MARKET DAY.—Owing to the Queen's Birthday occurring on Tuesday this year, the Market will be held on Wednesday, 25th, instead of on Tuesday.

LAD TO REST.—The funeral of the late Michael Traitor took place to the R. M. Catholic Cemetery yesterday afternoon. It was largely attended.

DR. McKIE will lecture in the Salvation Army Barracks to-night, on the salvation Army in connection with his tour around the world. Silver collection.

ARLINGTON'S MINSTRELS appear at the Lyceum to-night and to-morrow night. The Halifax papers speak very highly of their performances in that city.

TO ENFORCE THE LAW.—Truro is raising a fund of \$2,000 to enforce the Nova Scotia Liquor Law in that town. Six hundred dollars have already been subscribed.

DR. RALPH B. PEAKE, Alex McLeod, master, arrived here this morning from Liverpool, G. B., with a cargo of general merchandise. Thirty-two days passage.

THE PREMIER.—The steamer Premier, Captain Kiley, called at this port on return from Summerside about half past eight on Saturday evening, and proceeded to Halifax one hour later.

MASONIC.—There will be a course of lectures delivered this evening at Masonic Hall, in connection with Victoria Lodge, commencing at 7:30 o'clock sharp. Officers especially will please be at their several stations on time.

BOTANY.—The twelfth lesson of the botanical course of the Mt. Allison University Extension Lectures will be given on Tuesday, May 17th, in the Y. M. C. A. Lecture Room. Subject: "Food of Plants and how they obtain it."

SHODDY'S GERMAN SOAP, "Soft as Velvet," "Pure as Gold," that tells the whole story. Most highly medicated soap ever made. Try one cake. It is elegant. At all Druggists. Price, 25 cts.

THE WORLD'S FAIR.—It is announced that Professor Wm. Saunders, Director of the Dominion Experimental Farms, intends visiting the Maritime Provinces shortly to arouse interest in the Dominion exhibits to the Chicago World's Fair. It will be remembered that Prof. Saunders is the Canadian Commissioner to the Chicago Exposition.

TEA PARTY AT MISCOUCHE.—The Pioneer reports that the people of Miscouche intend having a tea party on the 19th of July, the funds raised from which will go to the general building fund. They are about commencing work on the inside of their new church and considerable money will yet be required before their handsome church is completed.

QUEEN SQUARE FOUNTAIN.—Work on the fountain on Queen Square was completed on Saturday, and this forenoon the seal owned by Mr. John T. Crockett was placed in his new quarters to the basin. His sealship soon attracted quite a crowd. Some of those present who were old enough to have more sense, assayed themselves and the more thoughtless of the bystanders by sending dogs into the water after sticks and stones. Such cruel acts should be stopped at once.

SALVATION ARMY.—Colonel McKie, International Travelling Commissioner, arrived here on Saturday evening, accompanied by Staff Captain Plant. Because of the objections taken against the meeting being held in the Methodist church, the colonel decided to use the Army Barracks for the occasion. Meetings were held there on Saturday evening and Sunday, which were well attended. Last night the building was packed to the doors, and the meeting was of an especially interesting character. The colonel is a very pleasing and impressive speaker.

INCIDENTS.—The alarm yesterday afternoon was for a blaze on the roof of the residence of W. W. Stanley, King Square. The only damage done was the burning of a small hole in the roof.

A little son of Mr. Andrew Doyle, jr., accidentally upset a large lamp on Saturday evening at his father's residence. The oil in the lamp took fire and the carpet on the floor caught. The little fellow pluckily extinguished the flames, however, before any damage was done excepting the slight burning of one of his hands.

INDIGNATION MEETING.—An indignation meeting was held at 11:30 on the 12th inst. The following resolution was adopted:—

Whereas, We have learned with regret that a resolution has been made in the number of trains hitherto run on the Prince Edward Island Railway; and

Whereas, It is proposed to close several of the existing stations on the said Railway; and

Further Resolved, That this meeting disapproves of the closing of any of the existing stations on the said railway.

THE PULPIT.—In the First Methodist Church last evening, the pastor, Rev. W. W. Brewer, delivered an eminently practical and able sermon on "The Final Test." Contrary to custom he reserved the announcement of his text until the close of the address, which proved to be "Inasmuch as ye have done it to one of the least of these, ye have done it unto me." The religion of doing is one of the features of our times. The man who wears off his tongue in prayer did less than he who performed the acts enjoined by the great Master. Our duty is to do, and it is the privilege of everyone to aid in mitigating crime and suffering. The work may be on being but the consciousness of having performed a duty will be of itself a sufficient reward. Men do not visit hospitals for recreation nor jills for pleasure, but to relieve and assist those there detained. True heroism is applauded wherever it may be found. Bando, the engineer of the Mississippi steamer, exhibited the bravery of a martyr in sacrificing his own life in order to save others. Do you ask, "Was he orthodox?" I do not know, but I feel sure that as the words of the hymn in which his deed is recorded "his soul went up above" from the past of duty. Many eloquent prayers were distributed through the sermon which is pronounced as one of the finest ever delivered from that pulpit.

The superintendent has kindly consented to hold the Easter train till 5 p. m. (local).

CATTLE AND SHEEP.—The scho. Congo left here on Saturday morning for St. John's, Nfld., with a cargo which included 45 head of fat cattle, shipped by Blake Bros., and 25 head of sheep, shipped by Barrett Henderson. The cattle, which were of an excellent quality, were purchased in Bedouan, Cape Traverse and Tryon, also a few in the vicinity of Charlottetown. We wish the Congo a safe trip and trust that the enterprise of the Messrs. Blake and Mr. Henderson will be amply rewarded.

LIQUOR STOLEN.—Two establishments in the city where liquor is sold were burglarized between Saturday night and Monday morning. From one place four bottles of brandy and a quantity of cigars were taken, and from the other one bottle of brandy and half a bottle of whiskey. In both cases an entrance was effected through the ship window—in one instance by breaking the glass and in the other by removing the putty and taking out the pane. The police are on the lookout for the guilty persons.

CHURCH EXTENSION.—The Amherst Press says: A large and influential meeting of the parishioners was held last evening in the Christ Church Schoolroom, when the question of purchasing the Robb property to the west of the tower was fully discussed. The main reason for desiring to purchase this property was the securing of land on which to carry out a proposal for the enlargement of the church by an addition to the west end. It was, however, explained to the meeting that Mr. W. C. Harris, one of the foremost of Canadian church architects, after having examined carefully prepared plans and photographs both of the exterior and interior of the present building, and after taken into consideration the proposed enlargement, had expressed himself as adverse to such an addition. In view of this fact the meeting considered it inadvisable to purchase the Robb property unless the architect would personally inspecting the church should see sufficient reasons for changing the opinion he has already formed. The architect is to come to Amherst in about ten days time when another meeting of parishioners will take place.

Dangerous Wharf.

SIR.—I wish to inquire whether a Government wharf should be in such a position as to be dangerous to navigation. Macaulay's wharf, at Pinetie, is a Government wharf, and when a vessel makes fast to the end of that wharf at high water, heavily loaded, and when the tide goes out half of that vessel is on the flats quite dry, while the other half lies in eight or nine feet of water. Then she tumbles into the channel. It is not so bad for a vessel commencing to load, as she is not apt to sink, being light. I think it would be proper for the Agent of Marine to look to the matter for the safety of navigation, and report such wharf to be dangerous to navigation, and very much against the interests of farmers and merchants in the neighboring vicinity. Again, the Department should repay the damage sustained by me by the loss of my vessel, the Olivia.

Salvation Army

SIR.—Very often we see the Captain of the Salvation Army take young men before the Stipendiary for some misdemeanor. I think it is time the Stipendiary should turn the tables. There is a possibility of encouraging an indiscreet man and giving him too much authority. Yesterday, when the fire-bell rang, not caring whom property was on fire, he attempted to have the doors locked and allow no one to pass out. Had he succeeded in carrying out his orders, and had there been a stampede for the door, who would have been accountable for the death of some women and children? Last night I saw a gentleman give his seat to a lady during the singing (which is the only time any person is allowed out) and pass towards the door. He met the Captain at the door, who would not allow him to pass out. When asked the second time to be allowed to pass, he said the church's name in for a share of abuse from the Captain, who appeared to be in very bad humor. It looked as if the churches had given offence, and now it was his turn to be delivered from that pulpit.
