookvale, Lot 30, on the 8th inst., Mary A. Smith, eldest daughter of John and Bridget Smith passed out of this life to life eternal, in the 32nd year of her age. Deceased had been in delicate health for some years, but for about three weeks previous to her death she gradually sank till death brought an end to her sufferings. She was always kind and charitable, and shared the affection of all her acquaintances; no wonder, then, that she was loved by her sisters and brothers and that the cup of her sorrow was brimming on account of her departure from their midst. They were happy in the thought, however, that she was entering on a happier life, fortified as she was by the rites of the church of which she was always a faithful member. On Wednesday morning a large concourse of people followed her remains to St. Joseph's Cemetery. To her grief-stricken parents and sorrowing sisters and brothers we tender our heart-felt sympathy.

NOMINATED

By a Large Majority. The Popular Drug Store. The Largest Stock. The Lowest Prices. REDDIN BROS. Opposite P. O. Lemonade Tablets. To those who cannot come for some weeks they can have a glass of lemonade by merely dissolving tablet in water. A bottle of these tablets and a folding pocket cup, the thing for a bicycle rider. We have them. A. W. REDDIN, Pharm. B.

SPECIAL DESPATCHES TO THE EXAMINER.

BRANCH RAILWAYS AGAIN.

What Senator Scott Has to Say Regarding Them. The Government Denounced for Building Branch Railways in P. E. Island. OTTAWA, June 18. In addressing the Ottawa electors on nomination day Senator Scott, who was Secretary of State under McKenzie, and who will undoubtedly be a Cabinet Minister should the Liberals succeed in this election, made a fierce denunciation of the Tupper Government, and asked why should the citizens of Ottawa be compelled to pay one hundred and twenty-five thousand dollars, their share of the twelve and one-half millions pledged to build branch railways in P. E. Island, as a bribe to the Islanders to return Government supporters. The Liberals are making a strong canvass that the Government propose to spend millions building railways in the northeast corner of the Dominion, while neglecting Ottawa city.
