GENERAL CABLE NEWS.

DUBLIN, Nov. 12. Judge Lawson evidently had a narrow escape from assassination last evening. Since his appointment as one of the Judges under the Prevention of Crimes Act, he has never gone out without police protection. He was walking last evening from his residence on Merion street to Kildare street Club-house, followed by two constables, while two army pensioners, who were engaged to assist the constables, kept him in view from the other side of the street. The party had nearly reached the club-house, when a man having the appearance of an artisan jostled against Corporal McDonnell, one of the pensioners, in endeavoring to pass him somewhat hastily, and said in a confidential manner, "It is all right." McDonnell thought there was something suspicious in the man's manner and walked as near him as possible, without attracting attention. When opposite the club-house the man crossed the street and turned to meet Judge Lawson. McDonnell, who had meanwhile noticed the butt of a revolver protruding from the inner breast pocket of the man's coat, rushed after him, loudly proclaiming his discovery and, knocking him down, obtained the revolver after a struggle. On the way to the police station the prisoner tried to get rid of a Patzen cartridge. His real name is Patrick Delaney, and he resides at 131 Cork street, this city. He was formally charged to-day with having feloniously attempted to discharge a revolver at Judge Lawson with intent to murder. It is believed that other persons besides Delaney were engaged in the attempt. The police know Delaney well as a returned convict, who is obliged to report himself to them from time to time. In 1870 he was sentenced to five years servitude for robbery and attempted murder.

NEW YORK, Nov. 12. The Tribune's London cable letter says: Ministers are more than satisfied with the majority of forty-four, for the first rule. It exceeded by eight the Whips' calculation. Lord Rosebery's address, as Lord Rector of the University of Edinburgh, attracted universal attention in the English press. It was distinguished by good sense, brilliant rhetoric and an appeal to Scottish pride. Mr. Trollope's illness is paralysis, complicated by apoplectic symptoms. He remained unconscious and speechless from Friday till Thursday; now he is improving slightly. His physicians are hopeful of his ultimate recovery. His illness is due to persistent over-work. The World's London cable letter says: The American stock market is inanimate, but Atlantic have recovered somewhat, it being rumored that Allport will join in voting for the trustees of the New York, Pennsylvania and Ohio Railway. The Sun's London letter says: The post-master general says that when the new mail contracts are entered into, the line making the quickest passages will be favored, provided their regularity justifies it. MADRID, Nov. 12. The Queen has been safely delivered of a daughter. The Queen and infant are both doing well as could be expected. The child will be baptized on Wednesday and be named Isabel. NEW YORK, Nov. 12. A despatch from London says news has just been received there that the Oriental

steamship Austral had foundered in Sydney harbor. No details.

CAIRO, Nov. 12. Lord Dufferin has made an excellent impression on the Egyptian ministers. He told them he had not come here to take the direction of affairs out of the hands of Sir Edward Malot, but to work with the latter on terms of perfect equality. Malot, yesterday, discussed with Sir Auckland Colvin the subject of the division of the work in connexion with Lord Dufferin's mission. The business of the mission commences immediately, as Dufferin has received instructions from the British cabinet by the mail which just arrived.

The "Luona" Mine.

The Silver Record, of Gothic, Col., reports that the Luona Mine, in which our mutual friend, Mr. Fletcher is largely interested, is to be worked all winter. The Company are engaged in boring a tunnel to carry off the water which impeded their operations. When this work was begun, the calculation was that it should be completed in September. But after the tunnel was driven some eighty feet the rock suddenly changed and became desperately hard, so that the progress ever since has been necessarily slow. Ent, the Silver Record reports, "It is estimated that the Luona vein cannot be more than seventy-five or a hundred feet from the present joint tunnel, so that we may expect to hear one of the biggest strikes ever made in this country before many weeks roll around."

DEAR SIR.—I desire to express my feelings of profound gratitude to you who have helped me so much by the use and application of your wonderful medicine known as your Absorbent Pads and Plasters, &c. I was sick about two years and spent a large sum of money with physicians but received very little benefit until I tried your absorbent treatment. When I commenced using it this summer I could scarcely walk across the floor, I had such a weakness across me, and now I can walk a mile at a time and attend to household duties much better than I could before, and feel only too glad to recommend this truly great treatment to any person or persons who may be afflicted as I was. You are at liberty to make any disposition of this note you may deem proper.

To the Electors of the First Legislative Council District of Queen's County. GENTLEMEN,—In compliance with the unanimous nomination of a Convention of delegates from all sections of the District, I am a candidate for your suffrages at the approaching election.

In order that direct taxation may be avoided and the best interests of the country promoted, my first endeavor shall be to reduce the Legislature to one Chamber, for I believe the Second Chamber is, in our altered circumstances since Confederation, unnecessary and burdensome. I shall, at the same time, protect, to the fullest extent, the interests of all property-holders throughout the Province. As the time is short I shall not be able to visit you personally, but I confidently expect your votes and influence. I remain, gentlemen, Your obedient servant, JAMES JOHNSON. Nov. 8, 1882.
