Mr. and Mrs. Gabriel Jardine, whose marriage took place in Toronto last week, are spending their honeymoon at Alberton found on your Island. Ellen. It is obviously quite old and very quaint. I should like you to see me a friend who has known great churches both at home and abroad, and when on a lovely summer day, together we visited this and that pretty little spot. "Though I know nothing of its history, which is more or less one of my regrets, every time we come by here, I am impressed by its charm."

Not far from the roadway, set against trees, we too found a beautiful. A model building it is, yet in its attractive lines and in the quaint windows, one could appreciate that much labor had been given to build it and in the "labeled to build" this church of their choice...

So we think that was a dedicated to work and lovingly laid the years by its own, to reveal the times receive. Tomorrow, yet to give it the added room and the more a fitting place in the Church of our times, while the autumn shades still dress the countryside. I shall come to our churches, ever with "a new song" in our hearts. Yet remembering that in the Church of our times, we can find "de good Lawd" in the Church of our times, but every day and any where. It reminds us that, "these are not the walls Wherein Thou may'st be sought;

On homeliest work Thy blessing falls And taught of this time... This, sometimes referred to as "the little Church" but not so little after all, was a good neighbor to us, and we like to think to every teacher, who taught in the school close by, in that set so near it reminded both teacher and taught of "the upward look", which has its place in our everyday life.

How beautiful, all in all, are the little Churches that sit amidst at some crossroads or tucked in some leafy retreat away from the busy world, that seem to have been built for the present little Church we have
