

Some cough mixtures smother the cough. But the next breeze fans it into life again.

Better put the cough out. That is, better go deeper and smother the fires of inflammation. Troches cannot do this. Neither can plain cod-liver oil.

But Scott's Emulsion can. The glycerine soothes and makes comfortable; the hypophosphites give power and stability to the nerves; and the oil feeds and strengthens the weakened tissues.

Of Special Interest to our Farmers

The Tamworth Standard.

Now that our people are seriously beginning to consider the production of the highest quality of pork, both for home consumption and export, they are turning with considerable interest to the Tamworth pigs. The following standard of excellence for Tamworths adopted by the National Pig Breeders Association of Great Britain and formulated with a view to the production of the highest quality of bacon:

Color—Golden red hair in a fresh-colored skin, free from black.

Head—Fairly long; snout moderately long and quite straight; face slightly dishd wide between ears.

Ears—rather large, with fine fringe; carriage rigid and inclined slightly forward.

Neck—fairly long and muscular, especially in boar.

Chest—Wide and deep.

Shoulders—Fine slanting and well set.

Legs—Long and shapely, with plenty of bone, and set well outside of body.

Pasterns—Strong and sloping.

Feet—Strong and fair size.

Back—Long and straight.

Loin—Long and broad.

Tail—Set on high and well tasseled.

Sides—Long and deep.

Ribs—Well sprung and extending well up the flank.

Belly—Deep, with straight underline.

Flank—Full and well let down.

Quarters—Long, wide, and straight from tip to tail.

Hams—Broad and full, well let down to hocks.

Coat—abundant, long, straight, and fine.

Action—Firm and free; spirited.

Objections—Black hair, very light or ginger hair, curly coat, coarse mane, black spots on skin, slouch or drooping ears, short or turned up snout, heavy shoulders, blocky build, small heart girth, elephantness, wrinkled skin, inoent knees, hollowness at back of shoulder.

Size of Eggs.

The grade of egg which is in good demand is one weighing 15 pounds per great hundred, that is 15 pounds per 10 dozens, which is equal to 2 ounces per egg, or 1½ pound per dozen. A small quantity imported into Great Britain from France go as high as 17 pounds per great hundred. For every ½ pound which eggs weigh less than 15 pounds per great hundred the value is lessened by about one cent per dozen. One egg shipper of great experience, in Canada informs me that he has found the albumen in large eggs to be thicker than that in small eggs. Another says that in his experience, 90 per cent of the stale or bad eggs, have been small eggs with white shells. Eggs should be graded as to size. A higher value will be obtained for a given quantity of eggs graded into three sizes, large, medium and small, than if they are sent with the sizes mixed promiscuously.—Prof. Robertson's Report.

for about two ounces of linseed oil added to his food. This makes just about a wineglassful. The animals get extremely fond of it, relish their food and thrive in consequence."

Prof. Jordan at the New York Experiment station in a experiment with commercial fertilizers upon the potato crop found that the use of 1000 lbs. per acre paid better than more or less. The fertilizers which gave the best results in that quantity contained 3.8 per cent. nitrogen, 9 per cent. available phosphoric acid, and 10.4 per cent. potash.

Apple shipments from Nova Scotia are reported to have reached so far this year 264,000 barrels and an estimated number of 85,000 more barrels to go. These have netted shippers \$2.50 to \$2.75 per barrel. As prices look like continuing at least as good as at present this would mean that the whole crop would be worth some \$622,000 to the province. This crop will pay tribute in freight to the extent of \$224,530, and should command better attention than it now gets from transportation companies.—Co-operating Farmer.

Prof. F. T. Shutt, Chief Chemist to the Experimental Farms, has been commissioned to make an exhaustive examination into what are known as "soft" bacon sides. This soft condition of the meat after curing is very disastrous to the export business, and so far the exact cause seems to be undermined as all breeds of pigs under any variety of feeding and surroundings will seem to give a certain proportion of these soft sides.

Mr. Cole Discovers the Power of Dodd's Kidney Pills.

WINDSOR, Feb. 20—The following statement, which Mr. F. H. Cole of this place requests us to publish, is worthy of attention from every victim of Rheumatism in Canada.

Mr. Cole's experience fully warrants him in making this statement. "Words cannot describe how I suffered from Rheumatism and Kidney Complaint. I tried every cure that was recommended but got no benefit until I began using Dodd's Kidney Pills.

"Thank God I did use Dodd's Kidney Pills, for they cured me—made me sound and well, in every joint and limb." Those who suffer the agonies of Rheumatism or Lumbago need do so no longer. Dodd's Kidney Pills will cure them.
