of Assembly has been dissolved, and if the people of New Brunswick return a majority in favor of it, which it is confidently asserted will be the case, we may fairly assume that the Confederation of the British American Colonies will soon, after be an accomplished fact, however stoutly we in Prince Edward Island may oppose that measure.

NOVA SCOTIA.

The Legislature of this Province was prorogued on the 7th inst. There is nothing particularly attractive to us, as strangers to Nova Scotia, in the speech with which the Lieut. Governor closed the Session. In alluding to the question of the day—(Confederation)—General Williams expressed his deep gratification at the action of Parliament on the question of British North American Union, and says it will afford the greatest satisfaction to the Imperial Government, as the means of imparting additional security to this portion of the Empire, and a guarantee of increased prosperity of this Province, and a permanent connection with the British Crown.

CHOLERA IN NEW YORK.

The New York *Times* of the 2nd gives the particulars of a case of cholera discovered in that City on the 1st inst. The Board of Health of New York have shown the utmost interest in the progress of the dread disease, and have anxiously awaited the "first case." This was reported by a Dr. White. Says the *Times*:—

On arriving at Ninety second-street and Third avenue he discovered that in a frame house on the east side of the avenue, between Ninety-second and Ninety-third-street, a Mrs. Jenkins had died yesterday morning. Officer Christopher Corsa, of the Sanitary Squad, was on the ground until 10 o'clock last night, when he was relieved by two men detailed from the Twenty-third Precinct Reserve. It appears that Mrs. Jenkins was taken sick about two o'clock on Monday afternoon, and in the evening, Dr. W. V. White, of No. 151 Eighty-sixth street, was called to attend her. He soon came to the conclusion that he had a case of cholera under his care, and proceeded to treat it accordingly. The patient continued to sink rapidly, and died between 9 and 10 o'clock yesterday morning. Dr. White immediately acquainted Dr. Dalton, Sanitary Superintendent, with the facts in the case, and last night Dr. Elisha Harris, accompanied Dr. White to the house and viewed the body and its surroundings. The result was that the decision of Dr. White was endorsed by Dr. Harris, who directed him to take special charge of all the persons in the house, and within the following 24 hours to examine them and discover whether any diarrhoea symptoms were present. Dr. Harris also ordered the burning of the bed, bedding, clothing, rags, papers, and everything about the bed on which the deceased had lain, an order which was carried out by Officer Corsa, last night, between 8 and 9 o'clock. Mr. Jenkins, the husband of deceased, indicated the utmost willingness to see all the orders of Dr. Harris duly obeyed, and volunteered to see to the details himself.

It appears that there are five families living in the house. Mrs. Jenkins was a native of Ireland, and about 35 years of age. Although chloride of lime and other disinfectants have already been used in the house of Mr. Jenkins, a further application will be made to-day by the distribution of five barrels of Ridgewood disinfected powder throughout the premises.

In order to set at rest any doubt which may possibly remain in reference to this case, the body of the deceased is to be submitted to a *post mortem* examination in the dead-house at Bellevue Hospital this morning, under the auspices of the proper officers of the Board of Health.

PREPARATORY MEASURES.

Dr. Stephen Smith addressed the Board of Health (at a meeting on the 1st inst.,) substantially as follows: In view of the possible appearance of cholera in our midst, I propose that we adopt the preventive measures which are adopted in time of peril in Europe. The first of these is house-to-house visitation, the basis of the plan to be the dispensaries which are now frequented by the poor, as centres where medical aid may be obtained. From these dispensaries, whose officers will cheerfully cooperate with the Board, send forth corps of visitors to scour the regions round about, and whenever painless diarrhoea is found to exist, let the corps of visitors immediately administer remedies. Diarrhoea and incipient cholera may be successfully combatted, and if we seize the disease while it is merely diarrhoea, we may avert it. I furthermore propose that we establish houses of refuge, so that in the event of a visitation of cholera we may send the patient into hospital, and the family wherein the disease occurred, to a house of refuge, there to be kept until their apartments can be thoroughly fumigated and cleansed. For the accommodation of the cellar population of New York, I propose that the Battery Barracks be used. We can provide room for one hundred and fifty families there. Let the police report all families that dwell in cellars below tide-water level, and then let a priest or other person persuade these persons to change their habitations to the Battery Barracks, and, when they go to the barracks, let the merchants and manufacturers of the City give them work, so that they may not be pauperized.

After a few remarks by President Schultz, the subject was deferred.

The Hon. W. H. Pope returned from his mission to Brazil, Mexico and the West India Islands, on Wednesday evening last. Mr. Pope resumed his place in the House of Assembly on the following day.

The Hon. W. W. Lord, who has been in the United States for some considerable time, also returned on Wednesday evening, and resumed his place in the Legislative Council on Thursday morning.

Flax Seed.—Those Farmers, who are going to sow Flax Seed, this Spring, should at once apply to the Hon. John Aldous, Colonial Building, Charlottetown, who advertises, in our present number, Best Riga Seed, at 15s. per bushel, and English Grown Riga Seed, at 10s.

Erratum.—In the debates of the Legislative Council, published last week, an amendment proposed by the Hon. Mr. McDonald, to the fifth paragraph of the address in answer to His Excellency's Speech, was accidently inserted instead of the following amendment submitted by the Hon. Mr. Dingwell:

"We regret to learn that the general prosperity of the Island has been marred by disturbances which took place in the Colony during the last summer; but as these disturbances were confined to certain sections of Queen's County, we would respectfully represent to your Excellency that the inhabitants of King's and Prince Counties have always maintained the supremacy of the law, and have never offered any organized resistance to the civil authorities."

Slavery is rapidly extending in Egypt to meet the demands for increased labor in the cotton fields. The slaves are brought from the upper Nile. The average life of these slaves does not exceed four years, and it is estimated that three persons are killed for every slave taken.

The Princess of Wales is sitting for a full length portrait in oil, but as she is a little thin, a professional model sit for the arms and neck.

Holloway's Ointment and Pills.—Sound Lungs.—Unless the blood be purified from the foul matter which enter it in its passage through the chest, the strongest lungs will often be inconvenienced and the delicate chest will assume positive disease. Holloway's remedies exert the most wholesome power in cleansing the air-tubes, dislodging accumulated mucus and clearing the blood. When there is any congestion of the chest, stitch, or heavy pectoral pain, some of this Ointment well rubbed over the seat of suffering will speedily remove the evil, and certainly prevent worse consequences. In ordinary colds, shortness of breath, wheezing and chronic or spasmodic coughs, Holloway's Ointment and Pills will give present comfort and avert future danger.

LATEST NEWS BY TELEGRAPH.

New York, 11th May, p. m.

Stephens, the Head Centre of the Fenians, was met on his arrival here last evening by a Committee of Fenians and thousands of Irishmen, and escorted to the Metropolitan Hotel. In conversation with those who called on him, he said the Irish army would fight on their own soil before the expiration of the present year. There is to be a grand demonstration at Jones' Wood, when the Head Centre will fully explain his mission to the country. At midnight the 99th Regt., Col. O'Mahoney, serenaded Stephens, who made a brief address. He said he did not belong to any party, but came here to unite all the Irish people, and he would let no man be accused until fairly tried and found guilty.

Party expressions had done great harm to the cause, and he advised all sensible minded Fenians to refrain from such a habit. He said he came here by invitation and should keep quiet for a time. When the committee to inquire into the Irish Republic matters reported then he would have something to say. He said the people of Ireland had been prepared for a long time, but they had been disappointed in not receiving support.... Jefferson Davis has been indicted for treason in U. S. Court, now in session at Norfolk, Va. Trial in June. Gold 129⅞.

Washington, May 11.—The joint resolution of amendment to the Constitution, reported by the Reconstruction Committee, passed the House yesterday by a vote of 138 to 37.

New York, May 11.—Despatches from Buffalo state that the arrival of Stephens had caused an important movement among the Fenian chiefs, and that General Meade had been ordered to Buffalo with a considerable number of United States troops. The United States Steamer *Michigan*, which was on the point of sailing for Erie, has been ordered to remain at Buffalo.

Richmond, May 4.—The anniversary of the death of Stonewall Jackson was observed today by Floral decorations of the graves of Confederate soldiers at Holyrood and Oakwood; both cemeteries were thronged with ladies and their escorts. Several addresses were made at each place. Business was generally suspended. ....Gold 122⅞.

San Francisco, 6th.—A special messenger arrived yesterday, from Los Angelos, bringing a despatch from the Commander of Fort Grant to Gen. Mason, announcing that Fort Goodwin, Arizona, had been taken by two thousand Indians, and the garrison, numbering 124, were all massacred, with one exception, burned.

To the Debilitated and the Decrepid.

For General debility and exhaustion of the powers of nature, whether occasioned by sickness, fast living, constitutional decay, old age, or any other physical or mental cause, the one thing needful and indispensable is HOSTETTER'S CELEBRATED STOMACH BITTERS. When the fire of life seems to be absolutely dying out in the system, and the mind, sympathising with the body, is reduced almost to a state of imbecility, this mighty Restorative seems, as it were, to lift the sufferer out of the Slough of Despond, and recruit and re-invigorate both the frame and the intellect. An old farmer in the Valley of the Monongahela writes thus to Dr. Hostetter: "I can compare the operation of your bitters upon me to nothing but the effect of a rain after a long dry spell in the fall of the year. The rain falling on the meadows starts the second crop of grass, and your wholesome medecine seems to have started a second crop of life and spirits in me." And this is truly the effect of this grateful and powerful preparation. Ladies of weak constitution, or whose strength has been impaired by sickness or age, find it a most efficacious and delightful Tonic, and it is administered with great success in marasmus or wasting of the flesh, to young children. In fact it is a much safer and surer cordial for the nursery than anything advertised specially for that purpose. 2w

Brown's Bronchial Troches are offered with the fullest confidence in their efficacy; they have been thoroughly tested, and maintain the good reputation they have justly acquired. For Military Officers and those who often over-tax the voice, they are useful in relieving an Irritated Throat, and will render articulation easy. To the soldier exposed to sudden changes in the weather they will give prompt relief in Coughs and Colds, and can be carried in the pocket to be taken as occasion requires.

In Thousands of Cases—Mrs. Winslow's Soothing Syrup, for all diseases with which children are afflicted, such as teething, griping in the bowels, wind colic, &c., has been used with perfect and never-failing success in thousands of cases. It softens the gums, reduces inflammation and allays all pain. Mothers, do not fail to procure it.

WILLIAM FULL

TAKES this opportunity of thanking his numerous customers for their liberal patronage and desires to announce that he has removed to

The New Brick Store in Queen St.,

adjoining the Store occupied by James Reddin Esq., where he will open, by Ship Undine, JUST ARRIVED, and by Ariadne, from GLASGOW and Lotus, from LONDON, daily expected, a

Large and Well-selected Stock OF Staple & Fancy Dry Goods, GROCERIES, HARDWARE, &c,

WHICH WILL BE SOLD,

WHOLESALE AND RETAIL,

At his usual Low Prices.

Charlottetown, May 7, 1866.

Notice of Removal!

W. H. WILSON

WOULD inform the Public that he is now moving from the corner of Great George and Kent Streets, to the SHOP long occupied by Donald McIsaac, Esq., on Queen Street, immediately below the Market Square

Having refitted this old Business stand, and put it in perfect order for a

Dry Goods Store!

He shall be happy to welcome his numerous customers at his NEW ESTABLISHMENT! and will be in a position, on the arrival of the Ariadne from Glasgow, and the Lotus from London, to supply the public with every article of MERCHANDIZE common to the Trade!

Charlottetown, May 7th, 1866.

Intended Removal.

WE intend, in a few days, removing to the SHOP in Queen Street, adjoining that of Jas. McCraith, Esq., and opposite Hon. Daniel Brenan's, where, on the arrival of the English Vessels, we will open a large Stock of

GENERAL MERCHANDISE.

Intending, for the future, to conduct our business entirely on the CASH SYSTEM, we will mark our Goods at much less than the usual rate of profit, as an inducement to CASH BUYERS to favor us with their patronage.

DELANY & BYRNE.

Those indebted to us whose accounts are over-due, will oblige us by settling them immediately.

D. & B.

May 7, 1866.

REMOVAL.

DR. W. G. Sutherland has removed from his late residence on Queen Street, to the corner of Kent and Great George Streets, and would respectfully inform his friends and customers, that by late arrivals of direct importations from Europe, he has greatly added to his large Stock of Drugs, Chemicals, Perfumery, and Toilet Articles in variety.

DR. SUTHERLAND returns thanks for the patronage so liberally extended to him since his residence in Charlottetown, and hopes the same may be continued towards him; trusting that, by assiduity and attention in every branch of his profession, he will retain the confidence of the public.

The Dispensary is under the Doctor's own supervision.

Advice to the poor Gratis.

Charlottetown, May 7, 1866.

Removal!

DURING the re-building of the CITY HARDWARE STORE, the Subscribers may be found at the SHOP in Great George Street, lately occupied by Messrs. Delany & Byrne.

Upon the arrival of Ships "L. C. Owen," "Undine," "Lotus," and "Ariadne," they will be prepared to offer their usual

Large and Varied Assortment of HARDWARE,

and trust to receive a continuation of the support which has been so generously accorded to them in the past.

☞ The Band will be in attendance.

Charlottetown, May 7, 1866.

A COMMON SENSE VIEW

OF THE

Mode in which

HOSTETTER'S

STOMACH BITTERS

ACT UPON THE

HUMAN SYSTEM.

This is an age of inquiry. People want to know the why and wherefore of all statements submitted to them as facts, and as far as this

GREAT PROTECTIVE AND INVIGORANT

is concerned, it is proposed to gratify them.

All the physicians admit that the greatest difficulty they encounter in their practice is in conveying to the seat of a disease the medicament that will counteract and neutralize it. Electricity has been tried for this purpose, but it is now generally admitted that the electric fluid is too subtle an agent to be made the vehicle of medication. It shocks the nerves, but cannot distribute through the system anything except itself. Medicated electricity is, in short, an exploded humbug. But a liquid stimulant, as everybody knows, can be charged with the essential properties of any and every substance in the *Materia Medica*, and there is no herbial extract which it will not hold in solution with all its preventive and curative virtues unimpaired.

Now, the pure liquid stimulant of which

HOSTETTER'S BITTERS.

are in part composed, is charged with invaluable vegetable remedies, and these, by reason of its powerful, diffusive principle, it conveys to every organ and introduces into the circulation. To use a common expression, it goes to the spot, taking with it just what is wanted there. The *essence of rye* would undoubtedly diffuse itself through the organization as swiftly, if administered pure and simple, as if mixed with the juices of tonic and alterative roots, barks and herbs. But of what use would it be without their healing, strengthening, life-sustaining balm? It would merely excite. It could neither *protect* nor *cure*. And herein lies the essential difference between the effect of the purest stimulant, when given *alone*, and the same stimulant, when administered in the medicinal form of

HOSTETTER'S STOMACH BITTERS.

Good Monongahela spirit is doubtless the mildest and most innocuous of all the varieties of liquor, but it only becomes a *healthful medicine* when impregnated with the vegetable elements employed in the preparation of the Bitters.

TO DYSPEPTIC SUFFERERS.

Under the general head of Dyspepsia may be classed all the varieties of indigestion. Its symptoms are so various, and differ so much in different individuals, that it is almost impossible to classify them. In fact, some of them are utterly indiscribable. It may be safely asserted, however, that half of the diseases of mankind spring from a disordered state of the stomach; and that the other half, whatever their origin, react upon that sensitive and important organ. Among the ordinary indications of Dyspepsia or flatulence, a bloated and full feeling about the stomach and abdomen immediately after eating, a gnawing sensation, or a sense of hollowness at the pit of the stomach, between meals, a heavy dull feeling in the head, feeble or unsteady appetite, occasional nausea, a restless dull feeling during the night, and a weary, unrefreshed feeling on rising in the morning, palpitation of the heart, depression of mind, sometimes amounting to monomania, loss of memory, confusion of thought, sour stomach, with rising of food, and a choking sensation in the throat, dimness of the eye, pain in the diaphragm, feebleness and disinclination for exertion, and sometimes emaciation and a corpse-like palor. These are a few of the *direct* signs of Dyspepsia, but it is generally complicated with specific affections of the bowels, the liver, and the nerves; its victims have many additional torments which are technically attributed to other causes.

The best advice that can be given to any one who has the slightest predisposition to Dyspepsia, is to fortify his or her digestive organs by the daily use of

HOSTETTER'S BITTERS.

The disease proceeds from a lack of vigor in the stomach, and this vitalizing preparation will tone and renovate that organ. If the gastric apparatus is in good working order, and can perfectly dissolve and thoroughly assimilate the food submitted to its operation, there will be no dyspepsia. If it cannot do this, it *requires reinforcement*, and the best of all reinforcing agents should be forthwith resorted to. The stomach is the commissary of the system. It supplies the elements of life to the whole body. In it is prepared the material of blood, muscle, bone and fibre, and if it fails to purvey that material in sufficient quantity, and of a proper kind, the whole body suffers, and with it the mental faculties. Therefore protect the "Commissary Department." Don't let the enemy obtain possession of it. It is easier to prevent disease from getting into an organ than to expel it after it becomes a *chronic fixture*. Consider the first indication of uneasiness in the stomach as a sign that dyspepsia is preparing to attack, and baffle it at once with this *great repellant*.

But if it is too late to *prevent*, remember that it is *not too late to cure*. It is believed that there is no case of chronic indigestion that can withstand the remedial operation of

HOSTETTER'S STOMACH BITTERS.

This belief is grounded on *twelve years' experience* of the efficacy of the preparation. The first instance of its failure to give relief is yet unchronicled. If it ever had failed, the voluminous correspondence addressed to the proprietors from all parts of the United States and South America, would, at least, include one letter expressing dissatisfaction. But no, *there is not one*. The testimony, extending over a period of more than a dozen years, is all of the same approving tenor. Certainly this is a sufficient warrant for claiming that the Bitters are a *Specific for Indigestion in all its varieties*.
