CANADIAN APPOINTMENTS.—His Excellency the Governor General has been pleased to make the following appointments, viz.:—The Honorable Sir Narcisse Fortunat Belleau, Knight, to be a member of the Executive Council of the Province of Canada. The Honorable Sir Narcisse Fortunat Belleau, Knight, to be Receiver General of the Province of Canada, in the room and stead of the late Honourable Sir Etienne Paschal Tache, Knight, deceased. The Honorable John Alexander Macdonald to be Minister of Militia, in the room and stead of the late Honorable Sir Etienne Paschal Tache, Knight, deceased.

THE CONNECTICUT MURDER.—The Hartford *Times* says the shocking revelations of the Manchester murders received on Wednesday afternoon the addition of the climax of horror in the confession of Albert L. Starkweather, the son, who acknowledges to have perpetrated the crime —that he, and he alone, butchered his own mother and his sister, as they lay asleep in bed together. The confession—which was not unexpected by those best informed of the facts—was made *by the prisoner in the jail in this city, to Mr. James Campbell, of Manchester, the father of the* girl to whom the prisoner was engaged to be married. The chief of police, believing that he would acknowledge more to Campbell than to anybody else, procured the latter to go to the jail yesterday afternoon, where the wretched young man, discarding all his previous lies and contrivances to avoid detection, made a clean breast of it, and confessed to the awful crime. He acknowledged, after some questioning, that he had butchered his mother and then his sister with the axe, and then to make certain of the fiendish job, he had repeatedly plunged his butcher knife into their throats and bosoms; winding up the deed of horror by setting the bed on fire, and then his own bed down stairs. "I did it," he said, "I did it, Mr. Campbell, out of love for your daughter, and nothing else. I felt I must have that money, for without it she would not marry me; and I got the money." It appears that the prisoner was a fellow of dissipated and extravagant habits, and the young woman had refused to have anything to do with him until his debts were paid: and it was to obtain money for this purpose that he proceeded to butcher in cold blood the mother who bore him and the innocent little sister who slumbered by her side. The wretch manifested little or no emotion, but showed a kind of stolid and brutal indifference. The plea of insanity will very likely be set up in his favor, and for the credit of humanity one could wish it might be established; but it is conceded by all who have seen him that the prisoner shows no symptoms of insanity. For simple, cold-blooded atrocity, his act is unsurpassed in the annals of crime.

One of these bold strokes which characterized Cromwell, Napoleon, and perhaps all great men, has just taken place, for all places in the world, at Guayaquil, on the coast of the republic of Equador. President Garcia Mareno being afflicted with one of the revolutions which have become chronic in South America, seized an English passenger steamer then in port, filled her with troops, and bore down on the revolutionists who had seized the Government vessels. One of these he ran into and sunk, capturing the other with 27 prisoners, whom he immediately shot; and, returning in triumph, he restored the steamer with a hundred thousand dollars, as remuneration for his three days use of it, which the British Consul there seemed to think a sufficient *sotatium*.

EXECUTION OF DR. PRITCHARD, *Edinburgh, Friday.*—Dr. Pritchard was executed this morning at ten minutes past eight. He slept soundly last night than usual; rose at 5 o'clock, and was attended by several clerical gentlemen, until Calcraft was introduced. On being asked whether he had anything to say, in a clear firm voice he replied—"Simply to acknowledge the justice of my sentence." He mounted the scaffold without assistance, but when the drop fell he appeared to suffer considerably. About 80,000 persons were present.

THE CASE OF CONSTANCE KENT.—The case of Constance Emilie Kent, who is under sentence of death for the murder of her brother, Francis Saville Kent, at Road House, five years ago, has been taken into consideration by Sir George Grey, the Secretary of State for the Home Department. After deliberating upon all the circumstances of the crime and the confession, the Home Secretary decided upon recommending to the Queen that the convict's sentence should be commuted to one of penal servitude for life. Her Majesty has been pleased to act upon the recommendation, and Constance Kent will therefore not be executed. The unhappy young woman will now undergo in every respect the same punishment as ordinary criminals sentenced to penal servitude for life.

THE LATE FLOOD IN MINNESOTA. — *Affecting and Lamentable Incident.*—The Ontonogna *Star* says the saddest incident of the disasters occasioned by the recent flood is the drowning of five children in one family, and the almost superhuman efforts of the mother to save them. The Father, Bethuel Draper, living on the west of the Ontonogan, near the crossing of the Wisconsin road, was out the L'Anse railroad survey, and his two eldest children were away; the mother, an Indian woman, and her five youngest children being at home, and were asleep when the water came into their shanty. One of the children, it is said, was drowned before the terrified mother could get them out, but she lashed its body and three of the others on her back and to her sides, and took the fifth in her arms, and struck out for a tree near by to which to tie the corpse, in the vain hope of preserving it for burial, but the tree soon gave way and swept down the resistless torrent, and in her maternal efforts to save the rest by swimming to a second place of safety the frantic mother felt the child in her bosome expire, and saw the others swept under by the foaming billows and buried from her sight forever. The mother climbed a small tree, where she remained over two days for the river to subside, and on Saturday reached the Forest Landing, almost exhausted with cold and hunger.

HOLLOWAY'S PILLS correct bile, prevent flatulency, cleanse the liver, purify the system, strengthen the stomach, increase the appetite, invigorate the nerves, promote health, and renew the lease of life. The daily sale of these invaluable Pills in all parts of the globe is perfectly astonishing. They are eagerly purchased by millions of persons who have heard of their extraordinary virtues, and are desirous to give them a trial. That trial never ends in disappointment. They are composed of rare balsams, "unmixed with baser matter." None need fear that there is any mineral or other noxious substance in them. Printed directions for their use accompany every box.

AN EXCELLENT ARTICLE.—MRS. WINSLOW'S SOOTHING SYRUP is an excellent article for all diseases of children. It relieves the child from pain, regulates the stomach and bowels, and, by giving health to the child, comforts and rests the mother. During the process of teething its value is inestimable: cures wind colic and griping in the bowels.

TIGNISH TEA PARTY.

MR. WHELAN:—As your journal is ever ready to publish anything that tends to the good of both Church and State, I send you the following brief sketch of the Tignish Tea Party, which I know you will publish in your next issue

The Tea, as announced, came off on Wednesday, the 26th ult. Early in the morning, which was a very pleasant one, men, women and boys were on the grounds making preparations. While the day was yet young, vehicles of almost every description were rattling up to the place, and to every unoccupied spot around, and the living freights from them gathering in smiling groups, shaking hands, passing civilities, and holding cheerful converse. The tables were set in the convent-building, now in progress of erection. The splendid luxurance and taste displayed in the furnishing of these snowey tables I shall not attempt to describe. Ladies, tea, cake, fruit and condiments were arrayed on and around these tables in delightful profusion. Over and around the grounds flags floated, as if they had dropped from Fairy Land.

As soon as the tables were ready for the guests the doors of the Convent were constantly kept darkened for an hour or two with the press seeking ingress and egress. As soon as one *batch* of *omnivora* solaced the inner man from the delicacies and dainties of the tables, they made their exit to make room for their pressing successors, and to seek other amusements outside. The strains of the band now and again sent its elevating thrill to the hearts of the hundreds around. It was even no small amusement to see the rush made to the place where the band occasionally played, particularly by the young. Toward the close of the table entertainment, a young man from some distant part amused the people by feats of agility, gymnastics and horsemanship. In the evening many of the youth of both sexes vied with each other on the light fantastic toe.

Two Gold Watches and a splendid set of Silver-mounted Harness were set up at lottery, the proceeds of which added to the amount of money realized. The various entertainments and amusements prepared for the occasion, showed the excellent sense and taste of those who had the management of the proceedings of the day, and were beautifully calculated both to please and profit every pure and innocent mind present. It was delightful, too, to witness people of every denomination met and mixed with each other, and every one bent on heightening the pleasures of the day, and forwarding the laudable purpose for which the Tea was projected. About mid-day warm showers began to fall, and as the new Convent had no covering overhead, those inside as well as outside the building shared in the gentle wetting. A person of a lively fancy standing by me remarked, "That heaven was shedding down its showers of blessing as a token of its approval of the undertaking, an evidence that it would not be behind mother earth, who had contributed so much from her bosom for the occasion;" and, in fact, appearances seemed to testify that his fancy was not all fiction. The Rev. Mr. McIsaac, with his manly mien and pleasant smile, did much to keep the pleasures of the day alive. The Rev. Mr. McDonald, from Indian River, in his own unassuming and kind manner, could be seen here and there among the crowd. Bishop McIntyre also honored the occasion with his presence. G. W. Howlan, Esqr., M. P. P., whose fluency and ready wit are so well known, and Mr. Richard Reid, from Alberton, were present, and lent their talents in aid of the general enjoyment.

Too much praise cannot be awarded to the good ladies of Tignish, Alberton, and Lot 11, for their noble liberality, and for the handsome style in which they performed their part of the entertainment. But to appreciate fully their excellent taste and great skill in both furnishing and decorating the festive board, they must be seen presiding at it in their own proper persons. It will not, perhaps, be considered invidious to mention from among the ladies who prepared and presided at the Tignish Tea, the names of Miss Howlan, Miss Warburton, Miss Reid, Miss White, and Mrs. Clark, of Cascumpec, whose tables were furnished and adorned in the most excellent style.

The concourse of people was very large. Indeed almost every section of the Island from its eastern extremity to its western "jumping-off place" was represented; and the estimated total number assembled was about FOUR THOUSAND. Although, perhaps, the major part of the people met merely for the enjoyment of the Tea and its adjuncts, and to give their aid to the objects for which it was undertaken, still a large proportion was led to the place from a desire to see the magnificent new Catholic Chapel and the new Convent now in progress of erection. And, indeed, well will the sight of these noble structures repay the trouble of going to enjoy it. The completion of such splendid edifices must certainly reflect much credit on the public spirit of the original designers.

All parties appeared to have delightfully enjoyed the entertainments and amusements of the day; and at the close of the proceedings many kept lingering around the grounds, as if they felt a regret at having so soon to quit so delightful a scene; and nothing transpired throughout the whole day to mar the enjoyments of the occasion, except the slight *damper* which the afternoon showers threw over the affair.

The net proceeds amounted to the sum of £250, which sum, I understand, is to be appropriated to the finishing of the Convent.

I am, honored Sir,
Your obedient servant,
A SCOTCHMAN.

Lot 11, 31st July, 1865.

P S. I understand that a Pic-Nic on a large scale came off at North Cape on the day following the Tea, the details of which will probably reach you from another quarter in due time. A S.

CHILDREN AND BABIES.—Who does not love babies! Are they not the light and joy of every household! Yet how many are the diseases to which they are subject, and the great cause of many of their afflictions is WORMS. What shall the disconsolate parents of these poor children do? We with confidence reply,—Give a few doses of JUDSON'S WORM TEA. It cannot do any harm. It is sure to do good. No Mercury or any other mineral is in it. It is entirely vegetable.—Sold by all Dealers at 25 cents a Package.

St. Dunstan's College.

Under the Patronage of His Lordship the Bishop of Charlottetown.

THIS INSTITUTION is situated on the Princetown Road, a mile and a quarter north of Charlottetown. The site is peculiarly beautiful, healthy, and far removed from the distractions and moral dangers of the city.

The halls and rooms of the building are spacious, airy and comfortable.

The College Grounds are large, affording ample room for games and athletic exercises.

The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music—vocal and instrumental—is also taught.

The College possesses a large and well selected Library, as well as an extensive Philosophical Apparatus.

The Professors and Teachers reside in the Institution, forming but one family with the students, and exercising a constant supervision favorable to discipline, decorum and good morals.

Catholic students are carefully and frequently instructed in their holy religion, which they are required to practice. The most solicitous attention is paid to the morals of all; and whilst within the College enclosure, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced.

Students when entering must produce satisfactory testimonials of good character.

The College is visited regularly once a week by a Physician.

TERMS:

Per Quarter of 11 Weeks:

Board and Tuition	£6 0 0
Use of Library	0 1 6
Physician's Fee	0 1 6

Payments to be made half-yearly in advance.

The College furnishes bedsteads and mattrasses; the students must provide their own beds and bedding, brushes, basins, towels, &c.

The Scholastic year commences on the first Wednesday in September and ends about the middle of July. Students are requested to enter the College on the first day of the opening of the classes.

For further particulars apply to

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce, or which, we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for the use, and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifyng the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body, or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & Co, Lowell, Mass, and sold by Geo A. Bayard, St. John, N. B.; Avery Brown & Co, Halifax, N. S.; and by W. R. WATSON, Ch'town, P. E. I.
