Imperial Oil's new research findings mean extra mileage for Canadian drivers

whether your car is new or old... improved **ESSO** gasolines and new **Marvelube** motor oil used together

1. give you more mileage 3. cut down engine deposits

2. improve your car's getaway that rob your car of power

HERE'S PROOF FROM IMPERIAL OIL'S RESEARCH LABORATORIES

Engine deposits handicap your car's performance. Improved Esso and Esso Extra are specially formulated to burn cleaner in your engine, leaving less deposit. Here is one of the many stages of research on these improved gasolines at Imperial Oil's laboratories.

New Marvelube has special qualities that keep engine deposits to a minimum. Three years of laboratory tests prove that when the new motor oil is used with improved Esso or Esso Extra Gasolines there is an even greater reduction in engine deposits.

In addition to the laboratory tests, almost three years of road tests prove conclusively that when the "matched pair" of Marvelube Motor Oil and Esso Gasolines is used the reduction in engine deposits is so great the result is less wear, more mileage.

Drive in today—prove to yourself the better performance gas can get.
