A PROGRESSIVE BARBER SHOP—Thoroughly gone over from top to bottom by painters and paper hangers, the Doyle Tonsorial Parlors on Lower Queen St., presents an admirable appearance. Mr. Doyle who is a firm believer in the old saying that "cleanliness is next to godliness," realizes that next to being an up-to-date barber, a comfy barber shop and good service is also a great asset to business. "Paddy" as he is familiarly known is to be congratulated on his ingenuity and progressiveness along these lines and is assured no doubt that his shop will enjoy an usual amount of patronage.

BRANTFORD REFRIGERATORS

Give You the Lowest Temperature For the Least Ice

These Refrigerators are guaranteed to maintain a lower temperature than other Refrigerators of equal size filled with the same quantity of ice and to do this on the smallest consumption of ice. Properly proportioned ice chambers give the largest amount of provision space and give it at the bottom where the temperature is lowest.

BEST IN USE—BEST IN TEST

This is how the Brantford stood a special test of the Canadian Government, Department of Health. In a temperature of almost 100 degrees, inside the Brantford the temperature was below 40 degrees. This test lasted 72 hours. The food was as fresh as when it was put in and there was twice as much ice left as had been consumed. These Refrigerators will do the same in your home. Call and inspect them.

A CHEMIST'S OPINION

IMPERIAL FOX BISCUITS

Charlottetown, P. E. I. May 2, 1922.

To The Manager Imperial Biscuit Co., Ltd. Charlottetown, P. E. I.

Dear Sir:

Replying to your inquiry as to my success with Imperial Cod Liver Oil Biscuits I may say that we used them in the Vimy Ranch last year as the principal part of our fox diet. We fed them every evening broken up in milk. In the Fall we had a splendid lot of foxes, and a remarkable fact was that we had no poor foxes—all were well furred and vigorous. This I ascribe largely to the fact that your Biscuit contains medicinally pure Cod Liver Oil.

You will remember Sir, that I impressed on you the importance of getting that kind of Oil for your Biscuits. As a chemist I am acquainted with the properties of pure Cod Liver Oil, and may say, that it contains a principle which has the property of causing foods to be assimilated. It also contains a small portion of iodine, which has the property of stimulating the growth of fur.

I have much pleasure in telling you that the pelts I sold Mr. McLure last Fall were admired by many Fox Ranchers who viewed them at his premises. Everyone remarked about their glossy sheen and splendid fur. The Foxes that were pelted were fed actually nothing but Biscuits and milk, and just a very small feed of meat once a day. I can, therefore, conscientiously recommend them to anyone who is raising Foxes, and can assure them that their use will result in giving them good vigorous foxes, well furred, with splendid sheen and free from internal parasites, due to the stimulating qualities of the Cod Liver Oil on the intestines.

D. A. MacKINNON, Manager, Vimy Fox Ranch
