

Timely Hints.

If the feet are tender or painful after long walking or standing, good relief can be had by bathing them in salt and water.

In ventilating a room open the window at top and bottom. The fresh air rushes in one way while the foul air makes its exit the other.

A damp cloth enveloping the broom head will be found desirable in removing the dust from a carpet in a room where they may be many small articles to catch the dirt raised from an ordinary sweeping.

To prevent the juice of pies soaking into the under crust, beat the white of an egg and brush the crust with it. If the oven is to hot when baking, place a dish of cold water in it.

Soda will clean tarnished tin. Vinegar and salt will clean copper. Common baking soda put on a burn will take out the heat.

England's "Immortals."

A London despatch says that some time ago the Pall Mall Gazette which has a highly literary constituency, asked its readers to name the 40 Englishmen who ought to receive immortality if there were established here an academy of letters such as that in France.

New lungs cannot be made by medicines, or the skill of physicians, but the old ones can be strengthened and preserved by the use of Adams's Botanic Balsam.
